

Supply and Procurement

Check out the latest featured products and services from **GSA**.

Minimize Waste • Conserve Natural Resources • Reduce/Prevent Pollution

GSA Supply offers products that fully comply with all environmental regulations. We have products and packaging that have recycled content, conserve energy and/or water, or contain reduced pollutants.

PaperFacts

*In one year, 2 billion books,
359 million magazines, and
24 billion newspapers are
published in the United States*

PaperFacts

*One year's worth of the
New York Times newspaper
weighs 520 pounds*

PaperFacts

*Every ton of paper made from
recycled materials saves about 17 trees*

Did You Know...?

 We generate on average 4.4 pounds of waste per day per person.

 Recycling all of your home's waste newsprint, cardboard, glass and metal can reduce carbon dioxide emissions by 850 pounds per year.

 Approximately 70% of the garbage Americans create can be composted, including wood, paper, yard waste and food waste.

 If Green Lights (energy efficient lights) were used in all facility space in the U.S., our air pollution would drop by 12 percent.

 Every Sunday, the United States wastes nearly 90% of the recyclable newspapers. This wastes about 500,000 trees.

 Recycling an aluminum can saves enough energy to run a television set for three hours.

 One tree can filter up to 60 pounds of pollutants from the air each year.

 A tree, over a 50-year lifetime, generates \$31,250 worth of oxygen, provides \$62.00 worth of air pollution control, recycles \$37,500 worth of water and controls \$31,250 worth of soil erosion.

Copier Paper
NSN: 7530-01-335-2623

Recycled Paper, with recovered material and postconsumer material.

Wiping Cloths
NSN: 7920-00-965-1709

Soft Paper towels, 30% postconsumer material and biodegradable packing material.

Green Disk
NSN: 7045-01-392-6514

Quality disks using completely recycled materials.

Pencil
NSN: 7510-01-357-8952

100% Recycled material.

Air Duster
NSN: 7930-01-406-4055

Computer cleaning with NO harmful CFCs!

Lemon Pledge
NSN: 7930-01-381-3491

Protect your office furniture with NO harmful CFCs.

Recycled Retractable Pen
NSN: 7520-01-386-1604

100% Recovered Material.

Recyclable Paper Collection Desktop Container
NSN: 8115-01-347-7543

Recycle paper easily!

Traffic Cone
NSN: 9905-00-527-4997

Prevent accidents and CPG compliant.

Highway Warning Device
NSN: 9905-00-148-9546

Be safe and CPG compliant.

Award Plaque
NSN: 9905-01-357-9985

Show off your stuff with 100% recovered material.

Computer Accessories

Remanufactured Toner Cartridges

Computer accessories, such as toner cartridges and 3-1/2" disks, are always good to have on hand. How many times have you clicked "print" only to have blurry and hard to read pages come from your printer? Since you don't have toner cartridges in inventory, you probably just take the toner cartridge out and give it a good shake. This solves the problem for a while, but soon the cartridge is once again producing blurry pages. If you had toner cartridges in your inventory you wouldn't need to go through this.

Each year 36% of all toner cartridges used are thrown away ([www.co.orange.nc.us/recycling/Computer Recycling.doc](http://www.co.orange.nc.us/recycling/Computer%20Recycling.doc)). Using remanufactured toner cartridges keeps valuable resources out of our landfills and generally cost 20% to 50% less than new cartridges

Recycled 3-1/2" Disks

NSN 7045-01-392-6514 is recycled 3-1/2" double-sided, high-density diskettes that feature a visual write-protection system. The recycled diskettes used are from the estimated 1 to 2 billion software diskettes produced each year and used for software updates. Recycled diskettes cost 20% to 40% less than new disks (www.cetonline.org/Publications/nonpaperoffice.pdf) and are collected from environmentally aware software companies and recycled for resale. Double-sided, high-density disks have been written to only once in a high-speed disk duplicator and are formatted for IBM and other 1.44 MB systems. This product is compliant with the Comprehensive Procurement Guidelines (CPG) and EPA recommendations. U/I BX (contains 10 EA) \$3.62.

(see www.epa.gov/wastewise/pubs/progrpts/pdfs/report6.pdf), and are compliant with the Comprehensive Procurement Guidelines (CPG) and EPA recommendations. Listed below is information on remanufactured toner cartridges available from GSA. Additional remanufactured toner cartridges are available on GSA Schedule. For information on how to purchase remanufactured toner cartridges through GSA's Office Products, Supplies and Services Schedule (75 II A), please contact:

Outsourcing

The Multiple Award Federal Supply Schedule Program can assist federal agencies to help meet their mission as well as improve its operation. We encourage federal agencies to look at Federal Supply Schedule 874 Management, Organizational and Business Improvement Services (MOBIS) to meet their program mission and other regulatory requirements.

The Office of Management and Budget (OMB) issued OMB Circular No.

A-76 in the mid 1950s. Since 1955, this circular has been updated and the current revision is dated June 1999. OMB issued a Draft Revision on November 14, 2002. The Draft Revision is intended to streamline and align the A-76 process with the Federal Acquisition Regulations (FAR).

The identification of commercial activities performed by federal employees is complex and highly-charged because outsourcing is often an outcome. MOBIS Special Item Number (SIN) 874-6 is an excellent vehicle for federal

agencies to use as they perform the initial study plan; develop in-house government cost estimates; develop strategic, tactical and operational level planning; develop Performance Work Statements; and perform management studies to determine the government's Most Efficient Organization (MEO).

We encourage you to review SIN 874-6. To learn more about the MOBIS Schedule, contact the MOBIS Team at: mobis@gsa.gov or 1-800-241-RAIN (7246), press #1 for Schedule Programs and #1 for "MOBIS."

Geographic Information Systems (GIS)

Did you know that Geographic Information Systems (GIS) Day is held each November? It's sponsored in part by the National Geographic Society, the United States Geological Survey, and The Library of Congress, as well as many other agencies. GIS Day is a worldwide grassroots event that formalizes the practice of geographic information systems users and vendors of opening their doors to schools, businesses, and the general public to showcase real-world applications of this important technology. Mark your calendars now for November 19, 2003, National GIS Day.

What is GIS? Simply put, GIS uses technology to combine layers of information about a place to give you a better understanding of that place. Which technology is used and which

layers of information you combine depend on your purpose. Uses for GIS fall into broad categories such as: Natural Resources, Emergency Management, Land-Based, Environmental, Human Services, Conservation and Wildlife, Defense and Military, Transportation, and Governmental Reform. Within these broad categories, specific requirements may include work on Global Change Assessment, National Parks Management, Superfund Landfill Trend Analysis, Hazardous Waste Transportation, Pollution Plume Modeling, Public Health Issues, Water Quality Assessment, and Environmental Impact Assessment.

To support work in the GIS arena, the Environmental Services Schedule 899 has awarded schedule contracts to 120

vendors and the number is growing daily. Our schedule vendors can also provide GIS services related to Alternative Energy Assessment, Biodiversity, Forestry Management, Wildlife Habitat Management, and Endangered Species Analysis. Agencies can meet any socio-economic goals. Included in this are 54 small businesses, 7 woman-owned businesses, 12 8(a) registered businesses, and 17 small disadvantaged businesses. To view the entire list, please visit www.gsaelibrary.gsa.gov/ schedule 899.

To learn more about the environmental schedule, contact the environmental team at: environmental@gsa.gov or 1-800-241-RAIN (7246), press #1 for Schedule Programs and #3 for "Environmental."

Purific® Patented SELF-FILLING WATER COOLER

From the front, the Purific looks like a traditional water cooler

. . . . but the back reveals a state-of-the-art filtration and bottling system.

Now Available!

Purific means . . .

✓ SAVINGS

- Costs less than bottled water
- No paying for storage costs
- Reduce the possibility of workers compensation claims

✓ CONVENIENCE

- No heavy bottles to change
- No bulky bottles to store
- No spilling or splashing water
- Never run out of water

✓ SECURITY

- No worrying about unauthorized delivery personnel
- Completely sealed filtration and disinfection system

✓ QUALITY

- Great tasting freshly bottled water
- No contamination from unsanitary bottle necks
- Multiple step filtration and disinfection
- Tested and validated by the Water Quality Association

Call **800-326-5222**
for your own
customized Purific
self-filling water cooler.

Title III Linguistic Support Monitoring and Intellectual Interception Support, Linguistic Support Services For Law Enforcement, Intelligence and Military Operations

Whether you are an agency needing to get the message to all of your personnel (to include the hearing impaired) or need to translate/interpret classified information, GSA's Language Services Schedule contractors are ready to meet your needs. GSA's schedule contractors provide support for oral, wire, and electronic communications coupled with analysis of other pertinent material. Information requirements supported by the General Services Administration (GSA) Language Services Schedule 738 II include a vast array of multi-lingual support areas:

- Security Escort
- Interpretation
- Information Gathering
- Liaison
- Transcription
- IT Solutions
- Evaluations
- Interviewing
- Surveys
- Monitoring
- Analysis
- Research

To learn more about the LANGUAGE schedule, contact the LANGUAGE team at: language@gsa.gov or 1-800-241-RAIN (7246), press #1 for Schedule Programs and #6 for "Language".

On-Line Request for Quotes (RFQ)

In August 2002, GSA officially launched e-Buy, an online Request for Quotes (RFQ) tool for Federal buyers. E-Buy streamlines the buying process by enabling RFQs to be published or sent to potential offerors electronically as well as allowing for electronic submission of offers by interested vendors. Buyers set the parameters of their RFQ including statements of work, performance and evaluation criteria, instructions to offerors and any other information that should be communicated to ensure that a schedule contractor can submit a quote.

The e-Buy tool has already proven its value to personnel at GSA's Management Services Center (MSC) in Auburn, WA. When the MSC was tasked with procuring warehouse operations support for the Customer Supply Center (CSC) in Anchorage, they knew they had to work quickly. The new contractor needed to be on-site by October 1, 2002 and it was already late August!

Thanks to e-buy, responsive schedule contractors and the efforts of several GSA personnel in both Auburn and Anchorage, the schedule task order was awarded to a small business on the Logistics Worldwide (LOGWORLD) Schedule well before the required start date.

The MSC's first experience with e-Buy was extremely positive. We recommend e-Buy with great enthusiasm as a market research and solutions tool. For more information on e-Buy, go to www.gsaadvantage.gov/ and click on the e-Buy link. If you'd like our assistance posting your RFQ in e-Buy, please give us a call at 1-800-241-RAIN (7246). We'd be happy to work with you.

To learn more about the Logworld schedule, contact the Logworld team at: logworld@gsa.gov or 1-800-241-RAIN (7246), press #1 for Schedule Programs and #4 for "Logworld".

Bag It Up With JWOD!

Help keep your work environment safe and clean by bagging up trash, refuse and infectious waste materials with these assorted plastic bags and liners provided by Envision of Wichita, Kansas under the Javits-Wagner-O'Day Program. Envision is the largest employer of individuals who are blind or low vision in the state of Kansas. Through the JWOD Program, sales of Envision's products help create employment for over one hundred people who are blind or have low vision.

Total Recycled Content Trash Bags

Total recycled content can liners are manufactured from 100% recycled resins with at least 30% post-consumer recycled material. These environmentally sound, versatile and 100% recyclable can liners are designed to handle heavy workloads. Made of 100% recycled low density or linear low density polyethylene with tubular construction and a star seal bottom.

8105-01-386-2289	24" x 24", medium duty, 7-10 gallon capacity, 250 per case, 1.0 mil thick
8105-01-386-2290	30" x 39", medium duty, 20-30 gallon capacity, 100 per case, 1.3 mil thick
8105-01-386-2312	33" x 40", medium duty, 33 gallon capacity, 100 per case, 1.3 mil thick
8105-01-386-2323	33" x 40", heavy duty, 33 gallon capacity, 100 per case, 1.5 mil thick
8105-01-386-2329	40" x 48", heavy duty, 40-45 gallon capacity, 100 per case, 1.5 mil thick
8105-01-386-2362	43" x 49", heavy duty, 56 gallon capacity, 100 per case, 1.5 mil thick
8105-01-386-2399	38" x 60", heavy duty, 55-60 gallon capacity, 100 per case, 1.5 mil thick
8105-01-386-2410	36" x 58", heavy duty, 60 gallon capacity, 100 per case, 1.5 mil thick

8105-01-386-2289

8105-00-NIB-1126

Retail Pack Can Liners

High-quality liners manufactured from 100% recycled resins. This environmentally sound bag is suitable for a wide range of uses. The box features a convenient handle in the back for ease of carrying.

8105-00-NIB-1126	33" x 39", heavy duty, 33 gallon capacity, 25 bags per case
8105-00-NIB-1127	40" x 46", heavy duty, 40-45 gallon capacity, 15 bags per case
8105-00-NIB-1128	38" x 58", heavy duty, 60 gallon capacity, 20 bags per case

General Purpose Liners

The high molecular weight of the high density polyethylene resin allows us to produce general purpose liners that are approximately 1/3 the weight of traditional can liners with the same capacity. This use of fewer raw materials helps contribute to overall source reduction by returning less plastic to our environment. The linear low density bags are highly puncture and tear resistant. These properties make this the best choice for applications where additional strength and stretch are required. Works well for waste with sharp or jagged edges.

8105-00-NIB-1081

General Purpose – High Density

8105-00-NIB-1081	17" x 18", light duty, 4 gallon capacity, 2000 per case

8105-00-NIB-1112

8105-00-NIB-1117

Heavy-Duty Plastic Bags

Heavy-duty, premium quality bags feature puncture and tear resistance, are useful where extra strength is needed and are intended for most office and average outdoor trash use. These bags will handle dry and wet loads up to 75 lbs and contain 125 bags per box.

8105-01-150-6256	Clear, 34 gallon, 32" x 44", heavy duty, 34 gallon, 125 bags
8105-01-183-9769	Dark Brown, 33 gallon, 33" x 39", heavy duty, 33 gallon, 125 bags

8105-01-150-6256

Medium-Duty Plastic Bags

Medium-duty, premium quality clear bags are moderately resistant to punctures and tears and can handle a mix of wet and dry loads. Twist ties not included.

8105-01-195-8730	10 gallon capacity holds up to 15 lbs, 24" x 23", 250 bags per box
8105-01-183-9768	33 gallon capacity holds up to 50 lbs, 33" x 39", 125 bags per box

8105-01-183-9768

Light-Duty Plastic Bags

Light-duty, clear bag features a large 36" x 38" capacity at a less expensive price than the premium quality bag. This 37 gallon bag holds up to 25 lbs. There are 100 bags per box; no twist ties included.

8105-00-579-8451

Bag It Up With JWOD!

Isolation Bags

Color coded, printed bags for infectious waste, infectious linen and non-contagious linen management. Printed stock isolation bags are imprinted with English and Spanish and universal biohazard symbol to help ensure complete understanding for safety and proper use. These linear, low-density bags have multi-layered star seals. Ideal for hospitals, doctor's offices, dental clinics and nursing homes.

Red Infectious Waste Collection Bags

8105-00-NIB-1118	24" x 24", medium duty, 10 gallon capacity, 250 per case, 1.0 mil thick
8105-00-NIB-1119	33" x 40", heavy duty, 33 gallon capacity, 100 per case, 1.2 mil thick
8105-00-NIB-1120	30-1/2" x 43", heavy duty, rack bag, 100 per case, 1.2 mil thick
8105-00-NIB-1121	40" x 47", heavy duty, 40-45 gallon capacity, 100 per case, 1.2 mil thick
8105-00-NIB-1122	30-1/2" x 43", extra heavy duty, rack bag, 50 per case, 3.0 mil thick
8105-00-NIB-1123	37" x 50", extra heavy duty, 50-55 gallon capacity, 25 per case, 3.0 mil thick

8105-00-NIB-1118

Yellow Infectious Linen Collection Bags

8105-00-NIB-1124	30-1/2" x 43", heavy duty, rack bag, 100 per case, 1.2 mil thick

M A R K E T I P S

Who says good engineering help is hard to find?

The same GSA you use to procure office products is also a fast, easy way to hire mechanical, chemical or electrical engineering professionals. So, whether you need assistance designing satellite components, reengineering a ship or reconfiguring a design, our contractors can help. To learn more about GSA's Professional Engineering Services Schedule, email us at fss.services@gsa.gov, or for a list of actual contractors visit fss.gsa.gov/eng.

Smarter Solutions

The Ultimate Source For Engineering Expertise

Does your agency need assistance to complete a mechanical, electrical, chemical, civil, nuclear, or aerospace (and most other types of) engineering projects? Do you want your engineering task performed by a qualified firm quickly and efficiently? Does your agency want to conduct this type of procurement with the greatest ease possible? If you answered "yes" to these three questions then the GSA's Professional Engineering Services schedule, Schedule 871, is your solution!

We have awarded contracts to various types and sizes of engineering firms that can help your agency accomplish its goals. We have taken all of the guesswork out of finding a qualified contractor because all contractors on schedule have demonstrated the highest professional standards in the industry and are already pre-approved to do business with you! Therefore, your agency's procurement lead times have been greatly reduced! Each engineering phase of your project can be broken down into different Special Item Numbers or SINs. Just take a look at the types of services our contractors can provide for you:

Strategic Planning for Technology Projects/Activities

Contractors demonstrate the expertise necessary to define and interpret high-level organizational engineering performance requirements such as projects, systems, missions, objectives, and the best methods for achieving them. Typical tasks include: formulating the mission, defining program goals and objectives, analyzing requirements, assessing organizational performance, and conducting special studies and analysis.

SIN 871-1

Concept Development and Requirements Analysis

Contractors skilled in this area will conduct abstract or conceptual studies and analysis, define requirements, make preliminary plans, and evaluate alternative technical approaches. Typical tasks include: additional analysis requirements, cost/cost performance trade-off analysis, feasibility analysis, regulatory compliance support, and technological conceptual designs.

SIN 871-2

System Design, Engineering and Integration

Contractors translate the project concept into a preliminary and detailed design, perform risk identification/analysis/mitigation, and integrate the various components into a working prototype. Typical tasks include computer aided design, design studies and analysis, detailed specification preparation, configuration management and document control, fabrication, assembly and simulation, and modeling.

SIN 871-3

Test and Evaluation

Contractors apply various techniques for demonstrating that a prototype performs in accordance with the objectives outlined in the original design. Typical tasks include testing of prototypes and first article testing, independent verification and validation, simulation and modeling, system safety, quality assurance, and physical testing of the product.

SIN 871-4

The Ultimate Source For Engineering Expertise

Integrated Logistics Support

Professionals analyze, plan and design all engineering-specific logistics support including material goods, personnel and operational maintenance and repair of systems throughout their life cycles. Typical tasks include ergonomic/human performance analysis, feasibility analysis, logistics planning, requirements determination, policy standards/procedures development, and long-term reliability and maintainability.

SIN 871-5

Acquisition and Life Cycle Management

Contractors must perform planning, budgetary, contract and program management execution functions required to produce, render operational, and provide life cycle support to technology-based systems. Typical tasks include: manufacturing the final product, operating and maintaining the product, overseeing program/project management, and conducting technology transfer/insertion.

SIN 871-6

IMPORTANT NOTE!

A recent decision was made regarding the area of construction management. Construction management type tasks can be performed under all of the Special Item Numbers of the Professional Engineering Services Schedule if, and only if, it is considered as a commercial item.

By utilizing this schedule, your agency can hire a competent contractor capable of performing complex engineering tasks, from concept to completion. No longer must you rely on cumbersome procurement vehicles. Simply turn to GSA's Professional Engineering Services Schedule to obtain the kind of expertise you need with speed and ease! To find out more about this valuable schedule, please visit our website at

www.fss.gsa.gov/services/engineering

Everything You Seek in a LIMS

Future-proof
 Flexible
 Rapid ROI
 Track Record
 Integration
 Fast Implementation

StarLIMS™ Delivers!

Selecting a logical LIMS is a complex process requiring careful planning and commitment. Our unique Multiple-Tier architecture, coupled with fourteen years of operational experience, has made StarLIMS the solution of choice for many professional LIMS selection committees.

StarLIMS' proven performance is demonstrated by an installed base that includes more than 5,000 users in government, municipal and private laboratories, as well as Fortune 500 corporations in the petrochemical, chemical, pharmaceutical, cosmetics and food industries. All employ the same StarLIMS core software, configured to meet any specific business requirements.

A global network of dedicated specialists delivers StarLIMS' state of the art quality solutions directly to you. StarLIMS represents a combination of accumulated know-how and ongoing technological innovation, together with an open, flexible and configurable design. Selecting StarLIMS secures your investment now and into the future –StarLIMS Delivers!

GP Professional Engineering Experienced People, Proven Government Service.

For almost 40 years, the U.S. Government has turned to GP for superior, cost effective, professional engineering services. Our IDC contract supports all project phases including:

- Strategic Planning for Technology Programs/Activities
- Concept Development and Requirements Analysis
- System Design, Engineering and Integration
- Test and Evaluation
- Integrated Logistics Support
- Acquisition and Life Cycle Management

Many customers including DOD, EPA, DOJ, HHS, SSA, and the U.S. Postal Service also take advantage of our other Government services through our Environmental Services and Information Technology Professional Services contracts.

Reclaim Your Desk. Get Organized With Binders and Folders From GSA

Take a look at your desk. Are you having trouble keeping your documents together? Are there piles of take-out menus, completed and uncompleted paperwork, and items cluttering your work area? Is your current filing system little more than documents in what you once called piles on your desk? And you don't even know why you have some of them? If so, you could definitely use some organization. GSA can help free up your work area and cut the time you spend looking for papers with binders and file folders. Binders and folders are an excellent way to clear workspace, keep papers in the best order, and use less paper. This will save you time, help the environment, and make your boss' unexpected visits for long forgotten documents far less painful. Binders and folders are also excellent for distributing presentation notes to your audience.

The average worker spends 50% to 80% of his time looking for information.

60% of a worker's time is spent working with documents.

The average cost to recreate a lost document is \$180.

Source of data: www.relativityinc.com/statistics.htm

Binders

We have binders available in a variety of styles including pocket and three-ring. Colors offered by GSA include gray, blue, red, white, and black. All binders listed contain paperboard and/or 25% recovered material plastic. Binders shown are compliant with the Comprehensive Procurement Guidelines (CPG) and EPA recommendations.

Pay special attention to the Recycled Item and CPG-compliant logos when making purchases as these products have a positive effect on the environment. Studies have shown using products with 30% post-consumer recycled content will produce 13% less solid waste requiring disposal (www.cityofgainesville.org/hosted/pubworks/sw_impact.cfm). This means fewer landfills and more open space for your enjoyment.

Envelopes

Today, 42% of all paper used in the U.S. is recycled. (www.epa.gov/epaoswer/non-hw/muncpl/recycle.htm) Envelopes available from GSA using 30% post-consumer material reduce the negative impact of paper on the environment and are compliant with the Comprehensive Procurement Guidelines (CPG) and EPA recommendations. Sizes available range from 3-7/8" x 8-7/8" to 15" x 18" and preprinted messages are available.

**Additional envelopes are available under GSA schedule that contain post-consumer material and are process chlorine free.*

Contract GS-10F-0167M

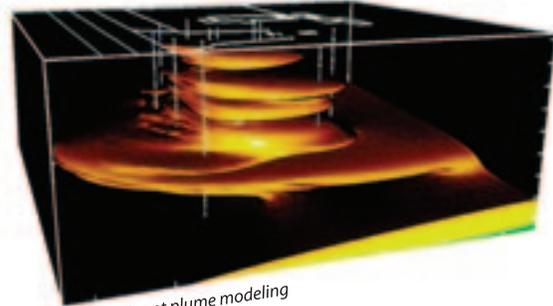

Conducting removal action at DOE site

WEISS ASSOCIATES PROVIDES:

- **Technical expertise and practical wisdom.** Some of the most talented and experienced professionals in the industry work at Weiss.
- **Cost efficiency.** While others aspire to cut costs, we really do it. The drive toward cost efficiency shapes every technical and management decision.
- **Personalized project approach.** We listen carefully to our clients, tailoring our services to meet their objectives.
- **Client retention.** Ninety-nine percent of our clients come back. We've served the DOE, DOD, USACE, NASA, Lawrence Livermore National Laboratory, and many others.

WEISS ASSOCIATES DEPLOYS:

- Effective environmental solutions
- Sophisticated 3-D modeling
- Expert radioactive waste management and remediation strategies
- Innovative technologies
- Secure internet-based project web sites

Copier And Computer Paper

Did you know that up to 90% of all office waste by weight is paper according to the Environmental Protection Agency (EPA), and 77% of all solid waste in a commercial building can be recycled? (www.cafr.org/office/office_guide.htm) What can you do to reduce your office's waste, help the environment, and cut costs? You can purchase copier and computer paper using 30% post-consumer material, like the NSNs listed below, which are in compliance with the EPA's Comprehensive Procurement Guideline.

To help you, GSA has copier paper using 30% post-consumer material in sizes ranging from 8-1/2" x 11" to 11" x 17". The paper has a uniform thickness for consistently clean copies that will not jam in your copier or printer and is available watermarked, with holes punched, and in colors including white, blue, yellow, and green. Computer paper is available in sizes ranging from 9-1/2" x 11" to 14-7/8" x 11" and with or without carbon interleaved between sheets. Order today as copier and computer paper are in constant use at your office and must be kept in inventory.

Stay In Ship Shape With Epoxy Ship Paints

Epoxy Ship Paint

Epoxy-polyamide finish coat protects bilges, tanks, exterior underwater hulls and other components of a ship. The hard, durable and chemically resistant coating is appropriate for sandblasted steel, aluminum or fiberglass surfaces. Resistant to water immersion and solvents. Nonporous. Dries to a semi-gloss finish. Apply by spray or brush. Kit consists of equal quantities of components A and B. MIL-DTL-24441.

Type III-Three coat system. Maximum VOC 340 g/L; 2.8 lbs/gal.
Sold as 2 gallon kits part A: 1 gal.; Part B: 1 gal.

8010-01-350-4741	Haze Gray 26270	\$59.76 (Kit)

Single-Component CARC Polyurethane Coatings

What is CARC?

CARC stands for Chemical Agent Resistant Coating. These paints and coatings are intended to withstand the harsh chemicals that are used to wash down military equipment that has been exposed to a chemical warfare agent, such as nerve gas. The coatings must withstand the corrosive nature of the decontaminating chemicals (predominantly solvents).

A CARC coating is usually an epoxy or polyurethane that is so resistant to decontaminating chemicals that if military equipment were to come into contact with a chemical warfare agent, the troops could take the equipment out of the battle field and wash it down with the strong solvents to remove the chemical agent.

These Coatings help the environment because they are:

- ☼ CFC-Free (chlorofluorocarbon)
- ☼ Lead-Free According to ASTM/EPA Test Methods
- ☼ Chromate-Free According to ASTM/EPA Test Methods
- ☼ Low-VOC Item (volatile organic compounds)

Use these single-component, chemical agent resistant, polyurethane coatings (CARC) as finishing coats on military combat equipment. Easily decontaminated after exposure to liquid chemical agents, coatings are also resistant to water, weather, hydrocarbons and acids. Dries to the touch in 30 minutes and dries hard to a flat finish in three hours. Apply over epoxy primers by spray or brush. Maximum VOC 420 g/L. Conforms to MIL-C-53039.

LOTS OF VALUE

Push Our Buttons...

From towels, mattresses, draperies, and bedspreads, to gloves, dormitory furniture, and linens, UNICOR gives you one stop shopping for a wide variety of products and services. We can provide installation and other services if required.

But we don't stop there with lots of choices...we give you lots of value as well. We stand behind every product with our "escape-proof policy." Order these and hundreds of other products online at www.unicor.gov or call our Customer Service Center at 800-827-3158. Either way, use your credit card to expedite your order.

Think Spring: Lawn & Garden

Garden Hose

Commercial-grade, rubber/vinyl-reinforced 5/8" diameter garden hose. Kink-resistant hose includes brass couplings, a protective collar at faucet end, and an abrasion-resistant gray cover. Burst strength is 500 psi with a minimum four-ply construction.

4720-01-447-8759 50 feet \$18.40

4720-01-447-8757 100 feet \$29.34

These hoses use 65% Postconsumer Material.

Lawn Sprinkler

The sprinkler is furnished with a removable, metal impulse head. The head is adjustable to spray water in a full or partial circular pattern. The head is equipped with an adjustable break-up, spring-loaded device to regulate the radius of coverage. The base is made of corrosion-resistant metal or plastic of equal strength. 90 square feet coverage.

3750-00-679-0753 \$12.25 (EA)

Hedge Clippers

Trim hedges and small shrubbery with these hardwood-handled clippers. Serrated blades are ground, sharpened and notched near the pivot points for cutting heavy canes and branches with ease. 8" long cutting edge. 9" long handles.

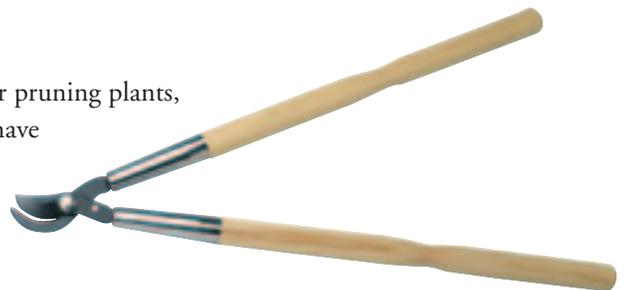

3750-00-951-1585 \$16.79 (EA)

Pruning Shears

Heavy-duty lopping shears have a convex blade and a concave hook. Used for pruning plants, bushes and tree limbs up to 1-1/2" in diameter. For two-handed use, shears have hardwood handles and a safety stop to protect operator. Length: 27".

3750-00-641-1197 \$18.53 (EA)

Think Spring: Lawn & Garden

Garden Rake

A must-have tool for effective gardening! Rake head features all-steel construction with a securely attached 60"-long hardwood handle. Contains 14 to 16 curved teeth. Level head measures 2-3/4" deep.

3750-00-171-7182 Width 13-1/2" \$13.58 (EA)
3750-00-243-2408 Width 14-1/2" \$16.48 (EA)

Lawn Rake

Steel rake with radial head. The rake has 18 flat spring-action steel tines, 13 inches long, and is designed with a steel spreader bar to keep the tines separated. The handle is 48 inches long.

3750-00-086-7690 \$7.13 (EA)

Wheelbarrow

Pneumatic-tired wheelbarrow has a steel tray and legs. Contractor 6 cu. ft. design has wooden handles.

3920-00-329-4303 \$110.05

Helpful Tools from GSA!

Quick Grip Spring Clamp

Constructed of high-tech resin material, is lightweight and rust resistant. The clamp features soft durable pads to protect fine finishes. 3" Maximum jaw opening.

5120-01-431-7284 \$5.68 (EA)

Quick Grip Clamping Tool And Spreader

Bar clamp features one-hand operation and converts into a spreader quickly and easily. The quick-change, multi-position jaw can be positioned anywhere on the bar making even the most challenging clamping or spreading task a snap. Features a 50" clamping capacity and spreading range from 7-1/2" to 58-5/8".

5120-01-490-6490 \$31.46 (EA)

Nifty-Nabber Pick-Up Tool

Ideal for grabbing items high and low. This tool's powerful claws grip small and odd-shaped objects. Features aluminum construction with rubber coated steel claws. For indoor and outdoor use.

5120-01-490-6488 \$28.00 (EA)

Bucket Boss Tool Organizer

Constructed of a durable rip-proof fabric. Organizer has 38 exterior pockets and 18 more on the inside. Features a fully padded cordless drill holster, security pocket with flapped closure, and an elastic strap for long handled tools. Fits in and over a 5 gallon bucket (not included).

5140-01-490-7248 \$26.60 (EA)

Helpful Tools from GSA!

Heavy-Duty Ballistic Nylon Tool Bag

Nylon is lightweight, abrasion resistant and moisture resistant. Features a sturdy handle, protective rails, and interior and exterior storage pockets. Double stitched for increased durability. 11"w x 21"l x 11-1/2"h

5140-01-490-6470 \$125.40

Drill Holster

Generously designed of Anso-tex nylon to fit all regular and cordless drills. Features extra pockets to hold additional drill bits. Padded extension helps protect your leg. Stress points are riveted.

5140-01-490-6460 \$13.62 (EA)

Cell Phone Holster

Ballistic holster hooks on any belt and features a cushioned lining and cover flap with Velcro closure. Designed to accommodate phone antennas and to fit most cell phones and two-way radios. Length: 6"; Width: 3"; Depth: 1-1/2".

5140-01-490-6459 \$11.38 (EA)

Turn On The Heat With Water Heaters

Water heaters are available through GSA under the Direct Delivery Program.

Electric water heaters operate on 230/240v, 60-Hz power and have double heating units.

Gas water heater is for use with natural or liquid petroleum gas.

NSN	Shape	Capacity (GAL)	Power input	Price
4520-00-585-2989	Round	40	Regular	\$228.44
4520-00-033-4283	Round	40	Speedheater	\$237.60
4520-00-033-4284	Round	52	Speedheater	\$270.73
4520-00-727-7134	Tabletop	40	Regular	\$416.58
4520-00-033-4287	Tabletop	40	Speedheater	\$487.31
4520-00-585-2986	Round	40	Natural Gas	\$223.13

These water heaters meet DOE/FEMP energy efficiency recommendations.

Tips for saving energy with water heaters:

- Replace old water heaters with more efficient models.
- Turn down the temperature setting to 120 degrees F.

You'll save energy and avoid potential burns. Install additional insulation on water pipes to further reduce energy loss.

Custom Coursework

How you need it, when you need it.

Coursework. Today, in a downsized government with greater demands than ever before, your office needs it more than ever. But with fewer people in the workplace, it's harder than ever to find the time for it. Now, GSA can give you the flexibility you need for taking the courses your agency requires.

Because now you can get a course that's custom designed to fit your needs. (If you want, it can be right at your workstation.) Courses can be structured for any subject you want. And structured any way you want. For individuals or groups. Courses can be offered via Internet, intranet, CD-ROM, texts, and study guides. They can be presented as multimedia training or with live instructors in front of a traditional blackboard.

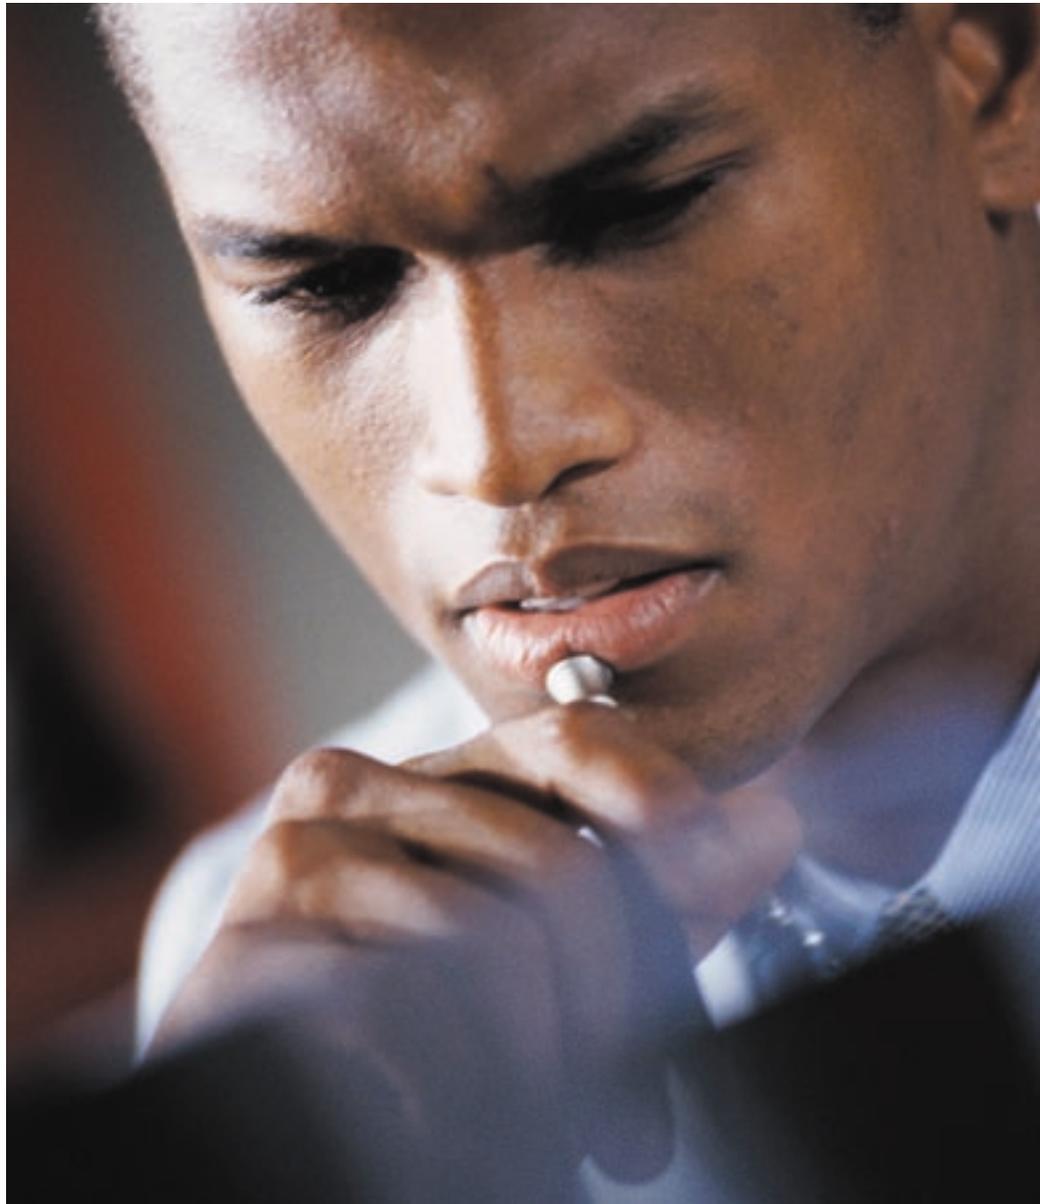

Courses can also include testing to measure baseline knowledge of the material, including a clear grasp of concepts, knowledge, and applicable terms. And with on-line or CD-ROM-based classes, students can work at their own pace, with training scheduled to suit *their* schedules. Training can include problem analysis, interactive and simulation-based workshops, case studies, and role playing.

And with custom curriculum development, you can obtain coursework on any topic or subject at any level. It's a way to broaden your knowledge, while acquiring the skills and qualifications you need in a demanding workplace.

It's So Easy To Be Green

When You Buy Office Supplies From Schedule 75 II A

If you're looking for office supplies that are environmentally friendly, look no further than schedule 75 II A, Office Products/Supplies and Services. All of our contractors must certify compliance with Executive Order 13101 and the Paper Products Recovered Materials Advisory Notice (Paper RMAN).

We have compressed air duster cans that are CFC-free so they will not harm the ozone layer and we have desk drawer organizers made with recycled material. We have rechargeable batteries that reduce the number of batteries going into landfills, and we have environmentally friendly, non-toxic correction pens and correction fluid. In addition, there are papers processed without chlorine available on GSA Schedule 75 II A.

To find office products that are environmentally friendly in *GSA Advantage!*[®], look for an icon in the lower left hand corner of the product field. A few of these symbols and their meanings are listed below.

The trees are for products that have environmentally friendly qualities.

Products that contain recycled content show this symbol by their listing. These items meet U.S. Environmental Protection Agency EO 13101 standards.

GreenSeal Seal of Approval is for products that meet or exceed voluntary environmental standards set by GreenSeal.

CPG is for items that are Comprehensive Procurement Guideline Compliant. These products have been certified to meet or exceed the EPA Recovered Material Advisory Notice (RMAN) standard for recovered materials as specified in the Resource Conservation and Recovery Act Section 6002 Comprehensive Procurement Guideline.
