SERVICES FROM GSA— YOUR FEDERAL RESOURCE

In addition to the commercially available services through GSA Schedule vendors, GSA's Heartland Finance Center offers turnkey financial, accounting and administrative services solutions directly to Federal Agencies. A wide range of services is available in varying degrees including comprehensive service packages or customized solutions to meet agencies' specific requirements. GSA's Heartland Finance Center currently provides services to dozens of agencies including:

Office of Personnel Management

National Archives and Records Administration

District of Columbia Courts

National Credit Union Administration

Export-Import Bank of the U.S.

Public Defenders Service for the District of Columbia

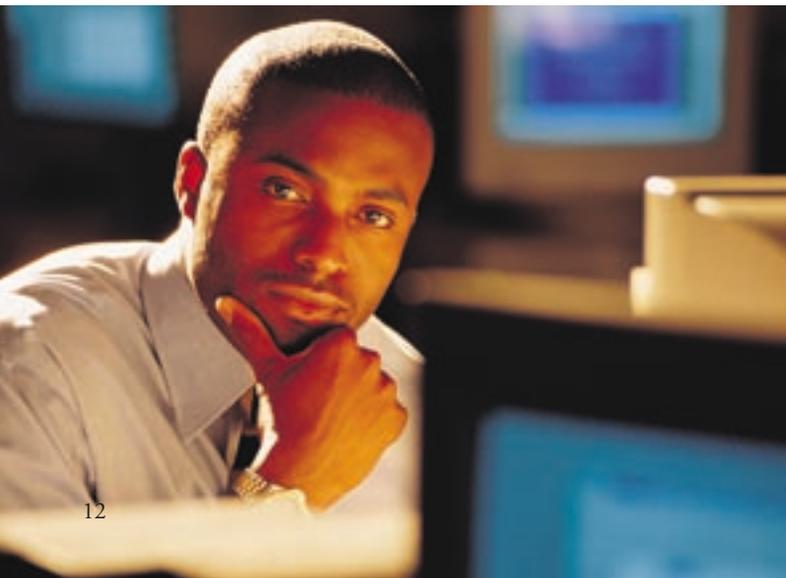

U.S. Holocaust Memorial Museum

Federal Retirement Thrift Investment Board

Accounting

A full range of accounting services is available including standard general ledger reconciliations, payment processing, systems analysis, and regulatory and managerial reporting. Some specific services available include:

- Accounts payable
- Accounts receivable
- Travel payments
- Travel relocation audits and payments
- Collection of debts
- Delinquencies and surcharge fees
- Automated or manual billing processes
- Preparation of daily cash deposits
- Comprehensive reporting services
- Financial analysis
- Training
- Internal control issue reviews
- Customer service visits

GSA National Payroll Center

The National Payroll Center (NPC) provides a number of administrative tools for client agencies and employees. The NPC has been a cross-service provider of payroll services for over 30 years. It provides a full range of payroll services for 25,000 employees, which includes GSA and more than 30 independent agencies or presidential commissions.

Recently, GSA was selected as one of four payroll providers for President Bush's e-government initiative. Currently, 22 Federal agencies provide payroll services for almost two million Federal workers. The initiative consolidates these services into four agencies. GSA has a strong reputation for providing quality customer service, leading edge products and services, and having the most technologically advanced payroll system in the Federal marketplace.

The NPC has experience in serving agencies with quasi-government employees and has the ability to handle unique

payroll conditions based on client-agency charters. It has been recognized as a leader in using innovative systems that efficiently implement legislatively directed employee benefit programs.

NPC payroll services include processing all transactions affecting an employee's entire service life—from initial hire through final payment at separation and submission of retirement records to OPM. The NPC is dedicated to the accurate and timely payment of salaries to our customers' employees. Individualized customer service characterizes the NPC commitment to providing customers quick, accurate, and real-time information regarding their pay accounts. Employees can even choose to view their Electronic Pay and Leave Statement online.

For more information on these and other GSA provided services, contact the External Services Division at (816) 926-5203, or the National Payroll Center at (800) 676-3690.

Real Results – Real Value

As a GSA Schedule Contract Holder, Van Ru Credit Corporation is pleased to offer our debt collection expertise to federal agencies.
