U.S. General Services Administration

## MANAGEMENT SERVICES CENTER (MSC) MULTIPLE AWARD SCHEDULES (MAS)

### What is a Multiple Award Schedule?

Multiple Award Schedules are established long-term governmentwide contracts with commercial firms to provide access to commercial services and products. GSA Schedules offer customers a direct link to high-quality commercial services and products at volume discount pricing. Tasks that can be performed under each Schedule are categorized under Special Item Numbers (SINs). For more information go to [www.gsa.gov/schedules](http://www.gsa.gov/schedules).

### How do I place an order using a Schedule?

GSA has determined that the prices for

- DoD agencies with requirements over \$100,000 using GSA Multiple Award Schedules (MAS), refer to DoD Section 803 of the National Defense Authorization Act.
- In addition, the request shall be provided to any Schedule contractor who specifically requests a copy of the request for the proposed order.
- Evaluate responses and select the contractor to receive the order.

After responses have been evaluated against the factors identified in the request, the order should be placed with the Schedule contractor that represented the best value.

Agencies requiring assisted acquisition

## Schedule 738 II

### LANGUAGE SERVICES SCHEDULE

Offers an array of Language Services that includes translation, interpretation and language training.

#### SIN 382-1: Translation Services

Services include the translation of written, electronic and multi-media material from foreign languages. Materials include, but are not limited to: business, legal, medical, technical documents, braille, software, Web site

localization, video subtitling, captioning, Title III monitoring. Client consultation and project management services are included. Document formatting, proofreading, editing, and desktop publishing are provided.

#### SIN 382-2: Interpretation Services

Services include the interpretation of oral communication from foreign languages. Interpretation includes, but is not limited to: simultaneous, consecutive, escort, community, telephonic, linguistic support, Title III monitoring and intercepts, voice-overs and sign language. Interpreter forums may

include meetings, conferences, seminars, litigation, briefings, training, military operations, law enforcement, intelligence and operational support. Client consultation and project management services are provided for scheduling, assignment and logistical coordination of linguist support.

Schedule 738 II - Language Services

Schedule 871 - Professional Engineering Services (PES)

Schedule 874 - Mission Oriented Business Integrated Services (MOBIS)

Schedule 874 V - Logistics Worldwide (LOGWORLD)

Schedule 899 - Environmental Services

Schedule 00CORP - Consolidated Schedule

# MANAGEMENT SERVICES CENTER (MSC)

## MULTIPLE AWARD SCHEDULES (MAS)

### What is a Multiple Award Schedule?

Multiple Award Schedules are established long-term governmentwide contracts with commercial firms to provide access to commercial services and products. GSA Schedules offer customers a direct link to high-quality commercial services and products at volume discount pricing. Tasks that can be performed under each Schedule are categorized under Special Item Numbers (SINs). For more information go to [www.gsa.gov/schedules](http://www.gsa.gov/schedules).

### How do I place an order using a Schedule?

GSA has determined that the prices for services contained in the contractor's pricelist are fair and reasonable. However, ordering offices using this vehicle are responsible for considering the level of effort/mix of labor needed to perform a specific task and determining which contractor represents the best overall value. When ordering services, ordering offices shall –

- Prepare a Request for Quotation (RFQ) or other contractual instrument.
- Transmit the Request to contractors (eBuy is an excellent tool for this). The ordering office should identify contractors that appear most promising, based on market research (considering the scope of the services offered, pricing and other factors such as the contractor's locations, as appropriate) and transmit the request as follows:
  - The request shall be provided to at least three (3) contractors.
  - DoD agencies with requirements over \$100,000 using GSA Multiple Award Schedules (MAS), refer to DoD Section 803 of the National Defense Authorization Act.

- In addition, the request shall be provided to any Schedule contractor who specifically requests a copy of the request for the proposed order.

- Evaluate responses and select the contractor to receive the order.

After responses have been evaluated against the factors identified in the request, the order should be placed with the Schedule contractor that represented the best value.

Agencies requiring assisted acquisition from GSA may call the National Customer Service Center at (800) 488-3111.

For more information on how to use Schedules, please visit the Center for Acquisition Excellence at [www.gsa.gov/centerforacquisitionexcellence](http://www.gsa.gov/centerforacquisitionexcellence). Below are professional services Schedules maintained by the Management Services Center in Auburn, WA.

## eBuy

### When you think RFQ ... think eBuy

#### What is eBuy?

eBuy is an online Request for Quotation (RFQ) tool that allows federal buyers to send requests and receive quotes for products and services available under the GSA Multiple Award Schedules (MAS) program.

eBuy is a simple online procurement tool to use. First, find a category and select vendors to notify about your requirements. Second, enter your requirements and specify the amount of time the RFQ should remain open. Contractors will receive e-mails about your requirements and submit quotes in return. An online tutorial with step-by-step procedures is available on the eBuy homepage at [www.gsa.gov/ebuy](http://www.gsa.gov/ebuy) or call eBuy Help at (877) 472-3777.

#### Why Should I Use eBuy?

eBuy was designed to bring ease and versatility to online procurement. Here is a sample of what can be done using eBuy:

- Receive quotes on millions of products and services
- Find sources of supply
- Seek information
- Procure complex requirements by attaching statements of work
- Establish Blanket Purchase Agreement (BPA) pricing

#### What are the Benefits of eBuy?

Take a look at some of the great benefits that both federal buyers and Schedule vendors can experience by using eBuy:

##### Federal Buyers:

- Save time and money by completing procurements online
- Ensure compliance with DoD Section 803 requirements
- Increase competition
- Submit online modifications
- Forward RFQs to others for review and purchase
- Attach customized documents to an RFQ

##### Schedule Vendors:

- Tap into a new large customer base for products and services
- Increase federal government sales
- Access all RFQs under contracted SINs
- Receive e-mail notices of RFQ

For a complete listing of all vendors on contract, visit the GSA Schedules eLibrary at: [www.gsa.gov/elibrary](http://www.gsa.gov/elibrary).

For copies of Schedules and other GSA publications, visit the Centralized Mailing List Service at [www.gsa.gov/cmls](http://www.gsa.gov/cmls). For additional information or for customer assistance, please call the CMLS call center at (817) 334-5215 or send an email to [cmls@gsa.gov](mailto:cmls@gsa.gov).

**To power up, visit us at [www.gsa.gov/ebuy](http://www.gsa.gov/ebuy)  
or call eBuy Help at (877) 472-3777.**

# Schedule 738 II

## LANGUAGE SERVICES SCHEDULE

**Offers an array of Language Services that includes translation, interpretation and language training.**

### SIN 382-1: Translation Services

Services include the translation of written, electronic and multi-media material from foreign languages. Materials include, but are not limited to: business, legal, medical, technical documents, braille, software, Web site

localization, video subtitling, captioning, Title III monitoring. Client consultation and project management services are included. Document formatting, proofreading, editing, and desktop publishing are provided.

### SIN 382-2: Interpretation Services

Services include the interpretation of oral communication from foreign languages. Interpretation includes, but is not limited to: simultaneous, consecutive, escort, community, telephonic, linguistic support, Title III monitoring and intercepts, voice-overs and sign language. Interpreter forums may

include meetings, conferences, seminars, litigation, briefings, training, military operations, law enforcement, intelligence and operational support. Client consultation and project management services are provided for scheduling, assignment and logistical coordination of linguist support.

### SIN 382-3: Training Services and Educational Material

Services include customized or standardized foreign language training courses. Training is available on- and off-site, in classroom, private, semi-private, one-on-one tutorial and in-country immersion forums. Instructional

training is available for various language proficiency levels and testing is included. Educational material is available in publication, software, audio and video formats.

### SIN 382-99: New Item Technology

The latest technology in the field of language services

including Section 508-compliant services.

# Schedule 871

## PROFESSIONAL ENGINEERING SERVICES SCHEDULE (PES)

**Provides expert contractors who can perform an array of engineering tasks. Engineering service areas include mechanical, electrical, chemical and components of civil engineering, as well as numerous sub-disciplines such as: aerospace, nuclear, bioengineering and marine architecture.**

### **\*NOTE:**

- Architect-Engineering (A/E) services as defined in FAR 36.601-3 are excluded from the PES Schedule. If an agency's statement of work, substantially or to a dominant extent, specifies performance or approval by a registered or licensed architect or engineer for services related to real property, the Brooks Act applies and such services must be procured in accordance with FAR Part 36. Use of this Schedule for Brooks Act architectural or engineering services is not authorized.

### **SIN 871-1: Strategic Planning for Technology Programs/Activities**

Services required under this SIN involve the definition and interpretation of high-level organizational engineering performance requirements such as projects, systems, missions, etc., and the objectives and approaches to their

achievement. Typical associated tasks include, but are not limited to: an analysis of mission, program goals and objectives, requirements analysis, organizational performance assessment, special studies, analysis and training.

### **SIN 871-2: Concept Development and Requirements Analysis**

Services required under this SIN involve abstract or concept studies and analysis, requirements definition, preliminary planning, the evaluation of alternative technical approaches and associated costs for the development or enhancement of high level general performance

specifications of a system, project, mission or activity. Typical associated tasks include, but are not limited to: requirements analysis, cost/cost-performance trade-off analysis, feasibility analysis, regulatory compliance support, technology conceptual designs, and training.

### **SIN 871-3: System Design, Engineering and Integration**

Services required under this SIN involve the translation of a system (or subsystem, program, project, activity) concept into a preliminary and detailed design (engineering plans and specifications), performing risk identification/analysis/mitigation, traceability, and then integrating the various components to produce a

working prototype or model of the system. Typical associated tasks include, but are not limited to: computer-aided design, design studies and analysis, high level detailed specification preparation, configuration management and document control, fabrication, assembly and simulation, modeling, and training.

### **SIN 871-4: Test and Evaluation**

Services required under this SIN involve the application of various techniques demonstrating that a prototype system (subsystem, program, project or activity) performs in accordance with the objectives outlined in the original design. Typical associated tasks include, but are not limited to:

testing of a prototype and first article(s) testing, environmental testing, independent verification and validation, reverse engineering, simulation and modeling (to test the feasibility of a concept), system safety, quality assurance, physical testing of the product or system, and training.

### **SIN 871-5: Integrated Logistics Support**

Services required under this SIN involves the analysis, planning and detailed design of all engineering specific logistics support, including material goods, personnel, and operational maintenance and repair of systems throughout their life cycles. Typical associated tasks include, but

are not limited to: ergonomic/human performance analysis, feasibility analysis, logistics planning, requirements determination, policy standards/procedures development, long-term reliability and maintainability, and training.

### **SIN 871-6: Acquisition and Life Cycle Management**

Services required under this SIN involve the entire planning, budgetary, contract and systems/program management functions required to procure and/or produce, render operational and provide life cycle support (maintenance, repair, supplies, engineering

specific logistics) to technology-based systems, activities, subsystems, projects, etc. Typical associated tasks include, but are not limited to: operation and maintenance, program/project management, technology transfer/insertion, and training.

**[www.gsa.gov/engineering](http://www.gsa.gov/engineering)**

# Schedule 874

## MISSION ORIENTED BUSINESS INTEGRATED SERVICES SCHEDULE (MOBIS)

**Provides highly qualified contractors that can help agencies improve performance and accomplish mission goals through the use of specialized consulting and training services, facilitation, surveys, competitive sourcing and project management.**

**\*NOTE:** Acquisition of Internet Technology Services (IT) is not forbidden; however, IT services must be incidental to the management improvement effort and directly linked to successful performance of the task.

### SIN 874-1: Consulting Services

Services may include providing expert advice, assistance, guidance or counseling in support of agencies' mission oriented business functions. This may include studies, analyses and reporting documentation for proposed developmental, consultative or implementation efforts. Examples of consultation include, but are not limited to:

strategic, business and action planning, high performance work, process and productivity improvement, systems alignment, leadership systems, organizational assessments, cycle time, performance measures and indicators, program audits, evaluations, and customized training.

### SIN 874-2: Facilitation Services

Includes facilitation and related decision support services to agencies engaging in collaboration efforts, working groups, or integrated product, process, or self-directed teams. Agencies bringing together diverse teams and/or groups with common and divergent interests may require a neutral party to assist them in: the use of problem solving techniques, defining and refining the agenda, debriefing and overall meeting planning, resolving

disputes, disagreements, and divergent views, logistical meeting/conference support when performing technical facilitation, convening and leading large and small group briefings and discussions, providing a draft for the permanent record, recording discussion content and focusing decision-making, and preparing draft and final reports for dissemination.

### SIN 874-3: Survey Services

Provides expert consultation, assistance, and deliverables associated with all aspects of surveying within the context of MOBIS. Contractors shall assist with, and/or perform all phases of the survey process to include, but not limited to: planning survey design, sampling, survey development, pretest/pilot surveying, defining and refining the agenda, survey database administration, assessing reliability and validity of data, determining proper survey data collection methodology, administering surveys using various

types of data collection methods, and analysis of quantitative and qualitative survey data. Production of reports to include, but are not limited to: description and summary of results with associated graphs, charts, and tables, description of data collection and survey administration methods, discussion of sample characteristics and the representative nature of data, analysis of non-response, and briefings of results to include discussion of recommendations and potential follow-up actions.

### **SIN 874-4: Training Services**

Services include off-the-shelf training packages under this SIN to meet specific agency needs related to business services, such as, but not limited to: customer service, team building, ISO 9000, process improvement, performance

measurement, statistical process control, performance problem-solving, business process reengineering, quality management, change management, strategic planning, and benchmarking.

### **SIN 874-5: Support Products**

Support products are those items used in support of services offered in SINs 1 through 4, 6, 7 and 99. They can include: workbooks, training manuals, slides, videotapes, CDs, DVDs, etc.

Any support products offered must be supplied in conjunction with services offered herein. Support products should not be a significant part of the task.

### **SIN 874-6: Competitive Sourcing Support**

Services provide support in conducting OMB Circular A-76 Commercial Activities studies, strategic sourcing studies, privatization studies, public-private partnerships, Federal Activities Inventory Reform Act, and other competitive sourcing projects or efforts. Services include, but are not limited to: study planning and assessments, development of Performance Work Statements (PWS), development of Quality

Assurance Surveillance Plans (QASP), performance of management studies to determine the government's Most Efficient Organization (MEO), development of in-house government cost estimates, comparisons of in-house bids to proposed contractor prices, and Administrative Appeal Process support, MEO or contract implementation support as a result of a privatization study, and MEO performance reviews.

### **SIN 874-7: Program Integration and Project Management Services**

Services include management or integration of programs and projects to include, but not limited to: program management, program oversight, project management and

program integration. A variety of functions may be utilized to support program integration or program management tasks.

### **SIN 874-99: Introduction of New Services**

May be a task, procedure, or support existing in the commercial market which is being developed, improved, or not yet introduced to the federal

government or not currently available under any GSA Schedule, but is related to the services available on this Schedule.

---

**[www.gsa.gov/mobis](http://www.gsa.gov/mobis)**

# Schedule 874 V

## LOGISTICS WORLDWIDE SCHEDULE (LOGWORLD)

**Provides industry experts who can help create supply chains, acquire logistics support for products or systems, supplement deployment capabilities and much more.**

### SIN 874-501: Supply and Value Chain Management Services

Planning, development, management, operations, and maintenance of logistics systems dealing with the acquisition, movement, and maintenance of resources. Typical tasks include operating warehouses/storage facilities, packing/crating, staging/shipping/receiving, bar coding, fulfillment

operations, acquisition/inventory management, business process reengineering, systems modernization, expansion/consolidation studies, system assessment, material requirements planning, process mapping and requirements determination.

### SIN 874-502: Acquisition Logistics

Integrated Logistics Support associated with the design, development, test, production, fielding, sustainment, and improvement of cost-effective systems, including the eventual disposal or salvage of these systems. Contractors may provide logistics expertise in the pre-production or design phase of systems to ensure that the system can be supported through its life cycle, and that the infrastructure elements necessary for operational support are identified and acquired. Typical tasks include preparing needs assessments, reliability, maintainability and supply support factors, system maintenance concepts, functional analysis and

requirements allocations, logistics support analysis, test and evaluation, system operation and support, milestone documentation, developing and monitoring funding plans, market research/acquisition planning, configuration and data management, modeling and simulation (virtual, constructive, live), supply chain integration, spares modeling, establishing maintenance procedures, developing technical manuals, depot maintenance, vendor management, field problem analysis, disposal/recycle/salvage management, process mapping, requirements determination, lean maintenance/management and condition-based management.

### SIN 874-503: Distribution and Transportation Logistics Services

Planning, designing, and implementing or operating systems and/or facilities for the movement of supplies, equipment or people by road, air, water, rail, or pipeline. Typical tasks include moving and storage (excluding household goods), location modeling, transportation system development and

management, carrier management and routing, freight forwarding, courier services, shuttle services, facilitating customs processing, process mapping and requirements determination. Commercial passenger airline services covered by the Airline City Pair Program are excluded.

### SIN 874-504: Deployment Logistics Services

Typical tasks include contingency planning, identifying/utilizing regional or global resources, integrating public/private sector resources, inventory/property planning, movement, storage, end-to-end office and industrial relocation/expansion services, project/asset/ construction

management, space planning and project integration/implementation, pre-positioning assets, facilitating customs processing/ accountability, and deploying communications and logistics systems to permit rapid deployment and management of supplies and equipment.

### **SIN 874-505: Logistics Training Services**

Training in system operations, automated tools for supply and value and chain management, property and inventory management, distribution

and transportation management, maintenance of equipment and facilities supporting these activities.

### **SIN 874-506: Support Products**

Ancillary products used in the direct support of a service in conjunction with another LOGWORLD SIN, including training manuals, CD-ROMs, etc. The acquisition of COTS

hardware and software (other than logistics software such as ERP/DRP applications) under this SIN is not allowed.

### **SIN 874-507: Operations & Maintenance Logistics Management and Support Services**

Planning, designing, managing, operating and maintaining reliable and efficient systems, equipment, facilities and logistics infrastructure to improve equipment and logistics performance, and reduce life cycle costs. Typical tasks include complete turnkey operations, maintenance and support services, base operations support (BOS), depot maintenance, preventative maintenance planning, fleet/property management and maintenance, mobile utility support equipment operation, maintenance and repair, strategic account/project management, integrated facility management, operations

management support, process mapping, requirements, determination, lean maintenance/management and condition-based maintenance. Excluded from these services are construction, and the operation of computer centers (which is covered under the IT Schedule). Teaming with other GSA Schedule holders may be a viable method of acquisition, particularly considering satisfaction of small business goals (e.g., providing pest control, guard services, elevator maintenance, fire suppression support, beautification services, etc.).

### **SIN 874-599: Introduction of New Service**

New services within the scope of the Schedule specifically covered by a numbered SIN that has the potential

to provide the government with a more economical or efficient means of meeting mission requirements.

---

For basic terms and conditions see LOGWORLD Solicitation, TFTP-MB-008745-B, posted on FedBizOpps, [www.gsa.gov/fedbizopp](http://www.gsa.gov/fedbizopp).

[www.gsa.gov/logworld](http://www.gsa.gov/logworld)

# Schedule 899

## ENVIRONMENTAL SERVICES SCHEDULE

**Provides contracting support for environmental compliance, planning, training, audits, management surveys, geographic mapping, remediation and many other services.**

### SIN 899-1: Environmental Planning Services & Documentation

Services include, but are not limited to: environmental consulting that includes the development, planning, facilitation, coordination and documentation of and/or for initiatives in areas of chemical, biological, radiological, and/or hazardous material services, environmental assessments and environmental impact statements under the National Environmental Policy Act (NEPA), endangered species/wetlands/watersheds and other natural resource management plans; archeological and/or cultural

resource management plans; environmental program and project management and environmental regulation development, economic/technical and/or risk analysis, and other environmentally related studies and/or consultations. Homeland Security issues including vulnerability assessments, biochemical protection, identification of threats and protective measures to mitigate the threats and Crime Prevention through Environmental Design (CPTED) surveys.

### SIN 899-2: Environmental Compliance Services

Services include, but are not limited to: environmental compliance audits, compliance management and/or contingency planning, permitting, spill prevention/control and

countermeasure plans, pollution prevention surveys, ISO 14000/ Environmental Management Systems (EMS), and community Right to-Know Act reporting.

### SIN 899-3: Environmental Occupational Training Services

Training to include standard (off-the-shelf), customized, and/or computer-based interactive courses, as well as converting existing courses to electronic media. Training may be

conducted on- or off-site and may be on any number of environmentally related issues, including fire preparedness training and public fire safety education.

### SIN 899-4: Waste Management Services

Services may include, but are not limited to: data collection, feasibility or risk analysis, source reduction, RCRA/CERCLA site investigation, hazard and/or non hazard exposure assessments, waste characterization studies, review and recommendation of waste tracking or handling systems, waste management plans

and/or surveys, and review of technologies, processes impacting waste management, and the management, furnishing or inventory of Material Safety Data via CD, Internet, facsimile, mail or other media, and the development of emergency response plans.

### SIN 899-5: Reclamation, Recycling and Disposal Services

Services include, but are not limited to: establishment and/or operation of waste management and/or recycling systems to include waste collection, reuse assessments, inventory, destruction, inventory transfer and/or disposal after compliance with GSA Office of Personal Property Management requirements outlined in

Federal Management Regulations 101-42, 102-36 and 102-37 (as applicable). Types of waste management and/or recycling systems include, but are not limited to: excess inventory, surplus inventory, management and oversight of HazMat disposal operations, confiscated materials, electronic equipment, batteries, chemicals,

*Continued >*

solids, biological matter, cathode ray tubes (CTRs), and waste minimization/pollution prevention initiatives. These efforts do not

include transportation and/or disposal of radioactive waste. No remediation efforts are associated with this SIN.

### SIN 899-6: Environmental Advisory Services

Services include, but are not limited to: ongoing advice and assistance with data and information in support of agency Environmental programs involving areas such as hazardous material spills, material safety data

sheets (MSDS), information hotlines, poison control hotlines, and environmental regulations and biological/medical data sheets, and environmental policy/procedure updates.

### SIN 899-7: Geographic Information Services (GIS)

Provide services, advice, or guidance in support of agencies' environmental programs utilizing GIS. Services to include, but are not limited to: mapping and cartography, natural resource planning, migration pattern analysis, pollution analysis, site

selection, and emergency preparedness planning. Provide services to support geologic logs, topographic data, 3D/4D interactive visualization packages and data interpretation.

**\*NOTE: Services of an Architect-Engineering nature as set forth in FAR Part 36 are specifically excluded.**

### SIN 899-8: Remediation Services

Services include, but are not limited to: excavation, removal and disposal of hazardous waste, remediation-related laboratory testing, and site preparation, characterization, field investigation, conservation and closures, wetland restoration, emergency response clean up, UST/AST removal, air monitoring, soil vapor extraction, and the stabilization/solidification, bio-venting, carbon absorption, reactive walls, containment, monitoring and/or reduction of hazardous waste sites, as well as unexploded ordnance removal.

This effort does NOT include any remediation/transportation, disposal of radioactive waste, asbestos removal and/or paint removal, construction and architect-engineering services as set forth in FAR Part 36 (including construction, alteration or repair of buildings, structures, or other real property) or disposal "only". Disposal services performed under this SIN must be ancillary to remediation services performed.

### SIN 899-99: Introduction of New Services

A new or improved service that has the potential to provide more economic or efficient means for federal agencies to accomplish their

mission that is within the scope of the Environmental Services Schedule, but not covered by one of the existing SINS.

---

# Schedule 00CORP

## CONSOLIDATED SCHEDULE

### The Consolidated Schedule offers a Total Solution.

This Schedule encompasses most of the service Schedules available under the individual Multiple Award Schedules (MAS) into a single acquisition vehicle.

The Consolidated Schedule may be the solution for fulfilling requirements that fit under more than one Schedule. It's appealing to both customers and contractors as it provides an avenue for fulfilling requirements from a total solutions approach.

Customers may compete requirements under this Schedule that include a combination of services available under

the MAS Schedules program. These types of combined requirements may be acquired under this streamlined acquisition vehicle. Contractors that provide multiple services under a single Consolidated Schedule contract have the capability to fulfill these types of requirements. For example, combined services such as Engineering, Environmental, MOBIS and Information Technology services may be awarded under a single task order for a total solutions approach to fulfilling your requirements.

The array of services available under the Consolidated Schedule include:

- Information Technology (Schedule 70)
- Business Consulting (MOBIS) (Schedule 874)
- Office of Imaging and Documentation Solutions (Schedule 36)
- Professional Engineering (Schedule 871)
- Environmental (Schedule 899)
- Facilities Maintenance (Schedule 03FAC)
- Language (Schedule 738 II)
- Logistics (Schedule 874 V)
- Human Resources (Schedule 738 X)
- Publication Media (Schedule 76)
- Training (Schedule 69)
- Financial and Business Solutions (Schedule 520)
- Advertising and Integrated Marketing Solutions (Schedule 541)
