

U.S. General Services Administration

Product Solutions

Everything you need in a day's work

One Country. One Mission. One Source.

Supporting Your Mission's Goals

The business of government takes an amazing array of supplies. Consider everyday needs for basics like paper and light bulbs. Then there are the special demands of government's myriad missions. Civilian agencies respond to disasters like wildfires and hurricanes, patrol our borders, provide healthcare and maintain national parks. While service requirements remain on the rise, budgets are tighter than ever. These customers need easy and immediate access to products that improve efficiency and help them accomplish their mission. The military faces daunting challenges as well, from feeding and housing our troops in hostile terrain to managing depots and equipment of incredible range. Rapid response in supply chain management is critical to our defense customers, especially with active overseas missions and in times of transition.

The list goes on. And so does GSA, in constant pursuit of more variety, more brands, better pricing, top quality and ever faster buying methods and delivery times. Count on GSA for the strategic products and the supplies you need to deploy and serve. When your mission requires action, turn to us. We deliver the means to make all things possible.

GSA provides access to a broad spectrum of innovative products from world-class vendors to meet your mission's daily needs.

World-Class Products for Any Mission

A world of products is available when you take advantage of GSA's vast reach and unmatched buying power. You can buy one among millions, or millions of just one item. Whether you're buying paper clips, printers, paints or park benches, we make procurement simple and compliant to meet your mission's budget and unique requirements.

Audio, Visual and Photographic Supplies and Equipment

Tap into hundreds of supplies and accessories, from printers and high-resolution scanners to film and processing chemicals, photo lab development and Web-based image storage. Almost every make and model of cameras is available, including flashes, filters and much more.

Aviation and Marine Equipment

We can connect you with a variety of options including power boats, life rafts, inflatables, inboard/outboard engines and related parts as well as devices like booms, buoys and moorings, engine instruments such as fuel pressure gauges and warning devices and all kinds of test and evaluation instruments.

Cleaning Supplies and Equipment

Access a sweeping range of solutions including chemicals and chemical products for water purification, HVAC systems, floors and carpets and sorbents for marine use. Also available are cleaning supplies and disinfectants for ordinary environments and special ones like surgery rooms as well as every kind of mop, bucket, vacuum, dispenser, sanitizer and much more.

Computer Hardware and Software

Choose from a broad range of hardware solutions such as computers, monitors, peripherals, servers, network equipment and supplies as well as commercial and custom software such as communication and information sharing solutions, electronic document tracking and storage solutions, integration solutions, specialized legacy systems development and updates and much more.

Furniture and Furnishings

Buy everything from conference tables to filing systems, or take advantage of turnkey solutions to furnish a room, a floor or an entire building. A wide array of furniture is available for a large number of environments, including office, household/living quarters and hospitals. Special use items are also available and include items such as library bookcases, security filing cabinets and vault doors. Floor coverings are also offered in addition to a large variety of furnishings like paintings, lamps and window shades.

Hospitality, Food Service, Personal Care Supplies and Equipment

Hospitality and lodging solutions include housewares, uniforms, linens, bedding and more. In the area of food service and preparation, you can buy everything from hot and cold food service carts to can openers and bread makers, tableware and cooking utensils. You can even purchase packaged solutions to construct a full kitchen in minutes. On the personal care front, you can procure everything from barber supplies to shampoo and toothpaste.

Law Enforcement, Safety, Security Supplies and Equipment

Comprehensive tools for firefighting and rescue missions extend to emergency devices, fire suppressants, rescue tools and breathing equipment as well as alarm and signal systems including access control elements and locks. Special purpose clothing from safety toe shoes to body armor are also available as are night vision and other surveillance equipment, complementary facilities management and professional security services.

Medical Supplies and Equipment

Equipment for medical and dental imaging are ready to buy, including X-ray machines, TV monitors, recorders, image enhancement devices, laser images and all their requisite parts. Also available are everyday supplies such as bandages, dressings, surgical sponges and blades, disposable and reusable instruments, air tubes, catheters, gloves, needles, syringes, specimen containers, braces, splints and much more.

Office Supplies and Equipment

From the workplace to the copy room to the conference room, GSA provides everyday items necessary to run your office faster, easier and smarter. The list of available office solutions include, but is not limited to, basic office operating products and day-to-day supplies such as office essentials (clips, notebooks, tape), writing instruments, paper, toner cartridges, binding and filing, cases and portfolios, mailing and shipping supplies, business machines, calendars and personal organizers, computer products, data storage media and supplies, forms, office appliances, shredders and office furnishings.

Paints, Coatings, Sealants and Adhesives

Get the right kinds of coatings and equipment to protect your investments and our environment. Through GSA, you can procure adhesives, applicators, paints, lubricants and specialty oils as well as sealants, products and equipment to apply commercial coatings. Where possible, we've contracted for chemical items with reduced pollutants.

Pre-Fabricated Buildings, Building Materials, Maintenance, Operations Supplies and Equipment

Access a wide range of industrial supplies to support operations in federal warehouses, water treatment facilities and maintenance and repair shops to name a few. You can also procure pre-fabricated buildings, above-ground storage tanks, fuel management systems, power distribution equipment and energy saving products as well as building materials such as doors, windows, shutters, heaters and much more.

Scientific and Laboratory Equipment

You'll find choices for test and measurement equipment such as antennas and various control instruments and unmanned scientific vehicles as well as everything you need for the lab including chemical analyzers, optical instruments, animal caging, environmental chambers, scales, meteorological tools and hazard detection equipment.

Shipping and Packaging Supplies

Don't get boxed in when it comes to addressing your shipping requirements. We are your one-stop source for your day-to-day packaging and shipping supplies as well as unique shipping containers. You can buy all kinds of bags, from lunch bags to foil bags and sand bags. Or choose from a vast range of bottles, jars, cartons, crates and cargo drums. Wrap packages or strap containers for maximum safety, or purchase pallets of plastic and wood for all kinds of transportation needs.

Sports, Recreation and Promotional Equipment

Access a wide range of sports, recreation and promotional products including camping and hiking equipment, wheel and track vehicles, recreational watercraft, park and playground equipment as well as an assortment of flags, awards and trophies.

Tools, Hardware and Appliances

From simple needs like basic tools to complex ones such as aviation and marine craft specialty coatings, you'll find appliances, building materials, carts, electrical equipment, fencing, flooring, hardware, lawn and garden equipment and supplies, machining and welding tools, material handling equipment, plumbing parts and equipment and an extensive collection of machinery and equipment rental options.

Training Aids and Devices

Support your training needs in areas including, but not limited to, 1102 contracting curriculum, law enforcement, security, military, engineering, medical, science, computer technologies, foreign languages and business and financial management with medical models and simulators, hands-on training devices, computer training devices, printed instructional material, reference guides, audio/visual materials, multimedia kits and much more.

.....

Wildland Fire

Purchase more than 250 items including water handling equipment and supplies, fire line tools, fire shelters, protective clothing, canteens, field packs, sleeping bags, batteries, chainsaw chaps, first aid kits, goggles and safety glasses, gloves and tents—all of which adhere to Forest Service specifications.

Computers for Learning

GSA's Computers for Learning (CFL) Program allows government agencies to transfer excess computer equipment to schools and educational nonprofit organizations, giving special consideration to those with the greatest need. Transferring computers to schools gives students the resources to succeed and build a successful future for America.

Personal Property Management

Utilization & Donation

While the demand for new products and supplies keeps rising, so does the need to dispose of excess government owned personal property that is no longer required and is designated as surplus. Turn to GSA for help meeting your mission's requirements. Our services include internal screening and reassignment of excess property, utilization of excess personal property, donation or sale and abandonment or destruction.

GSA makes it easy to report, search and select excess property through GSAXcess®, our Web-enabled platform that allows authorized government users to post excess product reports. GSAXcess® organizes products into user friendly groups so search and selection is click-through convenient. You can look at product by state/territory too, or find out if excess product is available for transfer or donation. We can also provide guidance on how to handle gifts from the public or foreign entities as well as property requiring special handling such as controlled substances, demilitarized equipment, firearms and more at

www.gsa.gov/gsaxcess

Sales

GSA also offers sales services to all federal agencies, including the latest e-tool available, the Internet. GSA Auctions® (www.GSAAuctions.gov) is our own Web-based auction service that sells government owned personal property to the general public. As the only Sales Center approved by OMB to sell all commodities of surplus, forfeited and exchange sale assets *nationwide*, GSA offers value to federal agencies and to the American taxpayers by ensuring maximum visibility of property offered for sale and maximizing the government's net proceeds from asset sales.

www.GSAAuctions.gov

Multiple Paths to Procurement

As stewards of our national interests, access to mission critical products is paramount to success. Speed, quality, and selection are equally important considerations—as are procurement expertise and know-how. In today's constantly evolving federal marketplace the adage "one size fits all"

doesn't apply, especially when the scope and complexity of requisitions or acquisitions can vary significantly.

Requisition

GSA Global Supply provides fast, easy access to tens of thousands of products including, but not limited to, computer hardware and applications, office supplies, furniture and furnishings, housewares and cleaning equipment, industrial supplies, safety products, tools and hardware, wildland fire items, "green" items and products that support disaster relief efforts. When ordering from GSA Global Supply, you are submitting a simple requisition for product fulfillment, not conducting a procurement, which means you don't have to send your requirement to multiple sources for comparison shopping.

Federal, state and local government customers can requisition goods directly from GSA Global Supply through multiple channels, such as GSA Global Supply's online shopping and ordering system, FEDSTRIP/MILSTRIP, phone, fax, *GSA Advantage!*® or by visiting a GSA Global Supply Store or a base supply store supported by GSA Global Supply. Customers can also place requisitions for NSN or part-numbered items through GSA Global Supply's Special Order Program. In all cases, customer orders through GSA Global Supply comply with federal regulations and other DoD, socioeconomic and environmental policies.

Additionally, GSA Global Supply offers worldwide delivery, 24/7 support, AbilityOne (formerly JWOD) guaranteed products, payment using GSA SmartPay® or AAC/DoDAAC, government to government transactions and unrestricted spending limits.

e-Resolve offers ways to report a problem with GSA Global Supply orders or to submit an inquiry about any of the products offered through GSA. Requests for assistance are subsequently processed by the GSA National Customer Service Center, a full-service center providing assistance and information to make acquisitions simple and efficient.

Buy from a GSA Vendor

Alternatively, you can order products directly from thousands of pre-qualified vendors through GSA's Multiple Award Schedules (MAS) Program. Under this purchasing method, GSA establishes long-term government-wide contracts with vendors to provide customers with access to more than 12 million state-of-the-art, high-quality commercial supplies at volume discount pricing. Here, customers place orders directly with GSA MAS contractors or through *GSA Advantage!*®, GSA's online shopping and ordering system. The program offers the potential benefits of shorter lead times, lower administrative costs and reduced inventories while helping customers meet small business goals and ensuring compliance with federal environmental and socioeconomic regulations.

Before making a purchase through GSA's Multiple Award Schedules Program be sure to explore our innovative collection of online resources. Easy to use tools such as Schedules eLibrary and eBuy streamline the purchasing process by providing helpful information that strengthens strategic decision-making. It is important to note that all products available through the GSA MAS Program are pre-negotiated with "ceiling" pricing, enabling you to negotiate pricing to meet your unique needs.

GSA also offers Blanket Purchase Agreements (BPAs) for customers with recurring needs. BPAs, which can be established in connection with any Schedule under GSA's MAS Program, offer volume discounts and a faster buying process to minimize paperwork.

GSA Manages the Acquisition

For a nominal fee, GSA will help you plan, direct and manage a wide range of acquisitions—from simple purchases to complex projects. The full-service and far-reaching nature of our capabilities allows for support on a short- or long-term basis, for strategic or transactional projects. Our technical, financial and project management staff can even be located on-site with you to guarantee your mission's success.

AbilityOne (JWOD)

GSA is a partner and supporter of AbilityOne—a program where people who are blind or have other severe disabilities are able to support our country by providing a wide range of products to meet the needs of federal customers. In addition to being your one-stop shop for competitively priced products, AbilityOne can help you meet socioeconomic goals and procure support in administration, food service, warehousing, maintenance, operations and much more.

GSA/DoD Partnership

We take our partnership with the Department of Defense (DoD) seriously.

Through this relationship, DoD procures the highest quality products and services it needs in a timely and cost-effective manner. To ensure that GSA continues to meet the needs and demands of DoD well into the 21st Century, the two agencies entered into an agreement to work together to develop new guidelines to facilitate the procurement process. GSA is responding to DoD's need to position inventory dynamically throughout the world. Examples include GSA Global Supply Stores and base supply stores supported by GSA Global Supply where GSA maintains the inventory of government/military owned supply stores and the expansion of forward supply points. For items that can be requisitioned, the National Stock Number (NSN) program is a statutory mission of GSA and the foundation of our partnership with DoD. GSA operates the stock program under prescribed policies and methods to ensure coordination with DoD. GSA also offers Blanket Purchase Agreements (BPAs) for customers with recurring needs. BPAs, which can be established in connection with any Schedule under GSA's MAS Program, offer volume discounts and a faster buying process to minimize paperwork.

Smarter Solutions

Proudly Serving America's Needs

The General Services Administration (GSA) is the only federal agency whose sole purpose is to help government acquire products and services to support our national priorities. From securing the homeland, controlling wildfires, and protecting the environment to helping government operate more efficiently, GSA is a catalyst for nearly \$66 billion in federal spending. We also influence the management of federal assets valued at nearly \$500 billion, including more than 8,500 government owned and leased buildings, an interagency fleet of more than 210,000 vehicles, and technology programs and products ranging from laptop computers to network systems.

As an integral part of GSA, the Federal Acquisition Service (FAS) possesses unmatched capabilities to support any given mission across government. We accomplish this through dedication and teamwork, regardless of the size of the challenge. With unmatched government procurement experience and unequalled purchasing power, we provide access to a continuum of solutions ranging from products and services to technology, motor vehicle management, travel and transportation. Combined with myriad methods of procurement and powerful online resources, we consistently deliver exceptional value to our customers, partners and taxpayers alike.
