

## Rely On FedRooms® for the Greatest Savings & Benefits on Your Hotel Stays

### FedRooms is Your Hotel Program!

The federal government (including the Department of Defense) spends more than \$2 billion on hotels every year. The solution for federal government hotel needs is FedRooms — the official governmentwide, government-sponsored lodging program. FedRooms rates are negotiated specifically for government travelers (federal and military). In fact, FedRooms leverages overall buying power to negotiate the very best hotel rates — in markets where government travelers need to stay. Best of all, the program is available for all federal and military employees.

### FedRooms is Even Better Than a Government Rate!

The FedRooms rate and the “government” rate are not one and the same. “Government” rates are unmanaged, and are determined by each hotel. As a result, 15 percent of “government” rates are actually over per diem.

With FedRooms just the opposite is true. To be accepted into and participate in the FedRooms program, hotels MUST agree to the program terms and conditions, and FedRooms will assist in holding hotels accountable.

In addition to typical travel by individuals, the program is also available for agencies conducting research in anticipation of planning government groups and meetings in FedRooms hotels.

The FedRooms rate can even be used by government contractors and state employees, when on official travel.\*
