GSA Global Supply™

Your Reliable Government Source

U.S. General Services Administration

Your Mission. Your Way.

2010
Environmental Products

www.GSAglobalsupply.gsa.gov

See it. Buy it. Get it.

Make GSA your source for environmentally friendly products.

GSA assists military and civilian agencies in acquiring environmentally friendly products, while offering flexible options designed to accommodate specific requirements. Together, these benefits present comprehensive and flexible choices suitable for meeting any "green" product requirement.

Highlights of GSA's Flexible Requisition/Acquisition Methods:

Requisitioning from GSA

GSA Global Supply™ procures environmentally friendly products, meeting the recurring needs of your federal agency or branch of the military. Since we have already procured the most in-demand "green" products on the government's behalf, obtaining these products through GSA Global Supply is a simple requisition between agencies – no comparison shopping is necessary. Standard shipping is included with most orders and "direct delivery" products are clearly identified.

This catalog features some of our most popular "green" products. To view our complete offering of products, visit **www.GSAglobalsupply.gsa.gov**. Once on the Web site, select "Go" beneath the "Browse Products" option. After you advance to the next page, choose the "Green Items" tab. You will find a vast array of products, including environmentally friendly paper products, biobased cleaners, lead-free paints and coatings, and much more.

For additional information about ordering from GSA Global Supply, see page i of this publication.

Purchasing from a GSA Vendor

By offering environmentally friendly products that cover the breadth of the commercial marketplace, the GSA Multiple Award Schedule (MAS) program enables your agency to choose from thousands of "green" products available from hundreds of pre-qualified vendors. Typically, this method of procurement is quicker and easier than open-market procurements. Although an acquisition is a more involved option than a requisition through GSA Global Supply, issuing a purchase order through the MAS program may be appropriate for obtaining products not widely requested enough to be included in our inventory. For more information, visit **www.gsa.gov/environmental**.

Special Order Program

GSA Global Supply has a robust Special Order Program (SOP). Customer agencies can place requisitions for NSN or part numbered items with us and be assured that GSA will take all the necessary steps to ensure compliance with all Federal Acquisition Regulations (FAR) and Executive Orders. Our SOP includes a wide variety of products and related services such as tools and hardware, office products, cleaning supplies and fire equipment. SOP items can be ordered by dialing our GSA Global Supply call center at (800) 525-8027 or via FEDSTRIP/MILSTRIP. GSA Global Supply Stores or Base Stores can also assist with placement of SOP orders (visit **www.gsa.gov/globalsupply** for more information on Global Supply stores and Global Supply base partners).

In addition to the environmentally friendly products we have available, GSA has contracts in place with hundreds of vendors that offer a wide variety of "green" services. The selection is comparable to that of the commercial marketplace but without the burden of performing an open-market procurement. For more information on GSA environmentally friendly services, see page vi of this catalog. For vendor listings, please access the GSA eLibrary through **www.gsa.gov/elibrary**.

Ensuring Re-Use with GSA Personal Property Management

Screening other agencies' excess personal property inventories is the federal government's priority source of supply. And with today's increased environmental consciousness, reusing excess property is a source of pride. To help you acquire the excess property your agency needs, GSA offers **www.gsa.gov/gsaxcess**, the personal-property reporting tool for the federal government. At GSAXcess®, reporting, searching and selecting excess property is convenient and user-friendly.

Go Green with a selection of "green" products from GSA Global Supply™...

From office supplies and equipment, to tools and hardware, to cleaning supplies, computer products and furniture, GSA Global Supply offers a variety of in-demand environmentally friendly products that carry our service guarantees:

- Easy Requisitions – See It. Buy It. Get It.
- Flexible – Featuring Multiple Ordering Options
- Reliable – Delivering the Products You Need, Where You Need Them
- Anywhere – Assuring Global Delivery
- Anytime – Supporting 24/7 Purchasing
- More – Offering Extensive Product Selection
- Safe – Providing Easy Compliance

The items in this publication are just a few of the "green" items available to you. For a complete selection, visit us online at **www.GSAglobalsupply.gsa.gov**.

Ordering

Online (24 Hours):
www.GSAglobalsupply.gsa.gov

The GSA Global Supply website gives you access to tens of thousands of tools, office supplies, computer products and other items. You can use your government purchase card or arrange direct billing with your Activity Address Code (AAC/DoDAAC). Select the items you want and place your order.

All GSA Global Supply items are also available via GSA*Advantage!*® and the DOD EMALL Web site.

Telephone:
(800) 525-8027
DSN 465-1416

Call our toll-free number to place your order. We are open from 7:30 a.m. to 8 p.m. (Eastern Time), Monday through Friday.

Fax Orders (24 Hours):
(800) 856-7057

You will receive a confirmation via fax.

Part-Number Ordering

Many GSA Global Supply catalogs feature items with National Stock Numbers (NSNs) and others with GSA part numbers. FEDSTRIP/MILSTRIP customers can order GSA part-numbered items by entering "GSA" as the Routing Identifier Code (RIC), and using one of the following Document Identifiers (Doc ID):

- AOB: For domestic shipment
- AO2: For overseas shipment

Both NSNs and GSA part-numbered items carry the same customer benefits. All are FAR-compliant and AbilityOne Guaranteed. All can be shipped anywhere on the globe. All are backed by GSA Global Supply customer service.

DOD EMALL

All GSA Global Supply items appear on the DOD EMALL Web site. Customers must use their AAC/DoDAAC to purchase GSA items.

Going Green

"Going green" has become the catch-all phrase of everything good for the environment. We all want to be "good" to the environment, but what does that mean?

1 pound per hour: the amount of carbon dioxide that is saved from entering the atmosphere for every kilowatt-hour of renewable energy produced.

35 percent: the amount of coal's energy that is actually converted to electricity in a coal-burning power plant. The other two-thirds is lost to heat.

5 percent: the percentage of the world's carbon dioxide emissions expected to be produced by air travel by the year 2050.

1.5 acres: the amount of rainforest lost every second to land development and deforestation, with tremendous losses to habitat and biodiversity.

137: the number of plant, animal and insect species lost every day to rainforest deforestation, equating to roughly 50,000 species per year.

36: the number of U.S. states that are anticipating local, regional or statewide water shortages by 2013.

What does it mean to "go green"?

"Going green," in its simplest definition, means to give environmental considerations to actions and/or the acquisition, consumption and disposal of products, goods and services that impact the environment.

Should I "go green"?

As a consumer, you demonstrate commitment to a healthy, sustainable future by making socially conscious purchases of products or services for your family, home and environment that minimize negative impact on human health and the environment.

As a public servant, you have a responsibility to make those same socially responsible decisions on behalf of the federal government. When you make an environmentally friendly purchase as a federal agent, you consider environmental impacts, along with price, performance and other traditional factors.

Why should I purchase environmentally friendly products and services?

The federal government is the single largest consumer in the U.S., spending over $350 billion each year on a wide variety of products and services. The government's purchase and use of products and services leaves a large environmental footprint.

As a global citizen, the federal government has the same concerns as individuals to preserve and protect the environment. Through your purchasing decisions, the government can minimize its environmental impact by providing agencies with products that address pollution prevention, waste minimization and resource conservation.

As a steward of the environment, the federal government has enacted a variety of laws, regulations and executive orders that bind federal agencies to purchase environmentally friendly products and services containing a number of ideal attributes. These attributes include, but are not limited to, recycled content, postconsumer content, energy efficient, renewable energy sources, bio-based, less toxic, less hazardous constituents, and environmentally preferable.

These laws include the Federal Acquisition Regulation (FAR) Part 23, Executive Orders 13423 and 13514, Section 6002 of the Resource Conservation and Recovery Act (RCRA), the Energy Policy Act and the Farm Security and Rural Investment Act (FSRSIA).

However, mandatory environmental purchasing requirements are only one reason to buy environmental products and services. By buying environmentally friendly products, you minimize the negative impact on the environment and provide such benefits as:

Environmental Benefits

- Enhancement and protection of biodiversity and ecosystems
- Air and water quality improvement
- Waste stream reduction
- Restoration and conservation of natural resources

Economic Benefits

- Lower operating costs
- Reduced liabilities
- Expansion of markets for green products and services
- Improved productivity

Social Benefits

- Enhancement of comfort and health
- Lessened strain on local infrastructures
- Improved overall quality of life

3 trillion: the number of gallons of water, along with $18 billion, the U.S. would save each year if every household invested in water-saving appliances.

64 million tons: the amount of material prevented from going to landfill or incineration thanks to recycling and composting in 1999.

95 percent: the amount of energy saved by recycling an aluminum can versus creating the can from virgin aluminum. Energy savings in one year alone are enough to light a city the size of Pittsburgh for six years.

113,204: the number, on average, of aluminum cans recycled each minute of each day.

40 percent: the percentage of energy saved by recycling newsprint over producing it from virgin materials.

Why to Go Green: By the Numbers Sources: Consumer Reports, Environmental Health Perspectives, Raintree Nutrition, Environmental Protection Agency (EPA), and EPA Water and EPA Recycling, Worldwatch Institute, Energy Information Administration, Ready, Set, Green, Earth911.org, The Telegraph, Yahoo! News

How do I find environmental products and services?

GSA, the procurement agency for the federal government, offers a variety of environmental products and services to assist agencies in their efforts to comply with federal acquisition policies for "green" purchasing requirements. Identifying the environmental attributes of everyday products can often be the most difficult aspect of buying supplies and equipment.

GSA continually updates contracts to ensure that its vendors supply products that meet mandated federal environmental goals, and provides easy access to those products through GSA Global Supply™ and GSA*Advantage!*®.

GSA Global Supply™

GSA Global Supply offers *Easy, Flexible, Reliable* access to a wide variety of environmentally friendly products, saving you the burden of performing a procurement. We procure high-demand products ranging from office supplies and equipment, to tools and hardware, to cleaning supplies, to computer products, to furniture. Agencies are assured that every purchase through GSA Global Supply complies with FAR and Executive Orders – and can meet environmental purchase needs.

A sampling of these products is presented on the following pages. All these and more are offered on a requisition basis and can be found at **www.GSAglobalsupply.gsa.gov**.

Visit our site and select the "Green" items tab on the top of the main shopping page; this will result in a listing of all environmentally friendly items. This list can be filtered using specific product attributes or price.

Selecting the "Green" Items tab on the main page produces a list of environmentally friendly products.

The environmentally friendly product offering can be further narrowed by selecting the appropriate environmental attribute and/or price.

GSA*Advantage!*®

GSA*Advantage!*®, GSA's online shopping and ordering system, provides access to thousands of contractors and millions of supplies and services through GSA Multiple Award Schedule (MAS) contracts, as well as GSA Global Supply™ products. GSA*Advantage!*® features a "green" shopping experience designed to allow direct access to the variety of environmental products that GSA offers. It can be accessed at **www.gsaadvantage.gov/environmental**, or by clicking on the environmental specialty category listing on the GSA*Advantage!*® homepage, as shown below.

The Environmental Aisle contains links to environmental policies, program information, and options for filtering search results by specific environmental attributes.

Selecting Environmental from the main page takes you to the Environmental Specialty Category.

Environmental Attribute Icons

Environmental attribute icons make identifying environmental products in printed catalogs and the ordering websites easy.

Here is a quick-reference guide to those symbols.

Environmentally Friendly – Item contains environmental attributes or features such as water conserving, lead-free, etc. as described in the item detail.

Recycled – Item contains recycled content as described in the item detail (U.S. Environmental Protection Agency [EPA] item meeting EO 13101).

Comprehensive Procurement Guideline compliant – This product has been certified to meet or exceed the U.S. Environmental Protection Agency's Recovered Material Advisory Notice (RMAN) standard for recovered materials as specified in the Resource Conservation and Recovery Act Section 6002 Comprehensive Procurement Guideline.

Energy Star – Item complies with U.S. Department of Energy (DOE) and U.S. Department of Environmental Protection Agency's (EPA) Energy Star Program as required by the Federal Acquisition Regulation (FAR) Subpart 23.203 and Executive Order 13123.

FEMP – Item meets Federal Energy Management Program (FEMP) energy efficiency levels as required by the Federal Acquisition Regulation (FAR) Subpart 23.203, Executive Order 13123, and Executive Order 13221.

PRIME – Item is included in the Navy's Plastics Removal in Marine Environment (PRIME) program. Items in the PRIME program require biodegradable packing materials.

NESHAP compliant – The "as applied" formulation of this coating has been certified to meet applicable volatile organic compound and hazardous air pollutant emission limits as established by National Emissions Standards for Hazardous Air Pollutant (NESHAP) regulation, 40th Code of Federal Regulation, Part 63.

GreenSeal Seal of Approval – This product has been certified to meet or exceed voluntary standards for environmental preferability as established by GreenSeal.

California South Coast Air Quality Management District compliant – This product has been certified to meet or exceed applicable air emissions standards established by the California South Coast Air Quality Management District.

Biobased – Commercial or industrial items utilizing biological products or renewable domestic agricultural (plant, animal, and marine) or forestry materials.

U.S. EPA Significant New Alternatives Program Approved – This product meets the U.S. EPA Significant New Alternatives Program criteria requirement as a suitable substitute for ozone depleting substances.

U.S. EPA Environmental Technology Verification – This product has been evaluated under the U.S. Environmental Protection Agency Environmental Technology Verification Program and found to be an innovative technical solution, beneficial to human health or the environment.

Non-Toxic item – Item is non-toxic.

Electronic Product Environmental Assessment Tool (EPEAT) registered item – federal ordering activities are required to give preference to information technology (IT) products with one of the following three EPEAT ratings: bronze, silver or gold.

EPEAT **Bronze:** Product meets all required criteria.

EPEAT **Silver:** Product meets all required criteria plus at least 50% of the optional criteria that apply to the product type being registered.

EPEAT **Gold:** Product meets all required criteria plus at least 75% of the optional criteria that apply to the product type being registered.

Environmental Products

50% Postconsumer Paper

Aspen 50 copier paper has the same hardworking characteristics and brightness as non-recycled sheets. It is high-performing with excellent runnability. Engineered for use in high-speed copiers, printers, and plain-paper fax machines, this acid-free paper has a 20-lb. basis weight and 92 brightness. Complies with the National Defense Authorization Act of 1998 and AFI 64-117, AF Government-Wide Purchase Card (GPC) program guidelines 2.10.4.

♻ *50% Postconsumer Material*

Bathroom Cleaner

BioRenewable bathroom cleaner contains 83% biobased material. Efficient cleaning action quickly removes soap scum in showers, shower rooms (floors & walls), toilets, urinals, porcelain, ceramic, fiberglass and similar hard, non-porous surfaces. For general, light duty restroom cleaning, dilute 12 ounces into one gallon of water. Rinse thoroughly. Do not use on non-acid resistant surfaces.

Box contains 12, (32-oz.) containers and one foam sprayer.

24-month maximum shelf life (extendable)

Low-VOC Item; Biobased

7930-01-555-2900	DD MSDS	AbilityOne	1 qt.	BX(contains 12 EA)	$58.10

Glass Cleaner

BioRenewable ready to use glass cleaner contains 81% biobased material. Use for cleaning windows, mirrors, glass and plexiglass. Contains no ammonia.

Box contains 12, (32-oz.) containers and 12 trigger sprayers.

24-month maximum shelf life (extendable)

Low-VOC Item; Biobased

7930-01-555-2898	DD MSDS	AbilityOne	1 qt.	BX(contains 12 EA)	$38.67

BioRenewable concentrated glass cleaner contains 81% biobased material. Use to clean and polish any hard surface not harmed by water such as window glass, panes and sills, mirrors, countertops, chrome, automobile glass, fluorescent lights and tubing and any glass or mirror finish. Removes tough stains such as grease, smoke, oils, tape residue, food stains, dust and dirt. Contains no ammonia. For general cleaning use 2 ounces per gallon of cold water. Not for use on wood furniture or other polished surfaces. (Do not mix with other chemicals.)

24-month maximum shelf life (extendable)

Low-VOC Item; Biobased

7930-01-555-3384	DD MSDS	AbilityOne	1 gal.	BX(contains 4 EA)	$53.44

Multi-Purpose Cleaner

BioRenewable TriBase multi-purpose cleaner contains 72% biobased material. Use to clean glass, mirrors, floors, walls, restroom and kitchen surfaces and tile. Cleans any surface not damaged by water. Apply with mop, brush, pressure washer or use as a spray and wipe cleaner.

24-month maximum shelf life (extendable)

Low-VOC Item; Biobased

7930-01-555-2901	DD MSDS	AbilityOne	1 gal.	BX(contains 4 EA)	$55.69

Multi-Purpose Germicidal Cleaner

Biodegradable industrial strength cleaner and disinfectant quickly cuts greasy, grimy soils, light rust, oil and tar. Kills HIV-1 (AIDS virus), bacteria, salmonella and fungi. Multi-purpose spray is perfect for cleaning, degreasing and disinfecting a wide variety of hard surfaces. Also destroys bacterial odors. Non-flammable, ready-to-use and harmless to most hard surfaces.

Comes in a pump spray bottle.

Low-VOC Item; Nontoxic Item; Biodegradable per EPA/OECD test methods; EPA registered (applicable to disinfectants and pesticides per FIFRA)

Machinery Wiping Cloth

These heavy-duty, non-woven wiping cloths feature soft, absorbent cellulose layers sandwiched between layers of non-interlaced rayon fibers. Both the base material and the reinforcement fibers decompose in landfills and salt water, making them environment-friendly and decomposable. Also, because the fibers are not interlaced, they will not pose a hazard to wildlife before decomposing. Base cloth is made from recycled material.

80% Recycled

Biodegradable per EPA/OECD test methods

B. Grade A; Thickness: 3/4"; Chiseled edge.

8020-00-260-1302	PRIME	2"w x 2-3/4"l	EA	$4.01

C. Grade A; Thickness: 13/16"; Chiseled edge.

8020-00-205-6500	PRIME	3"w x 3-5/16"l	EA	$6.61

Sash & Trim Brush

These brushes are specially designed for painting small, narrow areas on wood and metal furniture, pipes, window frames and screens. Use hog bristle brushes only for solvent-based coatings. Synthetic bristle brushes may be used with solvent- or water-based coatings. Oval brushes have 7-1/2" handles; flat brushes have 7" handles and angular, bevel-cut bristles.

Hog bristle brush. Square shape.

8020-00-559-0438	PRIME	2-3/16" L x 1" W x 3/8" Thick.	EA	$2.16
8020-00-559-0389	PRIME	2-7/16" L x 2" W x 1/2" Thick.	EA	$3.46

Thinner

Mineral spirits are for thinning paints, primers, enamels and varnishes. May also be used as a solvent and as a carrier for alkyd and other resin concentrates in odorless paint. Typical VOC 100%. ASTM D 235-02.

Type I - Full Range.

36-month maximum shelf life (extendable)

8010-00-558-7026	MSDS	PRIME	Clear	CN(contains 5 GL)	$98.72

Traffic Paint

Ready-mixed water- and abrasion-resistant parking lot paint is designed for use on Portland cement, concrete, bituminous pavement, brick, or stone surfaces of parking lots. Limited by US EPA VOC regulations to parking lot marking only. Adheres well, and glass beads can be added to make paint stripes reflectorize. Dries to a flat finish. For brush or traffic marking equipment application. Typical VOC 150 g/l. CID A-A-2886.

Type I - For use under normal conditions.

12-month maximum shelf life (extendable)

Lead-Free Item According to ASTM/EPA Test Methods; Mercury-Free Item According to ASTM/EPA Test Methods; Hexavalent-Chromium Free Item According to ASTM/EPA Test Methods; Carcinogen Free

8010-00-082-2598	MSDS	Yellow 33538	CN(contains 5 GL)	$118.10

This 100% acrylic waterborne paint covers two types of low-VOC, ready-mixed paint. Suitable for application on airfield, streets, roads, highways and other traffic-bearing surfaces such as Portland cement concrete, bituminous cement concrete, asphalt, tar and previously painted areas of those surfaces. Use paint alone or to bind reflective beads conforming to TT-B-1325. Maximum VOC 150 g/L. TT-P-1952.

Type I - For use under normal conditions.

12-month maximum shelf life (extendable)

Lead-Free Item According to ASTM/EPA Test Methods; Mercury-Free Item According to ASTM/EPA Test Methods; Hexavalent-Chromium Free Item According to ASTM/EPA Test Methods; Toluene Free; Carcinogen Free

GSA Global Supply – Your Reliable Government Source.

Aerosol Enamel

Fast-drying, general-purpose interior and exterior enamel is perfect for coating small objects and areas. For use on metal, wood, plaster, masonry, stone, glass, leather, fiber, and previously painted surfaces. Packaged in an aerosol can that sprays easily without sputtering, using moderate finger pressure. User should shake by hand for one minute before using. A-A-2787.

Type I - Solvent-thinned enamel. VOC: 60%

36-month maximum shelf life (extendable)

General-Purpose Adhesive (Epoxy)

A fast-setting, two component epoxy based adhesive for use with assemblies on Pratt & Whitney turbofan engines.

24-month maximum shelf life (extendable)

No Hazardous Waste; Nontoxic Item

8040-00-092-2816	MSDS	Clear	A & B 3.5gm Total.	BX(contains 100 EA, EA has 3.5 GM)	$91.90

The FEDSTRIP Operating Guide is a handy reference tool for users of FEDSTRIP/MILSTRIP systems. Order a free copy at www.gsa.gov/cmls.

Epoxy Ship Paint

Epoxy polyamide finish coat protects bilges, tanks, exterior underwater hulls and other components of a ship. The hard, durable and chemically resistant coating is appropriate for sandblasted steel, aluminum or fiberglass surfaces. Resistant to water immersion and solvents. Non-porous. Dries to a semigloss finish. Apply by spray or brush. Kit consists of equal quantities of components A and B. MIL-DTL-24441.

Type III - Three coat system. Maximum VOC: 340 g/L.

24-month maximum shelf life (extendable)

CFC-Free Item; Chromate-Free Item According to ASTM/EPA Test Methods; Lead-Free Item According to ASTM/EPA Test Methods; Low-VOC Item; ODS-Free Item; Mercury-Free Item According to ASTM/EPA Test Methods; Cadmium Free According to ASTM/U.S.EPA Test Methods; Hexavalent-Chromium Free Item According to ASTM/EPA Test Methods; Benzene-Free Item According to ASTM/EPA Test Methods; NESHAP compliant; Toluene Free; Carcinogen Free; HAPS Free

8010-01-302-3608	MSDS	PRIME	CA	Green 24272	10gal A & B Total, Formula 150 KT	$316.07

Marine Coating

This silicone alkyd copolymer (solvent-based) enamel is intended for use on primed, smooth metal, fiberglass, wood and plastic/composite surfaces. Highly weather-resistant enamel has excellent color and gloss retention, good drying, freedom from aftertack, and good flexibility. For brush, roller or spray application. MIL-PRF-24635. MEETS QPL REQUIREMENTS.

Type II - Maximum VOC 340 g/L; Class 2 - Dries to semi-gloss finish (45 to 60%); Grade A - Standard pigmented.

24-month maximum shelf life (extendable)

Low-VOC Item; ODS-Free Item; NESHAP compliant; Carcinogen Free

8010-01-350-4727	MSDS	CA	Gray 26008	CN(contains 5 GL)	$173.70
8010-01-344-5322	MSDS	CA	White 27875	CN(contains 5 GL)	$184.36

Enamel (Fire-Retardant)

This fire-retardant enamel is designed for use on primed or painted metal bulkheads. The chlorinated alkyd resin enamel forms a dry, rust-resistant film that will not burn. It retards combustion, but will not prevent burning of base material. Dries to the touch in two hours; dries hard (to a semi-gloss finish) in six hours. Applied by spray or brush. May be used with hot spray equipment. Maximum VOC: 340 g/L. MIL-DTL-24607.

12-month maximum shelf life (extendable)

Lead-Free Item According to ASTM/EPA Test Methods; Low-VOC Item; Mercury-Free Item According to ASTM/EPA Test Methods; Cadmium Free According to ASTM/U.S.EPA Test Methods; Benzene-Free Item According to ASTM/EPA Test Methods; NESHAP compliant; Toluene Free; Carcinogen Free

8010-01-344-5100	MSDS	CA	White 27880	CN(contains 5 GL)	$248.09

CARC Polyurethane Coating

Water-dispersible, chemical agent resistant, aliphatic polyurethane coatings for use as a finish coat on all military tactical equipment, which includes ground, aviation and related support assets. The materials are free of hazardous air pollutants (HAP-free), lead and chromate (hexavalent chromium) free, and have a maximum volatile organic compound (VOC) content of 220g/L (1.8 lb/gal) as packaged. Packaged in two-part kits which are mixed, then water is added to final volume. MIL-DTL-64159. QPL QUALIFICATION REQUIRED.

Type II - Polymeric Bead. Features the following: Novel pigment package; Use of polymeric beads for flattening agents; Non-marring; Superior weather resistance compared to standard CARC systems.

12-month maximum shelf life (extendable)

Chromate-Free Item According to ASTM/EPA Test Methods; Lead-Free Item According to ASTM/EPA Test Methods; Low-VOC Item; Hexavalent-Chromium Free Item According to ASTM/EPA Test Methods; Benzene-Free Item According to ASTM/EPA Test Methods; HAPS Free

8010-01-493-3190	DD	MSDS	CA	Black 37030	Volume: 3 gal.	KT	$126.44

Single-Component CARC Polyurethane Coating

Use this single-component, chemical agent resistant, polyurethane coating (CARC) as a finishing coat on military combat equipment. Easily decontaminated after exposure to liquid chemical agents, coating also is resistant to water, weather, hydrocarbons and acids. Dries to the touch in 30 minutes and dries hard to a flat finish in three hours. Apply over epoxy primers by spray or brush. Maximum VOC: 420 g/L. MIL-DTL-53039. MEETS QPL REQUIREMENTS.

12-month maximum shelf life (extendable)

Lead-Free Item According to ASTM/EPA Test Methods; Hexavalent-Chromium Free Item According to ASTM/EPA Test Methods; Carcinogen Free

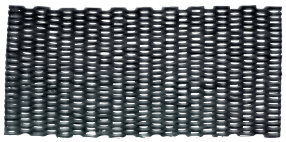
GSA Global Supply accepts the GSA SmartPay 2® purchase card or direct billing through your AAC.

Doormat



Useful in entryways to remove dirt from shoes. Made from recycled tires, this quality mat will not damage or mar floors. This reversible mat features corrosion-resistant cross-wires which make it flexible and easy to roll for storage.

80% Postconsumer Material Contains 85% Recovered Material

7220-00-238-8852	CPG	AbilityOne	Natural gray-black	30" L x 18" W x 5/8" T	EA	$27.76

Putty Knife

For efficiency in glazing work and application of wood fillers and putty-like materials. High-grade hardened steel blade tapers in width to blend with handle, and has a slightly beveled edge. Tang extends flush with edges of handle. The handle is made of wood or plastic and is 3-3/4" long. Riveted handle surfaces provide a comfortable grip.

5120-00-221-1536	PRIME	Blade: 3-1/2" L X 1-1/4" W, Flexible.	EA	$1.93
5120-00-294-4605	PRIME	Blade: 3-1/2" L X 1-1/4" W, Semi-Flexible.	EA	$1.93

Ship Scraper

Hardened and tempered high-carbon steel scraper removes paint and scale from finished surfaces. Double ended scraper is an all-metal design. One end is a flat, widened working edge and the other end is bent downward at a 90˚ angle. Each end is forged, hardened, tempered and ground to a double-beveled scraping edge.

5110-00-240-3094	PRIME	Blade: 15"l x 1-3/4"w	EA	$7.37

Ball Peen Hammer

These hammers are hard faced & either a machinist or engineer type. They will have a polished striking face on one end for striking punches & chisels & a polished hemispherical ball peen on the other end for use in riveting, shaping, & straightening unhardened metals. The handle can be made of wood, plastic, fiberglass or metal and may or may not be covered by an additional grip for comfort. It is the hammer of choice when making gaskets or driving- drift pins. B107.53.

5120-00-061-8541	PRIME	8oz, 12" L, Comfort Grip / Machinists.	EA	$13.90
5120-00-061-8543	PRIME	16oz, 13-1/2" L.	EA	$15.32

Measuring Tape (Steel)

Self-supporting steel measuring tape features permanent graduation markings and numbers printed on the full length of the tape. Housed in a butt-end plated metal or impact-resistant plastic case.

Features pull-push winding. Graduations are in 1/16 inch (first 6 inches graduated in 1/32 inch). Reads from left to right. The case does not have a stop or release mechanism for the blade.

5210-00-287-3335	PRIME	Length: 6'; Width: 1/2"	EA	$11.03

Adjustable-Joint Pliers (Angle Nose)

These angle nose, adjustable-joint pliers have either serrated or smooth jaws. The movement of the jaw can be either from groove and tongue or multiple hole design. The multi-position, adjustable-joint permits the jaws to be opened wider. These chrome-plated, forged steel pliers have polished heads. ASME B107.23.

Type I: (Adjustable joint, angle nose), Class 1: (Multiple grooves and tongue), Style A: (Straight, serrated jaws).

5120-00-278-0351	PRIME	8" L, Comfort Grip.	EA	$10.26
5120-00-278-0352	PRIME	10" L, Comfort Grip.	EA	$12.55

Diagonal Cutting Pliers

These general purpose diagonal cutting pliers are designed for cutting wires, nails, pins, screws or light metal. They are forged from alloy steel & have polished heads. B107.11.

Type: I (Diagonal cutting, regular nose), Class: 1 (Plain), Style: A (Standard cutting edges).

5110-00-935-0890	PRIME	4" L, Comfort Grips.	EA	$10.11
5110-00-618-2700	PRIME	4-1/2" L, Handles Covered with Red Vinylite.	EA	$10.11
5110-00-239-8253	PRIME	6" L, Comfort Grips.	EA	$10.08
5110-00-222-2708	PRIME	7-1/2" L, Comfort Grips.	EA	$13.21

Aviation Snips

Aviation snips have compound lever action for easy repetitive cutting. Blades are drop forged alloy steel & are serrated to prevent slipping. All snips come with cushion grip handles & a safety latch. Described by: (Size, Length of cut min.). ASME B107.16.

Type 2: Compound Lever (Aviation), Class 3: Circular cutting to the left.

5110-00-273-0126	PRIME	10, 1-3/16" L Cut.	EA	$12.79

Flat Tip Screwdriver

These straight, chrome plated, handle type, flat tip screwdrivers are for inserting & removing screws with a straight single slotted recess. It is the perfect tool used by all trades. The screwdriver may have an optional Bolster & the handle may be covered by an additional grip for comfort. B107.600

Type 2: General-purpose screwdriver with flared sides & features a round shank.

5120-00-237-6985	PRIME	8" L, 3/8" W Tip, Plastic W/Cushion Grip.	EA	$6.56

Cross Tip Screwdriver (Phillips)

These straight, handle type, corrosion-preventive coated, Phillips or Pozidriv screwdrivers are for inserting & removing screws with a cross tip slotted recess. It is the perfect tool used by all trades. The screwdriver may have an optional Bolster & the handle may be covered by an additional grip for comfort. B107.600

5120-00-234-8912	PRIME	6" L, #3 Tip, Plastic Handle.	EA	$2.49

Box Wrench Set

These double head chromium plated box wrench sets come in either 6 or 12 point design. They come in one of three types, 15 deg offset, 45-65 deg modified offset or 40-65 deg deep offset. They can also be of regular or short length. B107.100.

Type: 3 (Deep Offset), Class: 1 (Regular Length).

Set consists of (5) wrenches in the following sizes: 3/8 X 7/16", 1/2 X 9/16", 5/8 X 11/16", 3/4 X 7/8" & 15/16 X 1".

5120-00-293-3453	PRIME	12 Point, Roll or Wrap.	SE	$110.85

Electric Drill

Reversible, variable-speed, straight-drive drill has a removable auxiliary side handle and a trigger lock-on button. Double insulated. Heavy-duty, portable drill converts to a clutch screwdriver. Has a 1000 rpm to 1400 rpm no-load speed. Operates on 120-volt, 60-Hz current at 5 amp. Has a key-operated, three-jaw chuck. Comes with an instruction book and a chuck key with holder. Conforms to UL standards.

5130-00-935-7354	PRIME	Chuck Size: 3/8"	EA	$199.04

PRIME

Item is included in the Navy's Plastics Removal in Marine Environment (PRIME) program. Items in the PRIME program require biodegradable packing materials.

Drill Bit Set (Cobalt HSS)

Aircraft quality, heavy duty cobalt high speed steel bits for use in constant speed drills. Cobalt drills maintain their cutting ability at higher temperatures which is common in drilling harder materials. Recommended for use in the following types of steels: high strength alloy steels, stainless steel, titanium, manganese steel, armor plate & steel. These bits feature 135° split points with straight round shanks for easier drill starting without the need for center punching. The bits are oxide surface treated, right hand cutting & have two flutes. NAS 907.

Type D-Straight shank, jobbers length (short). Features (40) number sizes from 1 to 40 provided in an indexed metal case.

5133-00-980-3423	PRIME	SE	$95.46

Electric Rotary Tool Kit

Electric rotary tool kit is used for grinding, carving, drilling, sanding, buffing, sawing, deburring, routing, polishing, engraving, sharpening and shaping. Variable speed 5000 to 35000 rpm. The rotary tool has a 2-1/4" body diameter with a collet that accommodates 1/8" diameter shanks and an overall length of 8". Furnished in a metal or plastic carrying case with the following accessories: One each collet, collet wrench, 5/8" cylinder wheel, screwpoint mandrel, mandrel with internal threads, 1/2" standing drum, 1/8" drill bit, 7/8" polishing wheel; two each 15/16" cutting wheels, and 1/2" diameter felt polisher. Conforms to UL 745.

5130-01-014-6856	PRIME	EA	$75.36

Disk Sander

Right-angle air sander for medium- and heavy-duty sanding, deburring, blending, smoothing and brushing operations. No-load speed is 6000 rpm. Sander has lever throttle and auxiliary side handle. 1/4" female NPT or NPTF air inlet connection. The spindle has a 5/8-11 UNC-2A thread for mounting the sanding pad. Operating pressure is 90 psig. Pad diameter is 7". The angle height over the spindle is 4.5" maximum. Furnished with parts list and instruction manual.

5130-00-596-1176	PRIME	EA	$259.34

Tool Satchel

This highly portable cotton duck satchel is excellent for keeping tools organized.

Includes two pockets with slide fastener closure and two nylon web handles. (Does not include sling.)

5140-00-473-6256	PRIME	AbilityOne	6"w x 19-1/2"l x 8-1/2"h	EA	$24.97

Chair

This chair is part of a line of ergonomically designed chairs that includes executive, task, conference, and guest chairs. All chairs have a patterned mesh back material to promote air flow and comfort. The mesh is designed to provide lumbar support and allow movement. Seats are upholstered with an ENERSORB™ foam cushion and have a contoured waterfall design to minimize pressure. The back is framed to prevent damage from contact with hard surfaces.

***A.* Chairs have a synchronous knee tilt mechanism, with tilt lock, pneumatic seat height adjustment, and tilt tension control. Arms are adjustable with cushioned pads for comfort.**

Think Green: GSA's Personal Property Management program offers a wide spectrum of products to federal agencies, state and local governments and citizens. Extending the useful life of these items is fundamentally "green." Reuse is recycling. Learn more at gsa.gov/property.

The signing of Executive Orders 13423 and 13514 and the passage of the Energy Independence and Security Act of 2007 illustrate the federal government's growing sense of environmental responsibility. GSA offers two Schedules that deal specifically with these directives. Please consult Schedules eLibrary for more information and contractor listings (**www.gsa.gov/elibrary**).

Environmentally Friendly Products available through GSA Schedules

By offering environmentally friendly products that cover the breadth of the commercial marketplace, GSA Schedules provide access to thousands of "green" products from hundreds of pre-qualified vendors. These products include: green roofs; solar, wind and fuel cell systems; Energy Star and energy efficient cooking equipment, refrigeration equipment and sanitation equipment; green cleaning products, hand sanitizers and soaps; Green Guard certified furniture; Energy Star copiers; Forest Stewardship Certified (FSC) wood for furniture; fabrics made from natural fibers/recycled content for furnishings; green, energy efficient and environmentally preferred performance coatings; leak detection products; electric motors; pressure regulators; and much more.

Energy Management Services (Schedule 03 FAC)

GSA offers a recently expanded energy management services offering under Schedule 03FAC – Facilities Maintenance and Management to include total energy management solutions that will assist your agency in meeting the goals laid out in current and future energy legislation and policy guidelines.

GSA has partnered with highly skilled professionals in the energy services market to provide you with comprehensive solutions. Metering, including advanced metering, becomes simple using GSA's professional industry partners. These services can provide you up to the minute feedback on your energy usage. In addition, the schedule has contractors that can provide energy auditing services ranging from cursory to comprehensive audits. Energy management planning and strategies are available with auditing.

If you are constructing a new building or have an existing building that needs to be updated, the schedule provides building commissioning, re-commissioning and retro-commissioning services so you can be sure that your building is designed and operated in the most energy efficient manner possible. Resource Efficiency Management services are also offered to provide analysis of your current operations, equipment and energy purchasing patterns to determine changes that can be made to improve efficiency.

In addition, the schedule provides: Energy Management Training, Energy Program Support and Billing Oversight, Innovations in Energy using the latest technology for renewable and sustainable energy solutions, Energy Choice Analysis, Assistance with Green Building Certification such as LEED, and Water Conservation and Management Services.

Comprehensive Professional Energy Services (CPES) BPA

GSA has enacted a new BPA, Comprehensive Professional Energy Services (CPES), to assist customers in meeting their commitments under the Recovery Act and Executive Orders 13423 and 13514. These BPAs provide customers with fully compliant energy services to enable them to measurably move the nation towards greater reliance on clean energy technology solutions; promote sustainability and environmental stewardship through Federal Government operations; support the administration's effort to retain and create jobs and put Americans back to work; and acquire services using the federal government's Federal Strategic Sourcing Initiative (FSSI) to support energy services. Some of the services available through the BPAs include: comprehensive energy analysis and modernization projects; building commissioning services; metering and advanced metering; energy and water audits and analysis; turn-key renewable energy solutions; energy choice analysis; and feasibility studies and complete support, including billing consolidation and management; consulting; training; and other services on energy-efficient certifications such as Leadership in Energy and Environmental Design (LEED®)

For more information about CPES please go to **www.gsa.gov/energyservicesBPA**.

Environmental Services (Schedule 899)

Executive Order 13423 and 13514 call for widespread use of Environmental Management Systems (EMS). An EMS is used to assist in the identification, tracking, and prioritization of environmental issues and their impacts. It is based on continuous improvement, prevention of pollution, and commitment to compliance. Once an EMS is implemented, the expectation is that senior management at each agency will review their system at least annually.

GSA Environmental Schedule 899 has contractors on schedule that allow governmental organizations to move beyond just "compliance". Through SIN 899-2, an EMS can be implemented which would incorporate five common elements tailored to the specifics of an organization. The five elements are:

- Policy;
- Planning;
- Implementation and Operation;
- Checking and Corrective Action; and
- Senior Management Review.

Contractors on GSA's Environmental Schedule 899 can conduct audits on your current EMS systems or assist with creating your agency's own audit procedures.

Another environmental consideration is the current trend toward considering sustainability in the planning and execution of projects and services. The GSA Environmental Schedule offers consultants that can help you build sustainability into your operations and your projects. Other services include Environmental Planning and Documentation, Environmental Occupational Training, Waste Management Planning, Reclamation, Recycling and Disposal, Hazardous-Material Management, Environmental Advisory Services, and Remediation.

Personal Property Management

When a federal agency wants to get rid of excess property, they don't just dump it into a landfill. Every possible attempt is made to find a way to re-use the property in other agencies within the federal government. The Personal Property Management program promotes the maximum use of excess government personal property by executive agencies. Excess property MUST be the first source of supply for federal agencies meaning that all executive agencies must, to the maximum extent practicable, fill requirements for personal property by using existing property from other federal agencies in lieu of new procurements. This ensures that property already paid for with taxpayers' money is used to the fullest extent and lets agencies avoid the cost of new procurements. Reuse helps protect the environment by keeping excess out of the pollution mainstream. GSA's online resource for an agency to report excess property is **www.gsa.gov/gsaxcess**. Once this excess property is posted by the agency that no longer needs it, other federal agencies can take a look at it and request a transfer during a 21 day period. If no federal agency wants the excess property, it becomes surplus and can be donated to state agencies. States, through their State Agencies for Surplus Property (SASP), can view the property during the same 21-day window as federal agencies. However, GSA cannot allocate the property to the SASPs until after this period has expired. Once the 21 days are up, the SASP can request the property. If neither federal nor state governments want the property, it becomes available for public sale through **www.gsa.gov/gsaauctions**. Only after all of these processes have transpired will reported property be considered for recycling or abandonment and GSA's Schedule 899 for Environmental Services can help accomplish that goal in the greenest way possible.

One final green program very worthy of mention under Personal Property is the Computers for Learning Program.

Choose to Re-Use

The Computers for Learning (CFL) program promotes the reuse of federal excess computers and peripheral devices among needy schools and educational nonprofit organizations, reduces landfill disposal of toxic wastes, and maximizes the value of federal assets.

Computers for Learning, an Alternative to Recycling

The problem of electronic waste (ewaste) is growing at an alarming rate. Ewaste is among the fastest-growing and most toxic components of municipal trash. The Computers for Learning (CFL) program promotes the reuse of federal excess computers and peripheral devices among needy schools and educational nonprofit organizations, reduces landfill disposal of toxic wastes, and maximizes the value of federal assets.

Although computers contain valuable metals, chips, and parts, these materials can be costly to recover. Hazardous materials such as lead, cadium, mercury, brominated flame retardants, and hexavalent chromium must be dismantled in a special way so as to not cause harm to humans or the environment. Continued use of the computers is a better solution than dismantling/component recovery.

More Green than Recycling

Recycling an unwanted computer is shortsighted, considering the many benefits of reuse. When federal agencies partner with schools to reuse and give computer equipment a second life, they also give opportunity to America's youth in need. This partnership also enables agencies to support the presidential emphasis on connecting every school child to the internet.

Sharing Technology – Creating Opportunity

The Computers for Learning (CFL) program facilitates the transfer of excess federal computer equipment to schools and educational nonprofit organizations, giving special consideration to those with the greatest need. The CFL program implements Executive Order (E.O.) 12999, Educational Technology: Ensuring Opportunity for All Children in the Next Century. E.O. 12999 directs federal agencies to give " highest preference to schools and nonprofit organizations in the transfer of educationally useful federal equipment." The authority for transfers under CFL is the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. 3710(i)). This act authorizes federal agencies to transfer excess education-related federal equipment to educational institutions or nonprofit organizations for educational and research activities.

Excess electronic products entered into GSAXcess® are automatically offered to eligible schools and educational nonprofits through the CFL program. Federal entities may opt to directly transfer excess electronic equipment to eligible schools and educational nonprofits, and report these transfers through CFL's PostTransaction Module to automatically include those transactions in their agency's Annual Non-Federal Recipients Report.

Sustainable Facilities & Workspaces

Comprehensive Professional Energy Services BPAs

...and much more.

When it comes to environmental compliance, you need a reliable source. That means having a partner who can save you time and money. Enjoy the flexibility and choice to meet your purchasing requirements and minimize risks. Whether your mission involves improving energy and water efficiency to meet federal guidelines for sustainable buildings or procuring bio-based, recycled and EPEAT-rated products, GSA is here to help. Our pre-competed, on-demand contracts make it easy to access expert environmental and energy management services and buy energy-efficient, earth-friendly products.

We are GSA. We're here to help.
