SURE-FOOT

One-Part Slip Resistant Epoxy Grit Aerosol

Stop Slips and Injuries on Wet & Slick Walking Surfaces — Indoors or Outdoors!

Slips and falls cause 80% of on-the-job injuries (OSHA statistics). They often result in lawsuits and heavy fines.

But they can be prevented! **Sure-Foot** is a breakthrough in surface traction. It is a one-step anti-slip epoxy coating that puts down a gritty non-skid surface wherever it is sprayed. It gives durable traction to even the smoothest surfaces —indoors or outdoors! No mixing or combining components. Just shake up the can and spray on! Sure-Foot is chosen for slip prevention at Post Offices, VA Hospitals, GSA properties & DOD.

- Use on stairs, ramps, loading areas, shower areas —any slippery area.
- Adheres to concrete, wood, metal, fiberglass, tile, slate & painted surfaces.
- No sharp edges to rip up mops as other products can.
- No light & heavy areas like paint and sand. A long lasting, even coating over an entire surface.
- Can't pull up and create a tripping hazard like gritty tape.
- Available in Clear, Gray, Black and OSHA Safety Yellow.
- GSA contract price per case: 12/cans\$225.40 delivered.

DRINKING WATER SAFETY IN GOVERNMENT FACILITIES

Consider the advantages of removing bottled water from government facilities:

1. No deliveries to government buildings and loading docks
2. No offsite or onsite personnel handling drinking water bottles
3. No storage of drinking water bottles.

Now your facility can have an endless supply of high-quality drinking water, without the handling and safety issues of bottled water coolers.

Other standard features include:

Sani-Touch: improved dispensing system
 keeps hands away from faucet.

Fresh-Serve: water is instantly filtered and dispensed
 ... no reservoirs or bottles of stagnant water.

Sealed Water Pathway: eliminates airborne
 contamination that can affect bottled water
 coolers & reservoirs.

Natural Choice appliances are featured in facilities around the world providing quality drinking water across the US, Europe, and Asia ... from Corporate headquarters to Gov't locations including Dept of Commerce, Beale AFB, Travis AFB, and Wright Patterson AFB.

We've recently made export models available to GSA for international buyers.

RE-LOGISTICS, INC.

ATTENTION GOVERNMENT AND CONTRACT MANAGERS:

- Downsizing? Consolidating? Expanding?
- Changing/Shifting Mission?
- Concerned About Lazy-Asset Risks?
- Tight Budget? Underfunded?
- Appropriation Challenges?

LET'S DEVELOP THE OPPORTUNITY TOGETHER USING PRIVATE SECTOR BEST PRACTICES!

- UNDERUTILIZED/LAZY ASSETS - THE PRICE OF DISREGARD

Assets become expendable over time. Owners who fail to weed out lazy assets pay a hefty price.

What is this price? Each month you fail to act, four factors combine to impair your ability to compete:

- ↑ Costs to Keep ↑ Risks
- ↓ Declining Value ↓ Lost Opportunity

This can amount to 25% per year of the acquisition value, or more. The total can be staggering.

Finding lazy assets is the essence of our Asset Utilization Practice. We look in proven places for quick payoffs and we install the management systems to keep lazy assets to a minimum.

You and Your Group Win!

A WOMAN-OWNED COMPANY DEDICATED TO THE PRINCIPLES OF

- ECONOMIC VALUE ADDED (EVA®)
- TOTAL LIFE CYCLE MANAGEMENT (TLCM)
