Flexible and Scalable Procurement

Government agencies are located worldwide, and they range in size, function and buying preferences. Our goal is to help your agency identify the best acquisition tools for your needs.

Direct Access to Pre-Approved Contractors Online

The GSA MAS Multiple Award Schedules program establishes contracts with responsible contractors and negotiates ceiling rates for labor categories. The contracts are ready for federal government orders, saving time and effort over open market procurements. GSA's online tool, eLibrary, is a comprehensive information resource for GSA Multiple Award Schedules. The eLibrary allows users to search contracts by contractor name, contract number, Special Item Number (SIN), MAS number, and keywords. To learn more, visit www.gsaelibrary.gsa.gov.

Complete Solution

When your requirements cross multiple disciplines or combine services and products, the strength and diversity of the GSA MAS contractor community can rise to the challenge. Many contractors can provide total solutions for complex requirements across numerous schedules. Contractor Team Arrangements (CTAs) allow MAS contractors to create their own partnerships and to provide comprehensive solutions beyond the scope of their individual contracts. And just recently approved, a deviation to the FAR (FAR Part 51.1) now expands the authority of contractors to use GSA sources of supply, including GSA MAS contracts, GSA Global Supply and VA Schedule contracts.
