

Count on GSA's Transportation Services for Easier Shipping

Moving anything, anywhere, at anytime!

Whether you're shipping heavy equipment, relocating an employee or moving an entire office, GSA makes it easy to manage your transportation activities. We offer a myriad of services to meet all your needs and provide valuable tools that will reduce complexities of purchasing transportation services – saving you valuable time and money, while making your job easier. Our end-to-end transportation solutions are designed with one goal in mind – to put you in total control of your mission's success. When your mission has you on the move, turn to GSA. We help you go the distance.

Two Valuable Choices in Transportation Service

GSA provides two options to meet the unique transportation needs of our government customers via Transportation Tenders: our Freight Management Program and GSA Multiple Award Schedule 48 - Transportation, Delivery and Relocation Services.

Moving Smart with GSA's Freight Management Program

Recently, GSA became the first SmartWaySM Transport Partner within the federal civilian government. Through their efforts to provide green logistics support, GSA can partner with you to "green" your transportation supply chain.

The authorization under the Transportation Act of 1940 – for the procurement of transportation services – allows GSA's Freight Management Program (FMP) to provide a uniform basis for buying transportation services through standard applications, rules, accessorial services and equipment.

The FMP Standard Tender of Service (STOS) associated with this authority allows you to buy freight with confidence. That's because our more than 1,700 pre-approved Transportation Service Providers (TSP) operate under a consistent set of high standards designed to protect the government shipper and provide outstanding service to you. Plus, the majority of our TSPs are SmartWaySM certified providers – helping you maintain "green" logistics. When it comes to meeting your needs and reducing costs, GSA's FMP truly delivers. You can count on great savings with costs at approximately 34 percent lower than the average expense of commercial pricing on the same shipments. Have unique shipping requirements? Not an issue; GSA has general and customized shipping solutions that offer aggregating buying power of the government or specialized TSP rates for your program. Whether it is an office relocation, temperature-controlled move, or non-regular hour delivery we can do it! Allow one of our associates to consult with your agency to meet your unique needs and reach the highest level of service, at the absolute best price.

Transportation Management System

Our automated system, Transportation Management Services Solution (TMSS), allows you to quickly and easily procure transportation services — in just minutes! TMSS will simplify your transportation services acquisitions by eliminating the manual process while reducing your paperwork and time-consuming phone

Smarter Solutions

calls. With access to TMSS, you'll save both time and money using our efficient technology to ship locally or nationally, via Less-than Truckload (LTL) or Truckload (TL) specifications.

More About GSA's Transportation Third Party Payment Service Powered by Citi

GSA's Freight Management Program is providing a streamlined settlement process to further assist agencies managing their shipping needs, which can be integrated into GSA's TMSS or your own agency's specific transportation system.

Our Third Party Payment service offers an automated process for pre-payment audit, consolidated billing, and a streamlined settlement process. Enjoy reduced paper transactions and prompt payment while utilizing robust management tools to stay on top of all of your shipping.

Best of all, this service is FREE to our federal customers as part of our complete transportation services solution package.

Fast and Easy Acquisitions with Multiple Award Schedule 48 - Transportation, Delivery and Relocation Services (TDRS)

The business of government moves forward every day. If your mission depends on getting what you need from point A to point B in an efficient, effective manner, GSA has the solution. Contract your transportation service needs directly through your own procurement staff, using GSA's Multiple Award Schedule (MAS) 48—Transportation, Delivery and Relocation Services. This highly-efficient acquisition vehicle

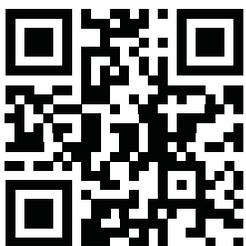

offers fast and easy access to a continuum of solutions, all designed to simplify and streamline your transportation experience. They include: Consulting Services, Corporate Housing Lodging Services, Domestic Delivery Services, Local Courier Delivery Services, Ground Passenger Transportation, Employee Relocation Services, Office Relocation, and Rental Supplemental Vehicles Program. What makes the process so successful is that agency procurement professionals simply place transportation orders directly with their choice of pre-qualified, high-quality TDRS vendors, and their Schedule acquisitions are all in accordance with the Federal Acquisition Regulation. Plus, the costs associated with every service offered under the GSA MAS Program are pre-negotiated with discounted "ceiling" pricing, giving you the best pricing possible and enabling you to even further negotiate pricing to meet your unique requirements.

Safeguarding Your Moves With Transportation Audit Programs

The federal government relies on GSA to recover millions of dollars in transportation overcharges and other debts relating to transportation bills paid each year by the federal government. We provide federal agencies with transportation audit services and related policy guidance. Our pre- and post-payment audit experts can determine whether charges assessed for freight and passenger transportation are valid.
