

One Country, One Mission, One Source.

Technology Solutions for Your Mission Requirements: Alliant

Supporting Your Mission with Governmentwide Acquisition Contracts

Introduction to the Alliant GWAC

GSA's Alliant is a multiple award, indefinite-delivery, indefinite-quantity (IDIQ) Governmentwide Acquisition Contract (GWAC) offering comprehensive and flexible, IT solutions worldwide. All awardees have top secret facility clearances and can provide best value Information Technology (IT) solutions to federal agencies globally, while strengthening opportunities in federal contracting for small businesses.

The scope of Alliant encompasses all components of an integrated IT solution, including new technologies that may emerge during the life cycle of the contract. This GWAC provides IT solutions through performance of a broad range of services which may include the integration of various technologies critical to the services being acquired.

See the back of this publication for the Features and Benefits of using the Alliant GWAC.

Ordering

Prior to issuing orders under Alliant, federal contracting officers (COs) must receive training on the use of the Alliant contract and be granted a written delegation of procurement authority from the GWAC program office. Training is offered at no cost via:

- Onsite training conferences and events;
- Conference calls;
- Web or video conference;
- A self-paced, online course at the GSA Center for Acquisition Excellence (available at www.gsa.gov/cae).

For More Information

For more information about how the Alliant GWAC can provide your agency with state-of-the-art IT solutions, contact the Enterprise GWAC Centers at (877) 534-2208, email alliant@gsa.gov, or visit www.gsa.gov/alliant.

Features	Benefits
<ul style="list-style-type: none"> • A \$50B dollar program ceiling and a five-year base period with one, five-year option 	<ul style="list-style-type: none"> • Allows for long-term planning of large-scale program requirements
<ul style="list-style-type: none"> • Scope aligned with Federal Enterprise Architecture (FEA) and Department of Defense Enterprise Architecture (DODEA) 	<ul style="list-style-type: none"> • Conforms to Office of Management and Budget (OMB) policy mandates for IT investments and evolves over time as technology expands
<ul style="list-style-type: none"> • All contract types, e.g., fixed-price, cost-reimbursement, labor-hour and time-and-materials 	<ul style="list-style-type: none"> • Offers flexibility of contract types for optimal risk mitigation
<ul style="list-style-type: none"> • Ancillary support permitted when it is integral to and necessary to the IT effort 	<ul style="list-style-type: none"> • Facilitates integrated IT solutions
<ul style="list-style-type: none"> • Access to exceptionally qualified industry partners 	<ul style="list-style-type: none"> • Enables innovative solutions at competitive prices from experienced providers
<ul style="list-style-type: none"> • Aggressive subcontracting goals-50% of subcontracted dollars 	<ul style="list-style-type: none"> • Provides subcontracting opportunities for small businesses
<ul style="list-style-type: none"> • Pre-competes, easy-to-use contract with streamlined ordering procedures based on FAR 16.505 	<ul style="list-style-type: none"> • Saves time and money by reducing procurement lead time
<ul style="list-style-type: none"> • Complimentary scope-compatibility reviews 	<ul style="list-style-type: none"> • Promotes contract compliance and reduces risk of adverse audits
<ul style="list-style-type: none"> • Compliance with Section 863 of National Defense Authorization Act (NDAA) 2009 	<ul style="list-style-type: none"> • Supports price competition/"best value" through the FAR 16.505 Fair Opportunity process
<ul style="list-style-type: none"> • No protests on orders \$10 million and under, except on the grounds that the order increases the scope, period, or maximum value of the GWAC 	<ul style="list-style-type: none"> • Minimizes protest risk and supports timely order award for optimal mission support

GSA eTools

The Center for Acquisition Excellence is available free of charge 24 hours a day, seven days a week to provide customer agencies and contractors with online training, including GSA GWAC information. www.gsa.gov/cae

eBuy is an online Request for Quotation (RFQ), Request for Information (RFI) and Request for Proposal (RFP) tool designed to facilitate a wide range of commercial supplies and services offered by GSA Schedule and Governmentwide Acquisition Contract (GWAC) contractors. www.gsa.gov/ebuy

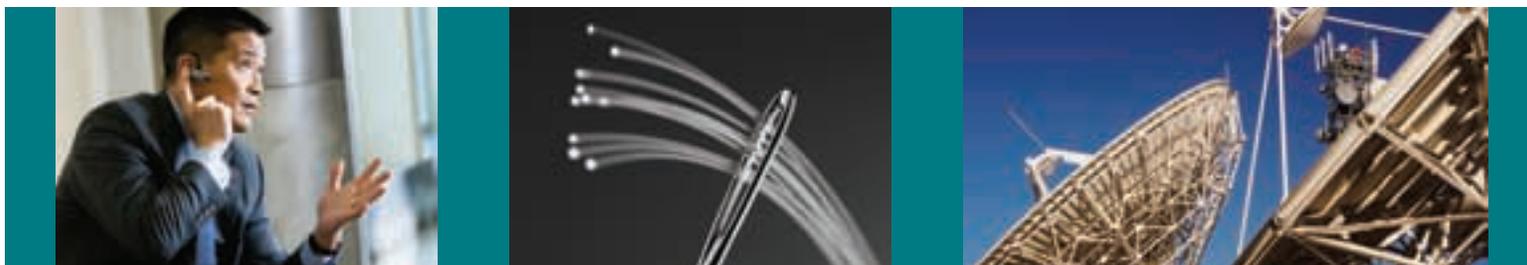

eLibrary is the online source for the latest contract award information for GSA Schedules; Department of Veterans Affairs (VA) Schedules; and Technology Contracts, including Governmentwide Acquisition Contracts (GWACs), Network Services and Telecommunications Contracts, and Information Technology (IT) Schedule 70. www.gsa.gov/elibrary

IT Solutions Shop (ITSS) provides an automated, convenient, and secure means for federal agencies to order and accept services and commodities from vendor partners - facilitating billions of dollars worth of transactions. itss.gsa.gov

One-Stop Solutions for Telecommunications: Network Services Programs

A Wealth of Comprehensive Solutions

Network Services Programs

GSA's Office of Network Services develops and manages a variety of programs to help meet all your telecommunications needs. Furthermore, it delivers administrative and technical support for the provided services and solutions.

Network Services Programs accomplish these goals by:

- Effectively leveraging competition to offer the best available telecommunications services and solutions at the best overall prices in the marketplace; and
- Providing a customer-focused, highly responsive, fully integrated approach to helping federal agencies.

Objectives of the Network Services Programs:

- To fully integrate local-area network (LAN) and wide-area network (WAN) services;
- To increase volume, in order to decrease the cost to each agency;
- To manage and refresh contracts and systems;
- To facilitate and support the Networkx transition;
- To manage the implementation of Internet protocol (IP) broadband services; and
- To support governmentwide initiatives.

For More Information

For questions and assistance, contact the Office of Network Services Programs by e-mail at fasnetworkservice@gsa.gov, or through your designated Technology Service Manager (TSM). To locate your TSM, see the "TSM Agency Listing" at www.gsa.gov/gam. For more information, visit www.gsa.gov/networkservicesprograms.

Contracts Available from GSA's Network Services Programs

Network Services Programs currently offer the following technology contracts:

Networkx

The Networkx program provides you with comprehensive, best-value telecommunications, allowing for new technologies, industry partners and ways to achieve a more efficient and effective government. Networkx enables you to focus your resources on building seamless, secure operating environments while ensuring access to the best technologies the industry has to offer. Networkx provides two broadly scoped acquisitions with comprehensive service suites of telecommunication/IT services (which replace expiring FTS2001/Crossover contracts):

- Networkx Universal was awarded March 29, 2007 to: AT&T; MCI Communications Services, Inc. (d.b.a. Verizon Business); and Qwest Government Services, Inc.
- Networkx Enterprise was awarded May 31, 2007 to: AT&T; MCI Communications Services, Inc. (d.b.a. Verizon Business); Qwest Government Services, Inc.; Level 3 Communications, Inc.; and Sprint Nextel.

For more information, visit www.gsa.gov/networkx.

SATCOM-II

GSA's Satellite Services-II – commonly known as SATCOM-II – provides an expanded range of end-to-end satellite solutions and serves as the primary replacement vehicle for the Satellite Services contracts. SATCOM-II contracts are multiple award, indefinite delivery/indefinite quantity (IDIQ), fixed-price contracts.

Service Types

- Type I:** Transport Services
- Type II:** Applications Services
- Type III:** Design, Engineering, and Maintenance Services
- Type IV:** Professional Support Services
(Small Business only)

For more information, visit www.gsa.gov/satcomii.

CONNECTIONS

Satisfying telecommunications requirements can mean the difference between getting a task done efficiently and searching the procurement landscape to find the right solution. Just as its name implies, CONNECTIONS joins together the telecommunications equipment and supporting resources you need to accomplish your task. Furthermore, CONNECTIONS implements a solution based on your description of the requirement, providing you with a right-fit solution.

Whenever you use CONNECTIONS, you will experience convenient, one-stop shopping to help meet your needs related to telecommunications infrastructure, equipment acquisition, and support services, as well as customized solutions for building and campus environments.

For more information, visit www.gsa.gov/connections.

Federal Relay (FedRelay) Services

The acquisition experts at GSA offer FedRelay services to federal agencies to provide equivalent access to telecommunications services for employees who are deaf or hard-of-hearing, or have speech impairments. Using FedRelay, federal employees may conduct official duties – and all communication is strictly confidential, with no saved records of conversations.

For more information, visit www.gsa.gov/fedrelay.

Regional Telecommunications Services

In this world of rapidly evolving technology, it is vitally important for federal agencies to have telecommunications experts at GSA. That is why GSA's technical and acquisition experts offer Regional Telecommunications Services. Whether you require voice, data, wireless, satellite, wiring/cabling or video telecommunications products, we provide a vast array of services in every state and most major cities in the United States. Our telecommunications services are also available in Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa and the Northern Mariana Islands.

For more information about the telecommunications solutions available in your region, visit www.gsa.gov. Once on the Web site, select "GSA Regions" from the list under "About GSA" (located in the top right portion of the Web page). Once on the "GSA Regions" page, you will see a regional map of the United States. Simply click your location on the map, and you will be transported to the page specific to your region. Finally, click "Telecommunications" from the bulleted list to see all the solutions available in your region.

Telecommunications Expense Management (TEM) Services

GSA's TEM services can provide your agency with comprehensive solutions for streamlining the ordering and management of wireless devices and services, and, ultimately, for lowering the total cost of commercial wireless services. TEM enables the federal government to:

- Reduce monthly wireless bills (through optimized rate plans and lower effective per-minute prices);
- Pay proper amounts through more accurate billing;
- Pay only for what is used (through elimination of unused lines);
- Improve compliance to rate plans and related wireless spend-management policies;
- Improve asset management;
- Require the TEM vendor to manage conflict resolution and bill-related issues; and
- Rely on a single source for ordering wireless devices and services.

For more information visit www.gsa.gov/fssitem.

Augmenting Your Agency's Software-Buying Strategy: SmartBUY

Saves Money by Leveraging the Government's Buying Power

Introduction to SmartBUY

In today's federal workplace, agencies need a vast array of software to help accomplish their respective missions. And having computers, laptops and servers equipped with state-of-the-art software is essential to conducting business. That's where SmartBUY comes in. SmartBUY, a federal procurement vehicle, provides the licensed software federal agencies need – at considerable cost-savings to your agency, the federal government, and U.S. taxpayers. Also, SmartBUY does not dictate which software you purchase: Your agency maintains control over software selection, so there's no compromise – only savings.

SmartBUY offers you the opportunity to choose from an ever-expanding selection of Commercial off-the-shelf (COTS) software while reaping the benefits of the federal government's consolidated buying power. In addition to providing reduced prices and more favorable terms and conditions, the SmartBUY program assists you with achieving greater standardization, improved configuration management, and sound IT security. All this, and you are guaranteed compliance with Office of Management and Budget (OMB) Memorandum M-03-14, which directs federal agencies to use SmartBUY. (For more details about how SmartBUY can help your agency, see "How SmartBUY Works for You" located on the back of this publication.)

For More Information

For further information about SmartBUY, visit www.gsa.gov/smartbuy. Or, if you have questions, e-mail smartbuy@gsa.gov.

The Department of Defense – SmartBUY Partnership

The Department of Defense (DoD) Enterprise Software Initiative (ESI) teams with SmartBUY for several software agreements. The result: The two programs are changing the way government procures IT software and services. To learn more, visit www.esi.mil.

How SmartBUY Works for You

Whenever you use SmartBUY, it's a win-win situation. Your agency receives the software it needs at reduced prices, thanks to the federal government's purchasing power. SmartBUY also:

- Offers products and services through established Blanket Purchase Agreements (BPAs), making procurements easier and faster than using the open market;
- Frequently adds popular software to the offerings;
- Offers Data-at-rest security software to civilian, DoD, state and local agencies;
- Improves standardization of government-used software;
- Increases interoperability of federal systems;
- Eliminates the need for duplicative customer acquisition efforts, allowing agencies to focus on core missions;
- Establishes agreements with software publishers that possess a significant market share within the federal government; and
- Provides Commercial off-the-shelf (COTS) software and systems integration professional services, broken down by software market category.

Market Categories of SmartBUY

SmartBUY agreements are classified within 10 software market categories:

- Business Intelligence;
- Database Management;
- Enterprise Backup/Recovery;
- Enterprise Content Management;
- Enterprise Resource Planning;
- Geospatial Information Systems;
- Information Assurance;
- Network Management;
- Office Automation; and
- Open Source Software.

Personal Property Exchange/Sale Solutions and Other Programs at Your Disposal

GSA provides Best Value to meet BRAC needs.

Personal Property Exchange/Sale

Do you have property that you need at your new location but don't want to take with you? Turn to GSA's Personal Property Management and consider using Exchange/Sale of Personal Property as the solution!

Exchange/Sale authorization (41 CFR 102-39) allows agencies to exchange or sell non-excess, non-surplus personal property and apply the exchange allowance — or proceeds of sale in whole or in part payment — for the acquisition of comparable property. Specifically, the value amount of the old item is used to reduce the cost of the replacement item, either by exchange (trade-in) or sale, with the proceeds used to acquire the replacement item. Major advantages of Exchange/Sale include no pack/ship and cost-effective acquisition of new replacement equipment or items.

You can think of Exchange/Sale as similar to trading in your car for something new or different. While this program is commonly used for vehicles and heavy construction equipment, it can be used for other types of property too, such as office furnishings, galley equipment, etc. This is done often, with great success as is demonstrated with the DoD example below.

Before making an exchange or sale, you must first determine if exchange or sale will obtain the maximum return to the government, including administrative and overhead expenses. Please note that the exchange/sale process should not be used if the exchange allowance or estimated sales proceeds for the property will be unreasonably low.

If you have property to replace which is eligible for exchange/sale, you would first, to the maximum extent practicable, solicit federal agencies known to use or distribute such property. If a federal agency is interested in acquiring and paying for the property you should arrange for a reimbursable transfer. This screening can be accomplished through GSAXcess®.

DoD Scores with Exchange/Sale of Personal Property Program

GSA Auctions®, an approved federal assets sales center is poised to support your exchange/sales needs. Under the exchange/sale authorization, GSA's Federal Acquisition Service's Property Management Division sold, online via GSA Auctions®, an Eglin Air Force Base bowling alley for DoD. Nine bidders participated in the bidding and DoD was very pleased with the successful outcome: the great efficiency and speed in which GSA put DoD's sale up and, following award to the winning bidder, getting the property removed in time to meet DoD's deadline — and the net proceeds! The sale lot, consisting of AMF-brand pin spotter machines (10) and ball returns (5), 10 lanes, five sets of bumpers and five sets of AMF pit area seating — was sold for an acceptable award of \$24,014.00.

Additional Personal Property Disposal Programs

GSAXcess®

When your agency has personal property that is no longer needed, GSA's Personal Property Management can give new life to it by finding an alternate home where that excess property can be put to good use. GSAXcess® saves you time and effort by streamlining the disposal of the excess property, and saves the recipient from spending time and money in acquiring a similar item brand new. In fact, each year, hundreds of millions of taxpayer dollars are saved by managers who acquire excess property instead of purchasing new property. That is why government regulations mandate that federal agencies, to the fullest extent practicable, use excess personal property as the first source of supply in meeting agency requirements (Federal Management Regulation 102-36). To learn more or to obtain a User ID to submit excess personal property, go to www.gsaxcess.gov.

Your excess federal personal property can be disposed of in several ways throughout the GSAXcess® disposal process. It all begins with your agency declaring the property "excess" and reporting it to GSA, whose property management experts stand by to serve you. Once this happens, the property is posted online and other federal agencies can search a vast selection of available offerings and locate your property via www.gsaxcess.gov. This valuable website is GSA's online system for recording, tracking, and controlling the worldwide inventory of federal excess and surplus property.

Personal Property Donation

After a certain period of time, if it turns out that another federal agency does not need the excess personal property, GSA would then declare it as "surplus" and offer it as a surplus property donation through state agencies.

Organizations eligible to participate in the donation program include public agencies, non profit educational & health institutional, providers of services to elderly, homeless, and impoverished. For more information on personal property donation, visit www.gsa.gov/propertydonations.

GSA Auctions®

GSA provides sales services through GSA Auctions® (for electronic bidding). Surplus personal property includes all types and categories of property, with the exception of land or other real property, certain naval vessels, and records of the federal government. Examples of available property include hand and machine tools, office machines and supplies, furniture and appliances, medical supplies, hardware, clothing, motor vehicles, boats and airplanes, construction equipment, textiles, and communications and electronic equipment www.gsaauctions.gov.

Additional Programs

In addition to offering surplus property, each year the federal government also sells to the public billions of dollars of exchange/sale and forfeited personal property as well as real estate. All of the above methods of property disposal are administered in full FMR-compliance by GSA, and designed to serve its customers in the best fashion possible, and provide best value and savings to other agencies, the general public and taxpayers alike. The success of these programs is proven time and time again.

Contact Information

Please visit www.gsa.gov/property for general property solutions.

For questions about GSA's Personal Property Management's GSAXcess® or GSA Auctions® program, please contact us at (866) 333-7472 or gsaxcesshelp@gsa.gov. For additional information, please visit www.gsaxcess.gov.

For questions about GSAAuctions®, please contact us at gsaauctionshelp@gsa.gov. For additional information, please visit www.gsaauctions.gov.

GSA's Management, Professional, Office and Financial Solutions

Acquisition experts provide Best Value offerings to meet BRAC needs.

Language Services

While the demand for specialized language services is unique to agencies based on their mission, the need for proficient foreign language support is global and demand for such services are increasing. GSA's language solutions can provide linguists and an array of language support services to facilitate global communication. Services include the translation of written material, interpretation of oral communication, foreign language, and cultural training in hundreds of different languages and dialects worldwide.

Reference GSA MAS 738-II – Language Services to procure these services.

Human Resources and EEO Services

From recruiting new talent to government and providing hands-on training, to investigating complaints and taking disciplinary action, you'll find the support you need to deal with HR challenges of all kinds. We have recently added new services that include pre-employment screening and investigations and social services. We extend your reach and resources to effectively support staff and supervisors alike.

Reference GSA MAS 738 X – Human Resources and EEO Services to procure these services.

Temporary Administration and Professional Staffing

Need help right away? Proven temporary staff — ranging from secretaries to accounting clerks and attorneys — are available in as little as one day. Choose from various occupations such as administrative and clerical support, automatic data processing, general services and support, information and arts, technical and professional. This program is set-aside for small businesses only.

Reference GSA MAS 736 – Temporary Administrative and Professional Staffing (TAPS) to procure these services.

Training Services

How do you keep staff at the top of their game and ready to address the demands of your mission? Expert training solutions from GSA's cadre of experienced education and training contractors are the answer. Areas of training can range from computer technologies

and engineering to law enforcement, security and other areas of importance to your agency. Services include training aids and devices, prepared printed instructional materials, prepared audio and visual instructional materials, instructor-led training, core development and test administration, and contracting core curriculum.

Reference GSA MAS 69 – Training Aids and Devices; Instructor-led Training; Course Development; Test Administration to procure these services.

Financial and Business Solutions

How an agency allocates resources, manages assets, conducts audits and communicates performance is all part of the day-to-day reality of fiscal responsibility. To address demand for more financial information than ever before, turn to GSA and find expert financial services to thoroughly address the needs of the federal financial community. FABS has several services related to the sale of real assets, including valuation and pricing of real property through appraisals, any type of legal sale, asset inventory, financially-related legal services and program management.

Reference GSA MAS 520 – Financial and Business Solutions (FABS) to procure these services.

Office Supplies and Equipment

From the workplace to the copy room to the conference room, GSA provides everyday items necessary to run your office faster, easier, and smarter. The list of office solutions available include, but is not limited to, basic office operating products and day-to-day supplies, such as office essentials (clips, notebooks, tape), writing instruments, paper, toner cartridges, binding and filing, cases and portfolios, business machines, calendars and personal organizers, computer products, data storage media and supplies, forms, office appliances, shredders, and office furnishings.

Reference GSA MAS 75 – Office Products/Supplies and Services to procure these offerings.

One Country. One Mission. One Source.

Shipping Supplies: Packing and Packaging Services

We are your one-stop source for day-to-day packaging and shipping supplies, as well as unique shipping containers. You can buy all kinds of bags, from lunch bags to foil bags and sand bags. Or choose from a vast range of bottles, jars, cartons, crates and cargo drums. Wrap packages or strap containers for maximum safety, or purchase pallets of plastic and wood for all kinds of transportation needs.

Reference GSA MAS 81 1B – Shipping Supplies, Packing and Packaging Services to procure these offerings.

Simple, Streamlined Procurement

Blanket Purchase Agreements (BPAs) can be established in connection with any Schedule under GSA's Multiple Award Schedules program. BPAs provide volume discounts and a faster buying process to minimize paperwork.

Online Resources: GSAAdvantage!®

GSAAdvantage!® is the federal government's premier online ordering system that provides 24-hour access to over 17 million products and services solutions available from over 16,000 GSA Multiple Award Schedules contractors, as well as all products available from GSA Global Supply™. GSAAdvantage!® offers FAR-compliant purchasing; direct contact with Schedule vendors to increase procurement speed and efficiency; specified grouping of products and services; easy-to-use research capabilities that narrow results and compare features, prices, and delivery options; and a streamlined online experience with instant online ordering. For those state and local government entities looking to simplify their procurement process, GSAAdvantage!® offers them the ability to use their own state or local government-issued charge card to access a wide variety of products and services solutions. It also provides customers with multiple payment options and online viewing of order status to ensure order management from beginning to end. To learn more, visit www.gsadvantage.gov.

eBuy

eBuy is an online Request for Quote tool to receive information for highly complex, large quantity or big-ticket procurement requirements. eBuy streamlines the solicitation process for customers by providing a single tool to post solicitations, receive quotes from GSA Multiple Award Schedules, GWAC or other GSA technology contractors, find sources of supply, submit responses and establish and use Blanket Purchase Agreements. eBuy creates value through instant access to contractors, paperless procurement from "cradle to grave," full compliance with Section 803 of the 2002

National Defense Authorization Act, real-time RFQ management, volume discounts, electronic award notification, and best-value practices through enhanced competition. It is ideal for customized services, with features that allow an agency to designate an RFQ as "Sources Sought," attached specification documents and describe complex or customized requirements. By using eBuy, customers can reduce the time spent on procuring products and services so that they can concentrate on their true missions. To learn more, visit www.ebuy.gsa.gov.

eLibrary

eLibrary serves as the most comprehensive online information resource for GSA Multiple Award Schedules and GSA technology contracts. It allows users to search Schedules, GWACs, and Network Services and Telecommunications contracts by contractor's name, contract number, Special Item Numbers (SINs), Schedule number, or source of supply keywords. Its category structure makes it easy to find groups of vendors that can fulfill the specific needs of each customer. For those state and local government entities looking to simplify their procurement process, eLibrary provides a complete listing of contractors participating in the state and local government programs. eLibrary also displays Schedule contract information and Schedule details, provides easy access to specific contract terms and conditions, links to vendor catalogs and product lists in GSAAdvantage!®, and connects directly with eBuy for RFQ creation. To learn more, visit www.gsaelibrary.gsa.gov.

Engineering, Scientific, and Logistics

At Your Service: Acquisition experts provide Best Value Solutions to meet any need.

Professional Engineering Services

Build on the best commercial know-how by accessing professional engineering services from today's leading organizations. From concept studies to complete design, from integrated logistics to test and evaluation, you can leverage professional contractors with expertise in various engineering disciplines including mechanical, electrical, chemical and civil engineering as well as sub-disciplines such as aerospace, nuclear, bioengineering, and marine architecture.

Reference GSA MAS 871 – Professional Engineering Services to procure these services.

- **Strategic Planning for Technology Program/Activities**
- **Concept Development and Requirements Analysis**
- **System Design, Engineering, and Integration**
- **Test and Evaluation**
- **Integrated Logistics Support**
- **Acquisition and Life Cycle Management**
- **Construction Management**

Logistics, Warehousing and Distribution Services

Logistically speaking, government has requirements of global dimensions and scale. Whether you need aircraft maintenance, equipment maintenance and repair, to reinvent your supply chain, or find turnkey base operations support, top logistics services providers are on board to help you. GSA's access to services extends to supply and value chain management, acquisition logistics, distribution and transportation logistics, deployment logistics, logistics training, support products, and operations and maintenance.

Reference GSA MAS 874 V – Logistics Worldwide (LOGWORLD) to procure these services.

- **Supply and Value Chain Management**
- **Distribution and Transportation Logistics Services**
- **Deployment Logistics Services**
- **Logistics Training Services**
- **Support Products**
- **Operations and Maintenance Logistics Management and Support Services**

Simple, Streamlined Procurement

All products and services under the GSA Multiple Award Schedules Program are pre-negotiated with “ceiling” pricing, enabling you to negotiate pricing to meet your unique needs. Choose experienced contractors familiar with federal laws, policies, and regulations.

GSA also offers Blanket Purchase Agreements (BPAs) for customers with recurring needs. BPAs, which can be established in connection with any Schedule under GSA's Multiple Award Schedules Program, offer volume discounts and a faster buying process to minimize paperwork.

Online Resources:

eLibrary: eLibrary serves as the most comprehensive online information resource for GSA Multiple Award Schedules and GSA technology contracts. Technology Solutions for Your Mission Requirements: VETS

Supporting Your Mission with Governmentwide Acquisition Contracts

Introduction to VETS

Whenever your agency needs information technology (IT) services, using Veterans Technology Services (VETS) provides you with high-quality solutions, as well as the knowledge that you are utilizing a small business owned by a service-disabled veteran of the U.S. Armed Forces.

As a small-business Governmentwide Acquisition Contract (GWAC) set-aside for Service-Disabled Veteran-Owned Small Businesses (SDVOSBs), VETS helps your federal agency achieve its socioeconomic goals. VETS is the result of Executive Order 13360, which was designed to strengthen federal contracting opportunities for SDVOSBs.

VETS is a multiple-award, indefinite-delivery/indefinite-quantity (IDIQ) contract designed to provide cutting-edge technology solutions to federal agencies like yours – without the expenses and time involved in open-market set-aside procurements.

See the back of this publication for the features and benefits of using the VETS GWAC.

Ordering

Prior to issuing orders under VETS, federal contracting officers (COs) must receive training on the use of the VETS contract and be granted a written delegation of procurement authority from the GWAC program office. Training is offered at no cost via:

- Onsite training conferences and events;
- Conference calls;
- Web or video conference; and
- A self-paced, online course at the GSA Center for Acquisition Excellence (available at www.gsa.gov/cae).

Technology Solutions for Your Mission Requirements: Alliant Small Business

Supporting Your Mission with Governmentwide Acquisition Contracts

Introduction to Alliant Small Business

Whenever your agency requires “best value” information technology (IT) solutions, you can depend on Alliant Small Business (SB), GSA’s multiple-award, indefinite-delivery/indefinite-quantity (IDIQ) Governmentwide Acquisition Contract (GWAC) set-aside for small businesses. Alliant SB is designed to provide worldwide IT solutions to federal agencies while strengthening opportunities in federal contracting for small businesses.

The scope of Alliant SB encompasses all components of an integrated IT solution including infrastructure and related services, applications and related services, and IT management services to include new technologies that may emerge during the life cycle of the contract. This GWAC provides IT solutions through the performance of a broad range of services provided by small businesses, including the integration of various technologies critical to the services being acquired.

See the back of this publication for the Features and Benefits of using the Alliant SB GWAC.

Ordering

Prior to issuing orders under Alliant SB, federal contracting officers (COs) must receive training on the use of the Alliant SB contract and be granted a written delegation of procurement authority from the GWAC program office. Training is offered at no cost via:

- Onsite training conferences and events;
- Conference calls;
- Web or video conference; and
- A self-paced, online course at the GSA Center for Acquisition Excellence (available at www.gsa.gov/cae).

For More Information

For more information about how the Alliant SB GWAC can provide your agency with state-of-the-art IT solutions through the utilization of small businesses, contact the Small Business GWAC Center at (877) 327-8732, email alliantsb@gsa.gov, or visit www.gsa.gov/alliantsb.

One-Stop Solutions for Telecommunications: Networkx

Experience GSA's Comprehensive Networking Services and Technical Solutions

Networkx Program

Whenever your agency requires comprehensive, best-value telecommunications, networking solutions and/or technical services, GSA stands ready with the Networkx program. This comprehensive program – which consists of two simultaneous acquisitions, Networkx Universal and Networkx Enterprise – serves as the primary replacement for the expiring FTS2001 and FTS2001 Crossover contracts, as well as federal wireless contracts. Networkx enables your agency to focus its resources on building seamless, secure operating environments while resting assured that you have access to the best technology the industry has to offer.

Benefits

- **Service Continuity** – All services to all locations that are currently covered by the FTS2001 and Crossover contracts
- **Competitive Prices** – Below current FTS2001 prices overall
- **High-Quality Service** – Reliable and efficient service to meet customer agency mission
- **Full-Service Offerings** – A broad array of services, and the ability to expand services throughout the life of the contracts
- **Alternative Sources** – Access to a broad spectrum of industry service providers, including major telecommunications companies
- **Operations Support** – Ordering, billing and inventory-management functions

- **Transition Support** – Timely and efficient transition coordination and assistance
- **Performance-Based Contracts** – Service Level Agreements (SLAs) to ensure offeror's performance and quality of service

To take advantage of all that Networkx offers, your agency should: conduct an analysis of its current and future telecommunications and networking requirements; develop service groupings and a strategy to meet Fair Opportunity requirements; select a Networkx acquisition (Networkx Universal or Networkx Enterprise); select a service provider; place orders; and transition existing services and/or implement new services.

For More Information

For further information about how Networkx can help your agency, visit www.gsa.gov/networkx. If you have questions about Networkx, call (866) 472-0274, e-mail networkx.support@gsa.gov, or contact your designated Technology Service Manager (find yours in the "TSM Agency Listing," available at www.gsa.gov/gam).

Contract Type

All contracts are fixed-price, 10-year, indefinite delivery/indefinite quantity (IDIQ) contracts with four base years and three two-year options.

Network Universal

Network Universal contracts provide a full range of services, including service continuity from FTS2001 and Crossover contracts, and national and international coverage. These contracts were awarded on March 29, 2007 to:

- **AT&T** (contract GS00T07NSD0007)
- **MCI Communications Services, Inc.** (d.b.a Verizon Business; contract GS00T07NSD0008)
- **Qwest Government Services, Inc.** (contract GS00T07NSD0002)

Network Enterprise

• **Network Enterprise** contracts provide IP-centric services and national and varying international coverage. These contracts were awarded on May 31, 2007 to:

- **AT&T** (contract GS00T07NSD0041)
- **MCI Communications Services, Inc.** (d.b.a. Verizon Business; contract GS00T07NSD0038)
- **Qwest Government Services, Inc.** (contract GS00T07NSD0040)
- **Level 3 Communications, Inc.** (contract GS00T07NSD0037)
- **Sprint Nextel** (contract GS00T07NSD0039)

Service Types

• **Telecommunications Services** feature three categories:

- **Communications Transport Services.** These include basic transport-level services. Examples: voice, toll-free, frame relay, and private line.
 - **IP-Based Services.** These include services based on Internet Protocol (IP). Examples: premises-based IP VPN, Voice-over IP Transport Services (VoIP), IP telephony, and IP Video Transport.
 - **Optical Services.** These include services based on optical fiber. Examples: synchronous optical network (SONET), optical wavelength, and dark fiber.
- **Management and Application Services** include services that address the agency's need for management and applications services. Examples: video teleconferencing, audio conferencing, teleworking, dedicated hosting, and storage.
- **Security Services** include services that provide additional security solutions and management. Examples: managed firewall, incident response, secure managed e-mail, and intrusion detection and prevention.
- **Special Services** include services based on satellite and land mobile radio transmission systems. Examples: mobile satellite, fixed satellite, and Land Mobile Radio System (LMRS).
- **Wireless Services** include services based on terrestrial wireless transmission systems. Examples: cellular/PCS, multi-mode wireless, cellular digital packet data, and paging.

GSA Global Supply Supports the U.S. Military

Acquisition experts provide Best Value Solutions to meet BRAC needs.

Wherever military personnel are, we supply them quickly and easily with whatever they need. As a vital component of the National Supply System, we offer more than 300,000 products to support the military — tools, office supplies, hardware, specialized equipment and more. Every item, in any quantity, is compliant with Federal Acquisition Regulations (FAR). We support you from order placement through delivery and billing. You can order online, through MILSTRIP, via phone, fax or email.

Requisition-Based Ordering

When ordering from GSA Global Supply, you are submitting a simple requisition for product fulfillment, not conducting a complex procurement. Because you are buying directly from another federal agency, you do not need to review three price lists or comparison shop — regardless of the dollar amount or quantity ordered.

You can purchase from \$10 to \$10,000 in supplies — or as high as your credit card limit. No matter what the amount, you are compliant with FAR regulations, small business, environmental, and socioeconomic (AbilityOne, NIB/NISH) requirements.

What You Need – When You Need It

Choose from hundreds of thousands of products in:

- Shipping and Moving Supplies
- Office supplies
- Tools and hardware
- Computer products and accessories
- Industrial supplies
- Disaster relief
- Paints, solvents and adhesives

A Variety of Payment Options:

- Direct billing with your Department of Defense Activity Address Code (DoDAAC)
- Use of the Government Purchase Card

Our Service Guarantees:

- Global delivery — Wherever you are
- Flexible ordering — Online, MILSTRIP, phone or fax
- Multiple payment options — By DoDAAC or the Government Purchase Card
- Easy compliance — Your purchases satisfy all FAR and AbilityOne requirements

Ordering Information

GSA Global Supply accepts your government purchase card or direct billing through your Activity Address Code (AAC) or DoDAAC.

Online: www.GSAGlobalsupply.gsa.gov

Available 24/7. The GSA Global Supply Web site gives you access to hundreds of thousands of tools, office supplies, computer products and other items.

Telephone: **(800) 525-8027** **DSN 465-1416**

Available 7:30 a.m. to 8 p.m. (Eastern time),
Monday through Friday.

Fax Orders: **(800) 856-7057**

Available 24/7. You will receive a confirmation via fax.

Additional Ordering Options

GSA Advantage® – www.gsaadvantage.gsa.gov

Available 24/7. The same User ID and password can be used on the GSA Global Supply Web site and GSA Advantage®. The contractor field will indicate “GSA Global Supply.”

DOD EMALL – www.emall.dla.mil

Available 24/7. All GSA Global Supply items appear on the Defense Logistics Agency’s DOD EMALL site. Customers must use their DoDAAC to purchase GSA items. The supplier field will indicate “GSA MILSTRIP” if the product is offered by GSA Global Supply.

FEDSTRIP/MILSTRIP

We continue to support orders routed from the Defense Automatic Addressing System (DAAS). We’re also happy to accept your Standard Form 344 or DD 1348 by mail:

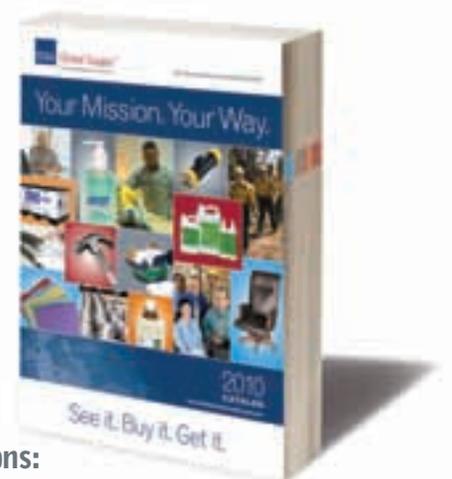

GSA Global Supply (QCDACDA) **Room 6A00** **819 Taylor Street** **Fort Worth, TX 76102**

As part of our ongoing partnership with DoD, we are linked to the Defense Transportation System, to reach you in theatre with the products you need. Every year, GSA Global Supply sends millions of products overseas in support of the warfighter.

No matter what your mission, GSA Global Supply helps you accomplish it — in times of peacekeeping or warfighting, and from homeland security needs to the frontlines overseas.

Contact Information:

For more information on GSA Global Supply, please contact us at GSAGlobalsupply@gsa.gov or (800) 525-8027.

To request a copy of the 2010 GSA Global Supply catalog, or obtain specialty catalogs focused on various offerings, visit www.gsa.gov/cmls.

GSA's Comprehensive Furniture Solutions

Acquisition experts provide Best Value offerings to meet BRAC workplace needs.

Surround yourself with innovative solutions for every work environment. You can buy everything from conference tables to filing systems; or take advantage of turnkey solutions that furnish a room, a floor, or an entire building. Acquire furniture for households and quarters living, as well as special use items, like library bookcases or a vault. Floor coverings are offered, as are all kinds of furnishings such as: wall art, lamps, and window treatments. Also available are: copiers, scanners, and document management services; audio/visual equipment; and complementary furniture-management services.

GSA offers the following products and services under various GSA Multiple Award Schedules (MAS) programs:

GSA MAS 71 I – Office Furniture to support all your office needs. Executive furniture, system furniture, file cabinets, chairs, lamps, wall hangings and much more.

GSA MAS 71 II – Household and Quarters Furniture; to support your household and quarters: from cabinets, dormitory, quarters residential case goods and beds, chairs, desks, bar stools, and upholstered seating; to dining room, casual and outdoor furniture.

GSA MAS 71 II H – Packaged Furniture: Packaged office solutions for healthcare offices, exam rooms, and waiting rooms. Includes the Packaged Office program for offices, conference rooms, classrooms, and training rooms; the Packaged Room program for lobbies, suites, recreational rooms, individual sleeping quarters, dorms and barracks, as well as lounges and day rooms; and the Packaged Healthcare program to include long-term care rooms, exam rooms, waiting rooms, and healthcare offices.

GSA MAS 71 II K – Comprehensive Furniture Management Services: Furniture and furnishings related to procurement management, assets management, reconfiguration/ relocation

management, furniture design/layout, packaged environments, and assets maintenance.

GSA MAS 71 III – Special Use Furniture: Children's furniture, classroom auditoriums and theatres, classroom storage, library furniture, mail sorting furniture, cafeteria and food service furniture, industrial and institutional furniture, museum storage, clothing lockers, hospital beds and accessories, and design and installation services.

GSA MAS 71 III E – Security Furniture: Furniture for cabinets, security, weapons storage, doors, and vaults.

GSA MAS 72 I A – Floor Coverings: Floor covering including carpet, rugs, carpet tiles, and carpet cushions.

GSA MAS 72 II – Furnishings: Includes lamp/shades, window treatments, bedspreads, comforters, curtains, wall art, tabletop accessories, artificial trees, plants, and services.

Additional Workplace Solutions

GSA MAS 58 I – Professional Audio/Video, Telecommunications and Security Solutions: Televisions, DVDs and other solutions, from handheld camcorders to recording and video/audio equipment, and closed circuit and other surveillance equipment to professional audio/video production services.

GSA MAS 78 – Sports, Promotional, Outdoor, Recreation, Trophies, and Signs (SPORTS): Outdoor and park recreational equipment and gear, fitness equipment, outdoor and indoor stages, signs, flags, trophies, awards, presentations, promotional products, briefcases and carrying cases, trade show displays and exhibit systems, and all related products.

One Country. One Mission. One Source.

Simple, Streamlined Procurement

Blanket Purchase Agreements (BPAs) can be established in connection with any Schedule under GSA's Multiple Award Schedules program. BPAs provide volume discounts and a faster buying process to minimize paperwork.

Online Resources:

GSAAdvantage!®

GSAAdvantage!® is the federal government's premier online ordering system that provides 24-hour access to over 17 million products and services solutions available from over 16,000 GSA Multiple Award Schedules contractors, as well as all products available from GSA Global Supply™. GSAAdvantage!® offers FAR-compliant purchasing; direct contact with Schedule vendors to increase procurement speed and efficiency; specified grouping of products and services; easy-to-use research capabilities that narrow results and compare features, prices, and delivery options; and a streamlined online experience with instant online ordering. For those state and local government entities looking to simplify their procurement process, GSAAdvantage!® offers them the ability to use their own state or local government-issued charge card to access a wide variety of products and services solutions. It also provides customers with multiple payment options and online viewing of order status to ensure order management from beginning to end. To learn more, visit www.gsaadvantage.gov

eBuy

eBuy is an online Request for Quote tool to receive information for highly complex, large quantity or big-ticket procurement requirements. eBuy streamlines the solicitation process for customers by providing a single tool to post solicitations, receive quotes from GSA Multiple Award Schedules, GWAC or other GSA technology contractors, find sources of supply, submit responses and establish and use Blanket Purchase Agreements. eBuy creates value through instant access to contractors,

paperless procurement from "cradle to grave," full compliance with Section 803 of the 2002 National Defense Authorization Act, real-time RFQ management, volume discounts, electronic award notification, and best-value practices through enhanced competition. It is ideal for customized services, with features that allow an agency to designate an RFQ as "Sources Sought," attached specification documents and describe complex or customized requirements. By using eBuy, customers can reduce the time spent on procuring products and services so that they can concentrate on their true missions. To learn more, visit www.ebuy.gsa.gov

eLibrary

eLibrary serves as the most comprehensive online information resource for GSA Multiple Award Schedules and GSA technology contracts. It allows users to search Schedules, GWACs, and Network Services and Telecommunications contracts by contractor's name, contract number, Special Item Numbers (SINs), Schedule number, or source of supply keywords. Its category structure makes it easy to find groups of vendors that can fulfill the specific needs of each customer. For those state and local government entities looking to simplify their procurement process, eLibrary provides a complete listing of contractors participating in the state and local government programs. eLibrary also displays Schedule contract information and Schedule details, provides easy access to specific contract terms and conditions, links to vendor catalogs and product lists in GSAAdvantage!®, and connects directly with eBuy for RFQ creation. To learn more, visit www.gsaelibrary.gsa.gov

Contact Information:

For more information on Workplace Solutions, contact GSA's Integrated Workplace Acquisition Center:

www.gsa.gov/furniture

**Business Development
(703) 605-9300**

As of October 1, 2009, GSA MAS 71 I, 71 II, 71 II H, 71 III, and 71 III E will be combined into GSA MAS 71 and entitled "Furniture"; GSA MAS 72 I A and 72 II, will be combined into GSA MAS 72, and entitled "Furnishings and Floor Coverings."

GSA's Facilities, Security, Scientific and Hospitality Solutions

Acquisition experts provide Best Value offerings to meet BRAC needs.

Facilities Services and Supplies

Do you need a shelter, but do not have time to build it? Are you looking for a new door or lock? Is your industrial facility running at peak efficiency and in an environmentally-friendly manner? Do you have the parts and pieces you need to distribute power more efficiently? GSA can provide all this and more.

Reference GSA MAS 56 – Buildings and Building Materials/Industrial Services and Supplies to procure these offerings.

Security Services and Supplies

Whether it is protecting our shorelines, patrolling our harbors, ports and federally-controlled lakes and rivers, or containing oil-spills, this Schedule has all types of marine craft, equipment and services to meet your needs. For all of your law enforcement protection, prevention, apprehension, or investigative needs, you'll find equipment and services for personal, vehicular or facility applications.

Services such as professional security, facility management and guard services are available on this Schedule, along with a vast array of products. Available Items help you extinguish fires, manage controlled burns, and provide personal respiratory protection. There are also products for search and rescue, safe personnel evacuation, and building/vehicle entry. Uniforms and safety shoes and boots of all types are also offered.

Check out our process monitoring, hazard alarms, audible/visual alarms, anti-theft alarms, patient wandering systems and fire alarm systems. Also offered are facility management systems for security functions and energy management functions. For protection from the elements, fire, biochemical exposure, accidental immersion, or other hazardous materials, see what is available on this Schedule.

Reference GSA MAS 84 – Total Solutions for Law Enforcement, Security, Facility Management Systems, Fire, Rescue, Special Purpose Clothing, Marine Craft, and Emergency/Disaster Response to procure these offerings.

Scientific Equipment and Services

This Schedule offers one-stop shopping for all your general purpose and specialized laboratory equipment needs. From unmanned aerial vehicles to measurement and testing equipment, GSA can fully support your electronic systems. Whether you are in the market for a Global Positioning System or just data collecting/sampling instruments, you'll find the latest technology available. Regardless of your testing and analysis services needs, GSA can provide all of this and more.

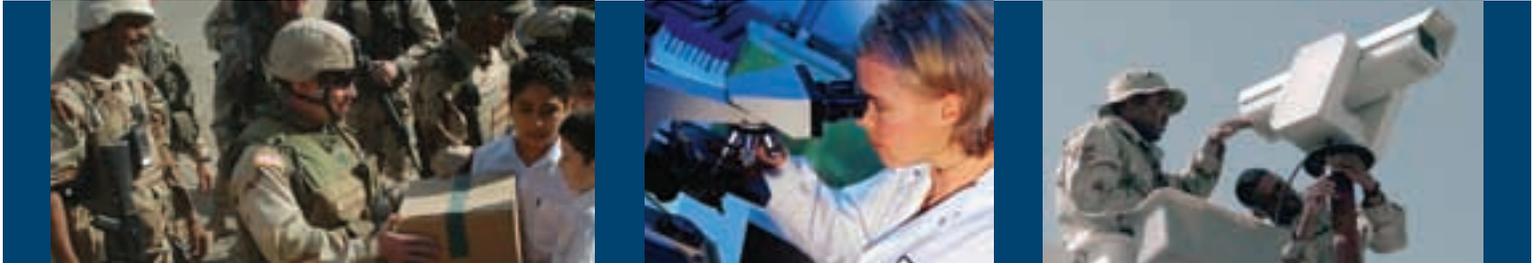

Reference GSA MAS 66 – Scientific Equipment and Services to procure these offerings.

Hospitality Services

GSA offers a huge choice of products and services that can enhance Morale, Welfare, and Recreational programs, as well as support other critical missions such as military operations and natural disaster relief.

Morale, Welfare, and Recreation (MWR) programs contribute significantly in the support of military communities and federal agencies, which serve to enhance the quality of life of military members, federal employees, and ultimately their families. High-quality and well-maintained MWR programs are important to retention, readiness and overall mission success. Products under Schedule 73 can also provide value-added tools that augment military units, help with disaster relief operations and so much more!

Reference GSA MAS Schedule 73 – Food Service, Hospitality, Cleaning Equipment and Supplies, Chemicals and Services to procure these offerings.

Simple, Streamlined Procurement

Blanket Purchase Agreements (BPAs) can be established in connection with any Schedule under GSA's Multiple Award Schedules program. BPAs provide volume discounts and a faster buying process to minimize paperwork.

Technology Solutions for Your Mission Requirements: 8(a) STARS

Supporting Your Mission with Governmentwide Acquisition Contracts

Introduction to 8(a) STARS

Whenever your agency requires technology services, using the 8(a) Streamlined Technology Acquisition Resources for Services (STARS) Governmentwide Acquisition Contract (GWAC) can provide you with high-quality solutions, as well as the knowledge that you are utilizing a small business – thereby helping achieve your agency's socioeconomic goals.

Procuring technology services using 8(a) STARS means you can be assured that a reputable small business will provide you with excellent solutions. And using 8(a) STARS enables you to conduct set-aside competitions through an established contract vehicle instead of traditional, open market methods-saving time and taxpayer money.

8(a) STARS is a multiple-award, indefinite-delivery/indefinite quantity (IDIQ) contract engineered to provide cutting-edge technology solutions to federal agencies from award winning 8(a) small businesses. In its first five years of operation, 8(a) STARS assisted federal agencies worldwide in acquiring over \$1.6 billion in IT service solutions.

See the back of this publication for the features and benefits of using the 8(a) STARS GWAC.

Ordering

Prior to issuing orders under 8(a) STARS, federal contracting officers (COs) must receive training on the use of the 8(a) STARS contract and be granted a written delegation of procurement authority from the GWAC program office. Training is offered at no cost via:

- Onsite training conferences and events;
- Conference calls;
- Web or video conferences; and
- A self-paced, online course at the GSA Center for Acquisition Excellence (available at www.gsa.gov/cae).

For More Information

For further information about how the 8(a) STARS GWAC can help your agency, contact the Small Business GWAC Center at (877) 327-8732, e-mail 8a@gsa.gov, or visit www.gsa.gov/8astars.

GSA eTools

The Center for Acquisition Excellence is available free of charge 24 hours a day, seven days a week to provide customer agencies and contractors with online training, including GSA GWAC information. www.gsa.gov/cae

eBuy is an online Request for Quotation (RFQ), Request for Information (RFI) and Request for Proposal (RFP) tool designed to facilitate a wide range of commercial supplies and services offered by GSA Schedule and Governmentwide Acquisition Contract (GWAC) contractors. www.gsa.gov/ebuy

eLibrary is the online source for the latest contract award information for GSA Schedules; Department of Veterans Affairs (VA) Schedules; and Technology Contracts, including Governmentwide Acquisition Contracts (GWACs), Network Services and Telecommunications Contracts, and Information Technology (IT) Schedule 70. www.gsa.gov/elibrary

IT Solutions Shop (ITSS) provides an automated, convenient, and secure means for federal agencies to order and accept services and commodities from vendor partners - facilitating billions of dollars worth of transactions. itss.gsa.gov

Augmenting Complete Support for Your IT Strategy: GSA MAS 70

Scalable Offerings for Your IT Needs

Introduction to GSA Multiple Award Schedule (MAS) 70

As the federal government's "go to" source for information technology (IT) solutions and products, GSA Multiple Award Schedule (MAS) 70 offers your agency state-of-the-art IT solutions and products, coupled with continually refreshed products, vendor selection, and Special Item Numbers (SINs), all of which combine to make GSA MAS 70 a very comprehensive solution.

All offerings available through GSA MAS 70 (also known as Schedule 70) are completely scalable to accommodate your IT needs – whether your requirements are large or small, few or many. Also, GSA MAS 70 supports the interoperability standards established by Homeland Security Presidential Directive 12 (HS-PD 12), which puts you on the path to government interoperability.

The GSA MAS program is the largest procurement vehicle in the U.S. government, and GSA MAS 70 is the most widely used acquisition offering in the federal government. In fact, nearly one-third of all GSA MAS vendors are available through GSA MAS 70, which means you will get the solutions and products you need, and you can mix and match (from a pool of more than 5,000 vendors) by utilizing a contractor team arrangement (CTA). Whatever your IT need, the acquisition experts at GSA are ready to put GSA MAS 70 and its integrated acquisition solutions to work for you.

Flexible Ordering

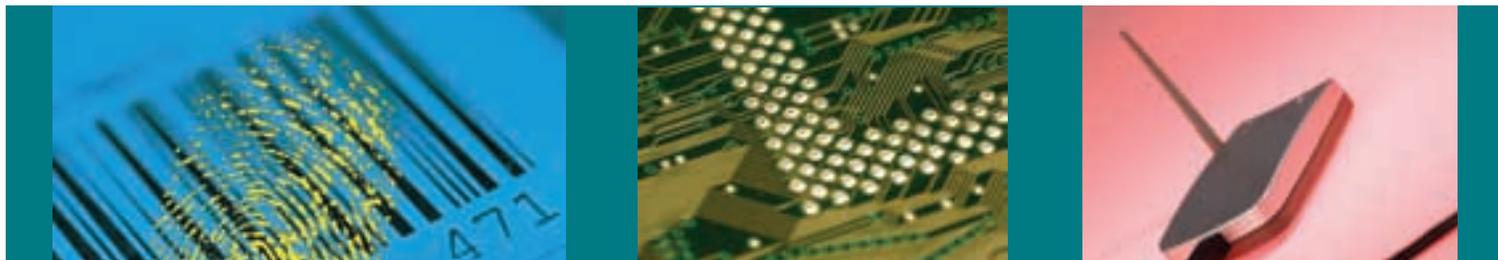

Whenever you use GSA MAS 70, you choose how you place the order. You may:

- Procure through direct channels by placing a task order;
- Order from a single vendor by using a Request for Quotation (RFQ);
- Select hands-on support from GSA to help guide you through ordering activities, or to assist you throughout the life cycle of an acquisition;
- Create solutions via vendors offering products and services across more than one MAS or SIN;
- Enter into a Blanket Purchase Agreement (excellent for recurring needs);
- Combine multiple vendors into a Contracting Team Agreement (CTA), which is surprisingly easy to do, given GSA MAS 70's size and breadth of offerings; or
- Get quotes easily and quickly.

Keep in mind that GSA MAS 70 is scalable, which means its scope runs the full gamut, from micro-purchases to enterprise-wide solutions-based requirements.

For More Information

For further information about GSA MAS 70, visit www.gsa.gov/schedule70. If you have questions, please contact it.center@gsa.gov (anytime) or (703) 605-2700 (available from 8 a.m. to 4:30 p.m., Monday through Friday).

Benefits of GSA MAS 70

GSA MAS 70 is the federal government's first-stop for IT products and services for many reasons. First of all, GSA MAS 70 provides a comprehensive array of IT solutions, including: robust IT commercial products and services; secure networks; Internet Protocol Version 6.0 (IPv6) products and services; and identification-management solutions. Also, GSA MAS 70 acquisitions are faster and easier than open-market procurements. And our pre-negotiated prices and labor rates are subject to further discounts.

GSA MAS 70 is compliant with the Federal Acquisition Requirement (FAR) but also with the FIPS 201 approved-products list for HSPD-12 (SIN 122-62), which defines the federal government's interoperability plan. As the federal government is mandated to move to more interoperable platforms and security measures, the GSA MAS program is (in most cases) the agency designated to consolidate the acquisition efforts of the federal government. GSA MAS 70 is also the place to obtain PKI- and ACES-approved products.

How GSA MAS 70 Works for You

GSA MAS 70 enables the acquisition of technology equipment, software and professional services. Awards are continuously made using quality offers from industry and MAS contract vehicles that result in indefinite delivery/indefinite quantity (IDIQ) contracts, and the best value for your agency. These contract vehicles establish fair and reasonable pricing, delivery terms, and other contractual requirements based on a broad range of general categories for commercial off-the-shelf (COTS) products and services that today's technology demands. GSA MAS 70 is designed to assist you with achieving your mission by providing a simplified acquisition vehicle that will help maximize the value of your IT purchases – all while streamlining the process.

Features of GSA MAS 70

- **Combined Synopsis and Solicitation**
- **Blanket Purchase Agreements**
- **Contractor Teaming Arrangements**
- **Spot Discounting**
- **Price Reductions**

The General Services Administration, Federal Acquisition Service is pleased to provide you with a comprehensive product and service solutions toolkit to be used as you complete actions associated with the 2005 Base Realignment and Closure (BRAC) process. Many BRAC affected defense locations are actively taking measures to identify, implement and complete their requirements by September 2011, as well as adhere to other associated critical milestones.

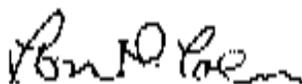

The materials contained in the BRAC toolkit can be used to assist in meeting your BRAC milestones. As GSA has successfully supported the last four rounds of the DoD BRAC process, through the Multiple Award Schedules, GSA Global Supply™ and Personal Property Management programs, we continue to provide gaining, losing and realigning installations with solutions for their requirements. From environmental cleanup, construction management and relocation services, to comprehensive furniture solutions, information technology and personal property disposal solutions, GSA has a robust solution set to support your needs.

We hope you will find this information useful and include these resources in your future planning. Additional information and assistance can be obtained by contacting our GSA Customer Service Directors (CSDs). Our network of knowledgeable CSDs provides assistance, resolves problems and answers your BRAC related questions. Please visit www.gsa.gov and click on "How We Help" and "Customer Support" to locate your local CSD. You may also visit our website at www.gsa.gov/brac for additional information.

We remain committed to supporting your ongoing mission requirements and look forward to supporting your BRAC needs.
