GSA Proudly Supports Our Wildland Firefighters

GSA – A Partner In Wildland Fire Protection

GSA maintains a firm commitment to supporting the Fire Suppression Program and is constantly striving to provide the highest-quality supplies and equipment to its wildland firefighting customers. We have partnered with these customers for more than 50 years and supplied them with many of the critical tools needed to achieve their mission.

This publication acts as a supplement to the GSA Global Supply Catalog and is issued as a convenience to federal, state and local agencies engaged in wildland firefighting, as well as other non-federal organizations operating under written cooperative agreements with the U.S. Forest Service.

GSA's objectives are to:

(1) facilitate advanced procurement;

(2) assist in the standardization of wildland fire protection supplies and equipment;

(3) maximize savings via consolidated purchasing; and

(4) provide fast and direct distribution of supplies and equipment.

As the 2009 fire season approaches, please keep in mind that GSA employees remain committed to serving you and your colleagues. We will continue to be Your Reliable Government Source.

Bill Hicks,
GSA Fire Program Coordinator

About This Catalog

This Wildland Fire Equipment Catalog is the basic supply publication for use by the U.S. Forest Service (USFS), Bureau of Land Management (BLM), Bureau of Indian Affairs (BIA), U.S. Fish & Wildlife Service (USF&WS), National Park Service (NPS), and other Forest Service-sponsored participants in the governmentwide wildland firefighting effort.

This catalog, issued annually, contains descriptions and ordering data for wildland fire protection equipment and supplies managed by GSA. Each item is indexed alphabetically by name and numerically by National Stock Number (NSN) and National Fire Equipment System (NFES) number.

Your suggestions for improvements to this catalog are invited at all times. Items will be deleted or added as needed, provided they meet the criteria established by GSA, USFS and BLM. Questions or comments should be directed to GSA Fire Program Coordinator Bill Hicks by telephone at (817) 574-2533, cell phone at (817) 456-5161 or e-mail at bill.hicks@gsa.gov.

Subscribe to automatically receive future Wildland Fire Equipment Catalogs at www.gsa.gov/cmls. Under the "My Account" tab, select Wildland Fire Equipment Catalog as a publication to have automatically shipped. Facilities with requirements for the Wildland Fire Equipment Catalog in bulk quantities should contact Therese Anderson at therese.anderson@gsa.gov or (312) 886-8972.

Additional or replacement copies of the Wildland Fire Equipment Catalog can be ordered year round. View the catalog online or order at www.gsa.gov/cmls. Orders can also be placed via email at cmls@gsa.gov, phone (817) 334-5215, or fax (817) 334-5561. Please include your name, phone number, email, mailing address, and the quantity of catalogs requested when ordering via email, phone or fax.

This catalog is updated and published annually and is distributed each spring.

Clearances

GSA has complied with all regulations governing the purchase of items available from the Federal Prison Industries, Inc., Federal Supply Schedule contractors, NISH, National Industries for the Blind (NIB), and the Government Printing Office (GPO). Ordering offices are not required to obtain clearance on items available from these sources when ordering directly from GSA.

Freight Charges

The cost of normal motor carrier transportation to consignees located in the United States (except certain areas of Alaska) is included in the prices shown in this catalog. Premium transportation (such as air freight, emergency trip, or exclusive use of vehicle service) must be paid by the requisitioner, and appropriate transportation funds must be cited when placing the order.

Prices

Prices are on a freight on board (f.o.b.) destination basis for surface transportation to consignees in the United States. Special transportation payment policy is applied to Alaskan shipments, depending on ultimate destination.

Any requirements for premium transportation must be paid for by the ordering activity.

Note: The prices in the publication are established each year as of April 1. In most cases they remain in effect through March 31 of the following year; however, from time to time, it is necessary to make changes **without notice**. This happens when new contract prices are significantly higher or lower, in which case the adjustments have to be made. To obtain the most current prices, we recommend that customers contact the Fort Worth Customer Assistance Branch at (800) 525-8027, **option 3**, or research the NSN through the GSA Global Supply Web site at **www.GSAglobalsupply.gsa.gov** or GSA*Advantage!*® at **www.gsaadvantage.gov**.

About This Catalog

Specification References

The specifications cited in catalog descriptions may undergo a series of revisions (indicated by successive suffix letters) to keep current with industry changes and agency needs. Because it is not feasible to show the latest revision on the catalog publication date, only the basic specification is referenced in this catalog. Although stock items are always procured under the latest edition of a specification in effect at the time of procurement, on-hand stock that was procured under a previous edition of a specification will be issued until the supply is depleted.

The National Stock Number

The National Stock Number (NSN) is used for requisitioning, new procurements, existing contracts, shipments, shippers' invoices, payments, cataloging, stock records, etc. Accordingly, the items in this catalog are identified by 13-digit NSNs. For further information on NSNs, consult the FEDSTRIP Operating Guide (Mail List code 5-06-00135), which is available from GSA's Centralized Mailing List Service (CMLS). Please visit www.gsa.gov/cmls, call (817) 334-5215, fax (817) 334-5561 or e-mail cmls@gsa.gov.

Icon Key

The following is a list of icons used in this publication and the information each icon represents:

- Key information to help buying decisions
- Includes information on recycled content
- The product is part of a specific standard pack. Standard pack is a guide to how many items are packed in a single case. Standard pack does not mean "minimum order".
- MSDS — Material Safety Data Sheet (MSDS) is available
- CPG — Comprehensive Procurement Guideline Compliant; the EPA designates these items with required recycled content
- PRIME — Items with biodegradable packing materials as required by U.S. Navy's Plastics Removal in Marine Environments program

How To Submit Your Order

Emergency Requisitions

During extreme fire situations, it is imperative that we process your order in the most expeditious manner. The following emergency order procedures will assist both the customer and GSA in the elimination of bottlenecks and ensure the smooth processing of your order. Emergency fire orders should be submitted by telephone or fax (Standard Form 344 or GSA Form 3222) to the following offices:

Monday through Friday: 7:30 a.m. – 4:15 p.m. (Central Time)
GSA Customer Assistance Branch, Ft. Worth, TX
Telephone: (800) 525-8027, option 3
Fax: (817) 574-2551, or (817) 574-2552

Monday through Friday: 4:15 p.m. – 5:15 p.m. (Central Time)
GSA Western Distribution Center, French Camp, CA
Telephone: (209) 547-8669 or Alternate: (209) 547-8693
Fax: (209) 547-8745 or (209) 547-8744

Reminder! When faxing an order to French Camp, please notify personnel that the order is on the way.

After-Hours, Weekends and Holidays

First try the GSA Western Distribution Center numbers listed above. If there is no answer, call French Camp's answering service at (209) 929-6959 and advise the operator that you have an emergency fire order to submit and need to contact depot personnel. Give the operator your name and telephone number. The answering service will contact depot personnel and relay your message. Depot personnel will then return your call and take care of the situation. During fire season, depot personnel are on standby to handle any emergencies.

If trouble is experienced in contacting any of the above after-hours numbers, please call (888) 282-7862 (monitored 24 hours a day) and leave a message containing a telephone number where you can be reached. The duty officer will contact a GSA employee who will return your call as soon as possible.

The above procedures should produce a prompt response to your emergency situation. If additional assistance is required, please contact Bill Hicks, GSA Fire Program Coordinator, at (817) 574-2533 (office) or (817) 456-5161 (cell).

Routine Requisitions

Routine fire orders should be sent to our Fort Worth office, which has management responsibility over the fire program. Mail or fax your order to:

GSA/FAS Southwest Supply Center, Customer Assistance Branch

Attention: QSDACDA
819 Taylor St.
Fort Worth, TX 76102
Telephone: (800) 525-8027, option 3
Fax: (817) 574-2551 or (817) 574-2552

Please remember: Inquiries about the status of fire item requisitions should also be directed to the office listed above.

Requisition Priority Codes

The originator of a requisition is required to enter a priority designator code on each requisition. This entry indicates the relative importance of the requisition. Standard Delivery Days (SDD) indicate the elapsed time from the date GSA receives requisitions for stock items, which are not back-ordered, to the date of delivery to destinations in the 48 continental states.

CODE 03

Will be used for disaster supplies or equipment required immediately for prolonging life in case of disaster, critical injury, fatal disease, or calamity.

7 Standard Delivery Days

CODE 08

The item required is one without which the activity concerned is unable to perform assigned operational mission or tasks, or such condition is imminent.

11 Standard Delivery Days

CODE 10

The item required is one for immediate use, the lack of which is impairing the operational capability of the activity.

29 Standard Delivery Days

CODE 15

Routine stock replenishment.

29 Standard Delivery Days

Note: For more detailed information, please refer to the FEDSTRIP Operating Guide, FPMR 101-26.2 (Publication number 5-06-00135), which is available from GSA's Centralized Mailing List Service by visiting www.gsa.gov/cmls, calling (817) 334-5215, faxing (817) 334-5561, or e-mailing cmls@gsa.gov.

How To Submit Your Order

GSA Global Supply or GSA*Advantage!*®?

Many GSA fire customers are familiar with the GSA*Advantage!*® site for online ordering. Another excellent GSA resource for pricing information and ordering is the GSA Global Supply Web site, which is available at www.GSAglobalsupply.gsa.gov. The main difference between the two Web sites is that the GSA Global Supply site does not display any products from GSA Schedule vendors. Every item on this site is a GSA Global Supply item; therefore, search results are generally shorter, easier to review, and simpler to use. To compare the two sites, please check the table below for key attributes.

GSA Global Supply facilitates compliance with all federal regulations.

Online FEDSTRIP Process:

Customers must have an AAC or DODAAC and log in using their respective User IDs and passwords. (First-time users can register and select a user ID and password.) Once registered, users click on the FEDSTRIP link to access the screen shown below.

Customers may enter NSNs or part numbers, quantities and any exception data. Links are provided to reference materials (including the FEDSTRIP Operating Guide) for detailed explanations of screens and fields.

Comparison Table

Attributes	GSA Global Supply	GSA*Advantage!*®

** "GSA Global Supply items" refers to products managed and billed by GSA Global Supply. "Schedule items" refers to products offered by commercial vendors holding a GSA Schedule contract. These vendors generally bill the customer's purchase card and cannot bill a customer via AAC.*

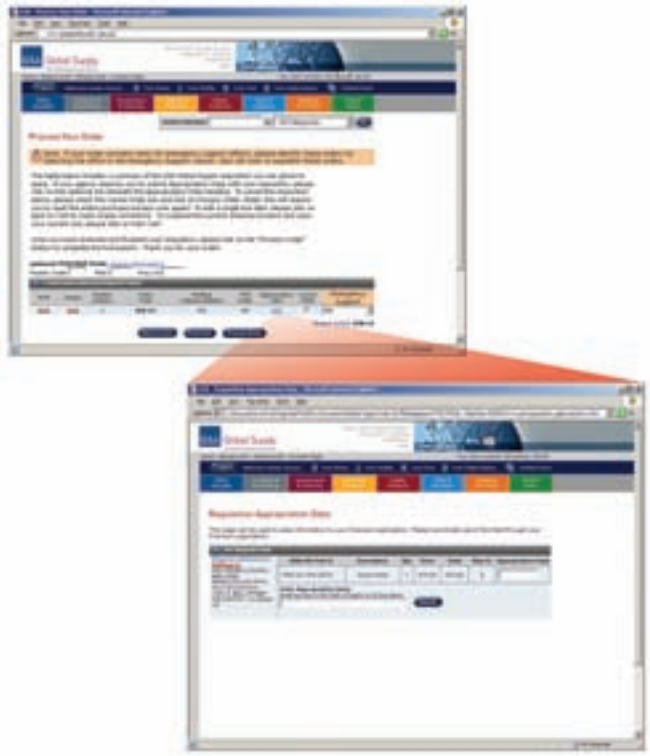
How To Submit Your Order

Reminder for USDA Customers:

Changes to the USDA accounting system now require USDA customers to provide a Document Reference Number (DRN) with Activity Address Code (AAC) orders. Orders called into GSA or placed online at either the GSA Global SupplyWeb site or GSA*Advantage!*® can accommodate a DRN; therefore, USDA customers wishing to arrange payment via their AAC have multiple ordering options available to them. Purchase-card orders do not require a DRN and can be submitted through any of the ordering mechanisms noted above. This change does not affect U.S. Forest Service cooperators or Department of Interior organizations. Reminder: The requirement to provide a DRN with FEDSTRIP orders is mandated by USDA, not GSA.

Orders with DRNs:

USDA customers can use the GSA Global SupplyWeb site or GSA*Advantage!*® to compile an order. When your order is complete, click on "checkout." At step one of the checkout process, select "Activity Address Code" and enter the relevant AAC. After verifying shipping information in step two, you can enter appropriation data in step three. At this point, you can enter the appropriate DRN data and then proceed to finish the checkout process.



More Information

GSA Multiple Award Schedule (MAS)

By offering supplies that cover the breadth of the commercial marketplace, the GSA Multiple Award Schedule (MAS) program enables your agency to choose from thousands of products and services, available from hundreds of pre-qualified vendors. Typically, this method of procurement is quicker and easier than open-market procurements. Although an acquisition is a more involved option than a requisition through GSA Global Supply, issuing a purchase order through the MAS program may be appropriate for obtaining products not widely requested enough to be included in the GSA Global Supply inventory. For more information, visit **www.gsa.gov/products**.

Ensuring Reuse with GSA Personal Property Management

Screening other agencies' excess personal property inventories is the federal government's priority source of supply. And with today's increased environmental consciousness, reusing excess property is a source of pride. To help you acquire the excess property your agency needs, GSA offers **www.gsa.gov/gsaxcess**, the personal-prope rty reporting tool for the federal government. At GSAXcess®, reporting, searching and selecting excess property is convenient and user-friendly.

Special Order Program (SOP)

GSA Global Supply has a robust Special Order Program (SOP). Customer agencies can place requisitions for NSN or part numbered items with GSA Global Supply and be assured that GSA will take all the necessary steps to ensure compliance with all Federal Acquisition Regulations (FAR) and Executive Orders. GSA Global Supply's SOP Program includes a wide variety of products and related services such as tools and hardware, office products, cleaning supplies and fire equipment. SOP items can be ordered from GSA Global Supply by calling the GSA Global Supply call center at (800) 525-8027 or via FEDSTRIP/MILSTRIP. GSA Global Supply Stores or Base Stores supported by GSA Global Supply can also assist with placement of SOP orders (visit **www.gsa.gov/globalsupply** for more information on Global Supply stores and Global Supply base partners).

Reporting Discrepancies

GSA Global Supply is committed to providing quality products and resolving problems with professional service. There are several ways to report a discrepancy:

Telephone Call (800) 525-8027 and select Option 2 for customer service. Indicate that you are calling about a fire suppression item.

The call center is staffed 7 a.m. – 6 p.m. (CT). Callers outside those hours should leave a clear message with a name, a commercial phone number, and a brief description of the problem.

eResolve Report a problem by using eResolve, an online customer service solution. eResolve allows direct reporting of problems with a requisition or GSA Global Supply shipment, including damage, short/over, wrong item, quality, tracing shipments, and merchandise return issues. To use eResolve, log on to www.gsa.gov/ncsc and select the links for eResolve.

E-mail Send a message to NCSC cusomer.service@gsa.gov indicating "Fire Suppression" in the subject line.

Customers seeking the product Quality Deficiency Report (QDR) form can download it online at www.gsa.gov/forms after searching for SF368. Although GSA prefers customers to utilize the telephone or electronic methods mentioned above, forms can still be sent via the following methods:

Fax (816) 926-5561

Mail U.S. General Services Administration
Attn: Fire Suppression
National Customer Service Center (QCOCC)
1500 E. Bannister Road, Bldg. 4
Kansas City, MO 64131-3088

GSA Automotive Helps Agencies Save Lives and Protect Property

GSA's Office of Vehicle Acquisition and Leasing Services' Automotive Division helps agencies defend the security of our homeland and protect our oversea bases with our contracts for Firefighting Vehicles. Our Firefighting Vehicle program offers a wide range of firefighting apparatus to assist agencies in accomplishing their mission.

Tool handle wedge is made from carbon steel or similar material that is corrosion resistant. Thin end of the wedge is blunt to prevent splitting of the tool handle. For use in keeping ax and Pulaski tool handles secure.

Metal: 3/16" thick; 9/16" wide; 1-3/16" long. (NFES #0432)

Std. pack: 6

5120-00-278-7590	DZ	$9.27

Tool handle wedge is made from dense hardwood. For use in keeping ax and Pulaski tool handles secure.

Wood: 5/16" thick; 2-3/8" wide; 2-1/2" long. (NFES #0433)

Std. pack: 1

5120-00-293-3451	DZ	$9.27

Hoses and Gaskets

Synthetic-Lined Fire Hose

Lined, synthetic, woven jacket hose is light-weight and 100 feet long with aluminum rocker lug couplings. Working pressure: 450-psi. Forest Service Spec 5100-187.

Type 1, standard synthetic hose.

This 1"-diameter hose features 1", 11-1/2 NPSH threaded couplings. Weight: 9.38 lbs. (NFES #1238)

Std. pack: 2

4210-01-166-8122	AbilityOne	White	LG(contains 100 FT)	$104.95

This 1-1/2" -diameter hose features 1-1/2", 9 NH threaded couplings. Weight: 15.88 lbs. (NFES #1239)

Std. pack: 2

4210-01-165-6597	AbilityOne	White	LG(contains 100 FT)	$117.98

Type II, abrasion and heat-resistant synthetic hose with external elastomeric coating.

This 1" -diameter hose features 1", 11-1/2 NPSH threaded couplings. Pallet contains 44 boxes, with two hoses per box, for a total of 88 hoses per pallet. (NFES #0932)

Std. pack: 2

4210-01-526-3000	AbilityOne	Yellow	LG(contains 100 FT)	$121.54

This 1-1/2"-diameter hose features 1-1/2", 9 NH threaded couplings. Pallet contains 32 boxes with, two hoses per box, for a total of 64 hoses per pallet. (NFES #0933).

Std. pack: 2

4210-01-526-2977	AbilityOne	Yellow	LG(contains 100 FT)	$153.87

Synthetic Garden Hose

Lightweight hose features a woven synthetic jacket and is lined. The 5/8"-diameter hose features 3/4", 11-1/2 NH threaded coupling (standard garden hose threads). Operating pressure is 200-psi. To be used for mop-up operations, pumper protection and miscellaneous applications. (NFES #1016)

This is a component of Mop-Up Kit NSN 4210-01-321-4206.

Std. pack: 20

4210-01-167-1061	AbilityOne	LG(contains 50 FT)	$22.42

High-Pressure Fire Hose

High-pressure fire hose features 1", 11-1/2 NPSH compression wedge couplings. Braided hose has a 3/4" inside diameter. Working pressure: 600-psi. Forest Service Spec 5100-185. (NFES #1220)

Std. pack: 2

4210-00-595-1838	LG(contains 50 FT)	$205.70

Rubber Suction Fire Hose

Suction fire hose with rocker-lug couplings is made of rubber and fabric with wire reinforcement. Forest Service Spec 5100-184. Couplings per Forest Service Spec 5100-108.

This 1-1/2" -diameter hose features a 1-1/2", 9 NH threaded coupling. (NFES #1808)

Std. pack: 4

4210-00-889-1774	LG(contains 8 FT)	$103.16

This 1-1/2" -diameter hose features a 1-1/2", 9 NH threaded coupling. (NFES #0115)

Note on Standard Pack:

Items are available under Unit of Issue (UI) quantities, e.g. EA for single units. For large orders, customers can use "Standard Pack" as a guide to how many items are packed in a single case, pallet, etc. Standard Pack does not mean "minimum order."

Water-Handling Accessories

- Unless otherwise noted, the working pressure of all applicable items is 600 psi.
- All flow rates are at 100 psi flowing pressure.
- The 3/4" connections in this catalog use in this catalog use GHT (Garden Hose Thread) threads and 11-1/2 NH threads interchangeably; both designations are the same thread.
- This catalog includes some threads that are specific to the USDA Forest Service and do not follow the NFPA (National Fire Protection Association) standard. The threads used on each item are indicated.

Fire Hose Thread Adapter

Thread adapter features aluminum couplings with a 600-psi test pressure. Forest Service Spec 5100-107.

1-1/2" NH female and a 1-1/2" NPSH male. (NFES #0006)

Std. pack: 10 or 60

4210-01-079-9284	EA	$6.33

1-1/2" NPSH female and a 1-1/2" NH male. (NFES #0007)

4210-01-508-8818	EA	$11.92

Hoseline Tee with Capped Male Branch

Aluminum alloy tee issues 600-psi maximum operating water pressure. Forest Service Spec 5100-107.

Connects 1" NPSH female threaded inlet to 1" NPSH outlet and 3/4", 11-1/2" NH branch with male threads. Male threaded 3/4" branch is closed with removable aluminum alloy cap. (NFES #1809)

Std. pack: 10 or 60

4210-01-081-0418	EA	$21.09

Connects 1" NPSH female threaded inlet to two 1" NPSH male threaded outlets. One outlet is closed with removable aluminum alloy cap. (NFES #2240)

Std. pack: 10 or 60

4210-01-080-1459	EA	$16.99

Connects 1-1/2", 9 NH female threaded inlet to 1-1/2", 9 NH outlet and 1", 11-1/2 NPSH branch with male threads. Branch is closed with removable aluminum alloy cap. (NFES #0731)

This is a component of Mop-Up Kit NSN 4210-01-321-4206.

Std. pack: 10 or 60

4210-01-080-1460	EA	$12.89

Hoseline Tee with Valved Male Branch

Aluminum alloy tee issues 600-psi maximum operating water pressure. Forest Service Spec 5100-107.

Connects 1-1/2", 9 NH female threaded inlet to 1-1/2", 9 NH discharge and 1" NPSH branch with male threads. Branch output regulated with screw-type valve. (NFES #0230)

Std. pack: 10 or 60

4210-01-081-0417	EA	$21.92

- NFPA standard calls for 3/4" connections and larger to be NH (National Hose) threads. The wildland agencies have adopted this, except for 3/4" and 1" connections; the 3/4" connections shall be 3/4" 11-1/2 NH (rather than the NFPA standard of 3/4" 7-1/2 to 8 NH) and 1" shall be NPSH (National Pipe Straight Hose) thread.
- All female connections come with gaskets in place.
- All aluminum threaded items are hard-coated for durability.

Fire Hose Nozzle

Barrel-type plastic polycarbonate nozzle adjusts from straight stream to fog to off. Rubber bumper and gasket included. Threads per Forest Service Spec 5100-190.

Female intake is 1", 11-1/2 NPSH, with an output capacity of 17 to 20 gpm. (NFES #0138)

Std. pack: 10 or 100

4210-00-085-2291	Length: 5"	EA	$7.68

Female intake is 1-1/2", 9 NH, with an output capacity of 60 gpm. (NFES #0137)

Std. pack: 10 or 60

4210-00-181-8872	Length: 5"	EA	$6.91

Wildland fire hose nozzle with 3/4" GHT inlet threads NH (garden hose) threads, brass. Flow rate varies from 4-gpm spray pattern to 8-gpm straight-stream pattern. Working pressure of 250-psi. Forest Service Spec 5100-243. (NFES #0136)

This is a component of Mop-Up Kit NSN 4210-01-321-4206.

Std. pack: 10 or 100

4730-00-595-1103	Length: 5"	EA	$15.69

Barrel-type nozzle with shutoff is made of aluminum alloy. Outer barrel rotates from high flow spray, to high flow straight stream, to low flow spray, to low flow straight stream, and to off. Forest Service Spec 5100-239.

Female intake is a 1", 11-1/2 NPSH, 10 to 25 gpm. (NFES #1081)

Std. pack: 20

4210-01-165-6603	Length: 4"	EA	$24.41

4210-00-984-3475	EA	$99.25

Foot Valve

Foot valve is made of brass or aluminum alloy and has a strainer. Forest Service Spec 5100-383.

Female threaded connection is 1-1/2", 9 NH. (NFES #0212)

Std. pack: 10

4820-00-126-5114	EA	$37.86

Spanner Wrench

Hose coupling-type wrench is designed for use on slotted or rocker-lug couplings on Forest Service fire hoses. Spanner wrench cannot be used on pin-lugs. Made of bronze, forged brass, cast aluminum or forged aluminum. Forest Service Spec 5100-101.

Single-ended wrench fits 1", 11-1/2 NPSH and 1-1/2", 9 NH coupling. (NFES #0234)

This is a component of Mop-Up Kit NSN 4210-01-321-4206.

Std. pack: 20

5120-00-596-1426	Length: 6"	EA	$4.77

Double-ended wrench fits 1", 11-1/2 NPSH, 1-1/2", 9 NH, and 2-1/2", 7-1/2 NH couplings. (NFES #0235)

Std. pack: 20

5120-00-596-1427	Length: 8-3/4"	EA	$5.02

Fire Hose Clamp

Shut-off clamp is designed for use on single-jacket, rubber-lined fire hoses sized 1 and 1-1/2". Capable of shutting off water in a hose at 300-psi operating pressure. Lightweight and compact enough to carry in a hip pocket or on a belt loop. Forest Service Spec 5100-245. (NFES #0046)

Std. pack: 20

4210-00-767-7123	EA	$32.50

Mop-Up Kit

Designed for wildfire mop-up operations, this kit contains all the equipment necessary for three people to attach to a lateral line to put out spot fires. Includes hose, T-valves, reducers, applicator wands and nozzles, wrenches, and more. (NFES #0772)

Std. pack: 1

Garden Hose Wye Valve

Small wye valve features 3/4", 11-1/2 NH garden hose threaded (GHT) connections. Includes one inlet and two outlets with gated shut-off ball valves. Made of die-cast zinc, withstands 200-psi for three minutes without leakage or damage. Threads per Forest Service Spec 5100-190. (NFES #0272)

This is a component of Mop-Up Kit NSN 4210-01-321-4206.

Std. pack: 100

4210-01-412-6335	EA	$4.28

Garden Hose Washer

Flat rubber washer is fashioned for couplings or between lengths of hose. Has a 5/8" inside diameter and a 1" overall diameter. Fits 1/2, 5/8" hose couplings. (NFES #0721)

This is a component of Mop-Up Kit NSN 4210-01-321-4206.

5310-00-599-0776	PG(contains 10 EA)	$2.07

Fire Hose Nozzle Tip

Brass fog pattern spray tip, flows 3 gpm at 100-psi, 3/4" connection garden hose threads (GHT). Threads per Forest Service Spec 5100-190. (NFES #0735)

This is a component of Mop-Up Kit NSN 4210-01-321-4206.

Std. pack: 24

Chainsaw Accessories

File (American Pattern)

American-pattern files mainly consist of machinist's files and mill or saw files. Machinist's files are used where metal must be removed rapidly and finish is of secondary importance. Mill or saw files are suitable for the following tasks: sharpening mill or circular saws and large crosscut saws; lathe work; draw filing; filing brass and bronze; smooth general filing. These files are characterized by hardened, uniform teeth and conventional tang for attaching a wooden handle. Forged from carbon alloy steel. The three standard tooth cuts available on American-pattern files are as follows: bastard-cut (coarse teeth for rapid stock removal); second-cut (medium teeth for moderate stock removal); smooth-cut (fine teeth for smooth finishes).

Mill (regular) file is for sharpening mill or circular saws and for general use. Width is tapered for one-third of length to point; thickness is uniform. Bastard-cut is single cut on both flat surfaces and both square edges.

Width: 13/16"; Teeth per inch: 42 to 48. (NFES #0351)

Headlamps and Lightsticks

Firefighter's Headlamp

Battery-operated, computer-controlled headlamp for mounting on helmet. Consists of an adjustable light head, a battery holder (with five required AA batteries housed in the holder), and a rubber headband. With headlamp at front, battery holder mounts to rear, connected by quick-disconnect cord. Push-button control with two levels of light output; electronic chip regulates light to provide continuous output (regardless of battery power) and will drain batteries completely within six to eight hours at high output or 12 to 16 hours at low output (depending on batteries). Chip will pulse light when batteries are near the end of their use. (NFES #0667)

Lightstick (Chemlight)

Chemical lights, commonly known as chemlights, are a non-toxic, non-flammable source of light. These lightsticks are good for emergency, safety and signaling uses. They provide safe, effective light without heat, sparks or flame. To activate, a user bends the plastic lightstick, breaking the inner glass vial. Chemicals from the broken glass vial mix with chemicals from the plastic tube to deliver a light-creating chemical reaction. Self-contained, compact, rugged, and waterproof.

Large New-Generation Fire Shelter

Tony Petrilli, Project Leader

(Taken from TechTips 0551-2325-MTDC, June 2005)

Highlights

- The large version is recommended for firefighters who are taller than 6'1" inch or whose girth is larger than 53".
- The large version weighs just 0.6 lbs. more than the regular fire shelter and can be carried in the same hard-plastic liner and case.
- Firefighters who are shorter than 5'7" may have difficulty deploying and holding down the large fire shelter.

How Does the Large Shelter Differ from the Regular Shelter?

The large shelter is longer, wider and taller than the regular shelter and weighs about 0.6 lbs. more. The table to the left shows the dimensions of both shelters. The large shelter fits easily into the hard plastic liner and case used for the regular shelter. The large shelter is easily identified by the word "LARGE" stenciled on the quick-deployment strap that is stitched onto the plastic bag holding the shelter. The large shelter's deployment strap is orange, rather than yellow, the color of the strap on the regular shelter. This strap is visible whether the shelter is inside or outside its case.

Customer Service Director Program

The Customer Service Director (CSD) program is performed by a worldwide network of supply and service specialists. Quality customer assistance is as near as a telephone.

GSA Help Line

GSA provides assistance for customers who have a problem or question concerning any of the supplies or services provided by GSA. Call (800) 525-8027, option 2 (DSN 465-1416) for more information.

This help line is handled by the National Customer Service Center (NCSC). The NCSC helps by answering your concerns, providing assistance, and, if necessary, referring you to the appropriate GSA "center of expertise" for specific knowledge in unique or special situations. Technicians are available from 7 a.m. to 6:30 p.m. (CT). After-hours messages will be answered the next business day. You may also contact the NCSC via e-mail at NCSCcustomer.service@gsa.gov.

Field Level – Customer Assistance

CSDs visit customers to provide information about GSA services, help in resolving problems, and answer any questions or concerns about GSA support. They provide seminars for either specific or general discussions about any phase of support offered by GSA and make periodic liaison visits to customer installations. To contact your CSD, determine the Regional Manager for your location (see the following page) and contact that office for more specific information, or visit www.gsa.gov/rmm.

For specific Wildland Fire Equipment assistance, customers should contact the GSA Southwest Supply Center Customer Assistance Branch (see page 5 of this catalog or visit www.gsa.gov/fireprogram).

To get more information about the CSD for your area, please find the regional manager nearest your organization:

Requisitioning From DLA

Throughout the federal government, there are two principal wholesale supply support activities providing intergovernmental support: the Defense Logistics Agency (DLA) and the General Services Administration (GSA). These two agencies have been working closely to eliminate avoidable overlap and duplication in their supply systems and have agreed to support military and civilian customers.

Requisitions for items managed by DLA should be placed with the DLA Call Center toll-free at (877) DLA-CALL(352-2255). Inquiries can be made by calling the DLA number or by e-mailing dscc.callcenter@dla.mil. The DLA Call Center is available 24 hours a day, 365 days a year and is your centralized point for any matters concerning DLA support.

Customer Assistance Representatives

DLA customer-assistance representatives are available to assist you with resolving problems by answering any questions about DLA support. Their mission is to provide top-quality customer assistance on a continuing basis. Please call the location nearest you or call (877) DLA-CALL(352-2255).

Defense Logistics Agency (DLA) Items

Note: *DLA-managed items are not available from GSA. They are listed in this publication as a courtesy to the customer and must be ordered from the DLA center (RIC) listed for each item. See page 60 of this catalog for ordering information and a list of applicable locations/telephone numbers. The following DLA items have been admitted to the NFES.*
