Diagnostic Solutions to Keep the World Moving...

NEXIQ is proud to offer diagnostic solutions for today's government, military and municipal fleets. Marine engine coverage as well!

GS-07F-0208K

Pro-Link® Plus remains the **NUMBER 1** handheld diagnostic scan tool in the heavy duty vehicle repair market...

NEXIQ continues to stay current by offering the latest diagnostic software available for the Detroit Diesel III and IV family of engines and V-Mac III engines available on PCMCIA cards with our Multiple Protocol Cartridge (MPC). We also offer coverage for past and present Allison Transmission products including WTEC and CEC transmissions. For Anti-Lock Braking system coverage, **NEXIQ** offers Meritor WABCO, Honeywell/Bendix and Eaton diagnostic software. **NEXIQ** also provides marine coverage with the Detroit Diesel Marine application for the Coast Guard or Harbor Patrol.

For PC-based diagnostic solutions take a look at the most universal vehicle interface available in the market today...**NEXIQ's** Magikey™ PDM or SDM. These unique PC interfaces are capable of providing vehicle connectivity with **NEXIQ's** PC-based applications as well as applications produced by each manufacturer.

For more information about handheld or PC-based vehicle diagnostic solutions visit our website at www.nexiq.com. Products are also available on GSA Advantage! @ www.gsaAdvantage.gov.

Cutler-Hammer Two-Stage Surge Protection Products

The Cutler-Hammer Surge Protector by Eaton Corporation is the first line of defense against destructive surges. Its innovative, three-way design provides primary protection by stopping surges on AC power, telephone, and

coaxial cable lines right at the loadcenter.

Eaton Corporation's Cutler-Hammer SurgeTrap™

Strips and Plug-In Surge Protectors are the second line of defense, providing secondary protection for electrical equipment against remnant surges right at the outlet.

All Cutler-Hammer surge protection products provide unequalled quality, performance, and reliability – and they come with outstanding warranties. Safeguard all your IT equipment with Cutler-Hammer's Surge Protection Products.

Order on-line through GSA Advantage! at www.gsaAdvantage.GOV or directly from the manufacturer:

GSA Contract No. GS-10F-0115K

ENSR Awarded GSA Contract

ENSR International is a worldwide environmental consulting, environmental engineering and remediation services company that has been supporting both the Federal and private sector for over thirty years. With a staff of over 1,300 professionals in 70 offices worldwide, ENSR has the ability to conduct our environmental support in some 25 languages. In 2000, the Engineering News Record ranked ENSR 22 in the top 200 environmental firms in the United States. ENSR prides itself in delivering timely, cost-effective and quality services to meet the environmental needs of our Federal clients, which currently include DoD, EPA, DOE, USPS, GSA, and DOI.

ENSR is pleased to announce our recent award of a General Services Administration contract for Environmental Services (GS-10F-0115K). With this contract, ENSR is available to support all Federal agencies in the following areas:

- SIN 899-1, Environmental Planning Services & Documentation
- SIN 899-2, Environmental Compliance Services
- SIN 899-3, Environmental & Occupational Training Services
- SIN 899-4, Waste Management Services
- SIN 899-5, Hazardous Materials Management Advisory Services

ENSR's goal under this contract is provide the General Services Administration and their potential clients in the Federal sector with responsive support to meet their diverse environmental needs. Currently under this contract, ENSR is providing support to DoD, EPA, and GSA with a broad range of services to meet their respective needs.

GSA Contract No. GS-10F-0293K

Announcing another resource for delivering smarter environmental solutions . . .

Hart Crowser's environmental services are now available worldwide through a recent General Services Administration (GSA) Federal Supply or Multiple Award Schedule (MAS) Contract No. GS-10F-0308K. This program streamlines the contractor process for agencies to meet their environmental service requirements by providing a faster, more cost-efficient means of procuring services:

- Environmental Planning, Services, and Documentation (SIN 899-1)
- Environmental Compliance Services (SIN 899-2)
- Environmental/Occupational Training Services (SIN 899-3)
- Waste Management Services (SIN 899-4)
- Hazardous Material Management Advisory Services (SIN 899-5)
- Remote Advisory Services (SIN 899-6)

Our technical capabilities and competitive rates are pre-approved by GSA. Federal agencies utilizing the GSA MAS can be fully assured that procurements meet the best value criteria for government acquisitions. This process eliminates the requirements for a Commerce Business Daily (CBD) synopsis, further competitive analysis, or pricing determinations.

For more information, visit www.hartcrowser.com/gsa/index.html or log onto GSA Advantage!™ at www.fss.gsa.gov.

When you create the **E**nvironmental **M**anagement **S**ystem (EMS) for your facility, you can choose:

- a. ISO 14001 (very expensive, incomplete and designed for the private sector).
- b. the CEMP (cost effective, complete and designed by the EPA for governmental agencies).

If you choose "b", we can help forge you and your staff into an efficient team AND provide the road map they will need to produce a living, effective EMS.

Creative solutions to environmental problems

WLA

The Aeron Chair by Herman Miller

It's in the movies, on TV, in magazine ads, in museum design collections, and working hard in offices everywhere. Winner of countless awards, including the IDSA/Business Week Design of the Decade, it was a breakthrough when introduced in 1994. There's been nothing like it since. You can't miss its one-of-a-kind look. And when you sit down, you'll feel what all the fuss is about.

Aeron, the hottest chair on the planet, now at the hottest site on the web. Available on GSA Advantage! at:

**BOLDLY GO WHERE NO
MAIL OPENING MACHINE
HAS GONE BEFORE**

**The Omaton Model 206 Envelopener
is faster, bolder and more powerful.**

**GSA Contract Number:
G5-25F-5157C**

The Omaton Model 206 sets new standards for advanced speed, power and performance in high-volume mail opening. It completely and effortlessly opens envelopes at processing speeds of up to 36,000 per hour. And its so simple to use, inexperienced operators can achieve full processing speeds.

With a unique milling cutter that protects contents and prevents paper cuts, this next generation machine is state-of-the-art in accuracy, flexibility, reliability, ergonomics and economy. And its virtually indestructible.

Omaton Model 206. The next generation of envelopener is available today. Contact **Jeff Geshay** at **856-727-8933** or visit our web site at: **www.opex.com**.

Because it's what's inside that counts.
