And AMSA Board Fax Recipients**

--SPECIAL FUEL NOTICE--

SURCHARGE TO INCREASE TO 4%

DOE's July 3 diesel fuel survey reported a nationwide price of \$1.453 per gallon. The \$1.453 price is 2.1¢ per gallon higher than last Monday's price and triggers an increase in the industry's fuel surcharge from 3% to 4% **effective July 15, 2000.**

The authority for the fuel surcharge increase is set forth in Item 16 of all HGCB Tariff Series. Item 16 shows that a 4% surcharge is applicable if the announced DOE price (\$1.453) on the first Monday of the month is between \$1.435 and \$1.533.

Again, the current **3% fuel surcharge increases to 4% effective July 15, 2000.**
